Greg Lucas, State Librarian

Dear Mr. Lucas:

We are requesting permission as outlined in California Education Code Section 19150 from the State Librarian to appoint a person without the credentials listed in California Education Code Section 19142 to the position of County Library Director for the County of Plumas. We have conducted a nationwide recruitment that yielded a single applicant that was deemed suitable to be the next County Library Director by the Board of Supervisors.

At this point in the recruitment process and due to the lack of candidates with the required credentials, the Board does not feel there is another suitable applicant to be the next County Library Director. For the reasons listed in this letter, the Board respectfully requests permission by the State Librarian to appoint a person without the credentials listed in California Education Code Section 19142 to the position of County Library Director on an interim basis starting October 19, 2023 for up to one year while additional planning and recruitment efforts can be made to attempt to fill the vacancy.

Thank you for your consideration.
