- c. Discuss “Lack of crisis van service (mobile crisis unit)” – Sharon responded that this is a federal mandate that had no funding attached to it. Sharon previously contacted an expert in the field from Alpine County (and previously Trinity County). The State recommended that PCBH contact local hospitals and their EMT providers for this service. Two staff members would be required to go out to homes or other locations 24/7 as needed. There are 10 mandatory training courses (providers must be certified). Megan said this service would reduce ER admits and law enforcement involvement. Megan recommends that Sharon reach out to the local hospitals and ask them to get training for their EMTs to provide this service. Sharon will reach out to the hospital CEOs regarding this.
