PRESS RELEASE - 2/28/25

REQUEST FOR QUALIFICATIONS (RFQ)

PLUMAS COUNTY in association with INDIAN VALEY COMMUNITY SERVICES DISTRICT (IVCSD) invites qualified consultants to provide a statement of qualifications for the Plumas County Round Valley Reservoir Climate Adaptation and Nature Based Solutions (NBS) Project Scoping funding by Fiscal Year 2022 Building Resilient Infrastructure and Communities (BRIC) FEMA Grant Program (Project #PA01850).

[RFQ WAS ORIGINALLY PUBLISHED NOVEMBER 1, 2024 WITH NO SUBMISSIONS RECEIVED BY THE DECEMBER 2, 2024 RFQ DEADLINE]

RFQ RE-PUBLICATION DATE: FEBRUARY 28, 2025

RFQ SUBMISSION DEADLINE: APRIL 11, 2025

All questions pertaining to this RFQ must be submitted by email to traceyferguson@countyofplumas.com no later than 5:00PM on March 21, 2025.

The project scoping will identify mitigation activities to protect critical water services and water security functions and enhance resilience against current and future risks to the Round Valley Reservoir, Greenville, caused by recurring wildfires, increased flooding and erosional risks, and the expanding impacts of drought and climate change, and seeks to advance comprehensive planning, technical analyses, and stakeholder engagement to address infrastructure failure including its water supply and conveyance infrastructure, landslide/debris flow, and drought risks. The types of activities explored will include enhancing reservoir capacity, stabilizing banks, and reducing sedimentation to combat drought. The project scoping outcome will be the selection and conceptual design of the preferred and most effective mitigation strategy, focusing on climate resilience, future conditions, current site conditions, geotechnical investigations, stakeholder engagement, and partnership building.
