**Project Title:** Spanish Creek Vegetation Management Project

**Project Applicant:** Plumas County Fire Safe Council

**Project Location – Specific:**

T24N, R10E, S06

**Project Location - City:** Quincy

**Project Location - County:** Plumas

**Description of Nature, Purpose and Beneficiaries of Project:**

The proposal is an 18 acre fuels reduction project composed of one treatment unit located within the northern American Valley area in Quincy, California. The proposed project's goals are to 1) reduce the extent of hazardous fuel loading on sites with excessive stand density targeting conifer species 12" or less, and 2) increase spacing between residual trees to maximize forest health and productivity. Treatment methodologies utilized to achieve these goals include ~18 acres of hand thinning followed by prescribed fire treatment.

☒ Categorical Exemption. State type and section number: 15304; Class 4 Minor Alterations to Land

☐ Statutory Exemptions. State code number:

**Reasons why project is exempt:**

This project is located on privately owned lands and fits under Categorical Exemption: 15304 Minor Alterations to the Land (Class 4), which allows minor alteration of vegetation including fuel management activities to reduce volume of flammable vegetation, provided the activities do not result in the taking of endangered, rare, or threatened plant/animal species or cause significant erosion and sedimentation in water. Trees targeted for removal and pruning of residual trees will be restricted to those that reduce the vertical and horizontal continuity of fuels, and/or provide for improved ingress/egress in the event of wildfire. The proposed project has been designed to protect resources from potential significant impacts. This project, as designed, is consistent with the use of a Categorical Exemption.
