[45 C.F.R. Section 164.504(e)(ii)(2(I)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed.

Services Agreement

This Agreement is made by and between the COUNTY OF PLUMAS, a political subdivision of the State of California, by and through its **Sheriff's Office** (hereinafter referred to as "County"), and Franks Garage, LLC (hereinafter referred to as "Contractor").

The parties agree as follows:

1. Scope of Work. Contractor shall provide the County with services as set forth in Exhibit A, attached hereto.

2. Compensation. County shall pay Contractor for services provided to County pursuant to this Agreement in the manner set forth in Exhibit B, attached hereto. The total amount paid by County to Contractor under this Agreement shall not exceed Sixty Thousand and 00/100 Dollars ($60,000.00).

3. Term. The term of this agreement shall be from September 15, 2025, through September 14, 2026, unless terminated earlier as provided herein. County's Board of Supervisors hereby ratifies, and approves for payment, services provided by Contractor from September 15, 2025, to the date of approval of this Agreement by the Board of Supervisors.

4. Termination. Either party may terminate this agreement by giving thirty (30) days written notice to the other party.

5. Non-Appropriation of Funds. It is mutually agreed that if, for the current fiscal year and/or any subsequent fiscal years covered under this Agreement, insufficient funds are appropriated to make the payments called for by this Agreement, this Agreement shall be of no further force or effect. In this event, the County shall have no liability to pay any further funds whatsoever to Contractor or furnish any other consideration under this Agreement and Contractor shall not be obligated to perform any further services under this Agreement. If funding for any fiscal year is reduced or deleted for the purposes of this program, the County shall have the option to either cancel this Agreement with no further liability incurring to the County, or offer an amendment to Contractor to reflect the reduced amount available to the program. The parties acknowledge and agree that the limitations set forth above are required by Article XVI, section 18 of the California Constitution. Contractor acknowledges and agrees that said Article XVI, section 18 of the California Constitution supersedes any conflicting law, rule, regulation or statute.

6. Warranty and Legal Compliance. The services provided under this Agreement are non-exclusive and shall be completed promptly and competently. Contractor shall guarantee all parts and labor for a period of one year following the expiration of the term of this Agreement unless otherwise specified in Exhibit A. Contractor agrees to comply with all applicable terms of state and federal laws and regulations, all applicable grant funding conditions, and all applicable terms of the Plumas County Code and the Plumas County Purchasing and Practice Policies.

7. Amendment. This Agreement may be amended at any time by mutual agreement of the parties, expressed in writing and duly executed by both parties. No alteration of the terms of this Agreement shall be valid or binding upon either party unless made in writing and duly executed by both parties.

8. Indemnification. To the furthest extent permitted by law (including without limitation California Civil Code Sections 2782 and 2782.8, if applicable), County shall not be liable for, and Contractor shall defend and indemnify County and its officers, agents, employees, and volunteers (collectively "County Parties"), against any and all claims, deductibles, self-insured retentions, demands, liability, judgments, awards, fines, mechanics' liens or other liens, labor disputes, losses, damages, expenses, charges or costs of any kind or character, including attorney's fees and court costs (hereinafter collectively referred to as "Claims"), which arise out of or are in any way connected to the work covered by this Agreement arising either directly or indirectly from any act, error, omission or negligence of Contractor or its officers, employees, agents, contractors, licensees or servants, including, without limitation, Claims caused by the concurrent negligent act, error or omission, whether active or passive of County Parties. Contractor shall have no obligation, however, to defend or indemnify County Parties from a Claim if it is determined by a court of competent jurisdiction that such Claim was caused by the sole negligence or willful misconduct of County Parties. The obligations of this indemnity shall be for the full amount of all damage to County, including defense costs, and shall not be limited by any insurance limits.

9. Insurance. Contractor agrees to maintain the following insurance coverage throughout the term of this Agreement:

   a. Commercial general liability (and professional liability, if applicable to the services provided) coverage, with minimum per occurrence limit of the greater of (i) the limit available on the policy, or (ii) one million dollars ($1,000,000).

   b. Automobile liability coverage (including non-owned automobiles), with minimum bodily injury limit of the greater of (i) the limit available on the policy, or (ii) two-hundred fifty thousand dollars ($250,000) per person and five hundred thousand dollars ($500,000) per accident, as well as a minimum property damage limit of the greater of (i) the limit available on the policy, or (ii) fifty thousand dollars ($50,000) per accident.

ii. All coverage available under such policy to Contractor, as the named insured, shall also be available and applicable to the County, as the additional insured; and

iv. Any insurance limitations are independent of and shall not limit the indemnification terms of this Agreement; and

v. Contractor's policy shall be primary insurance as respects the County, its officers, officials, employees, representatives and agents, and any insurance or self-insurance maintained by the County, its officers, officials, employees, representatives and agents shall be in excess of the Contractor's insurance and shall not contribute with it, and such policy shall contain any endorsements necessary to effectuate this provision. The primary and non-contributory endorsement shall be at least as broad as ISO Form 20 01 04 13; and

vi. To the extent that Contractor carries any excess insurance policy applicable to the work performed under this Agreement, such excess insurance policy shall also apply on a primary and non-contributory basis for the benefit of the County before the County's own primary insurance policy or self-insurance shall be called upon to protect it as a named insured, and such policy shall contain any endorsements necessary to effectuate this provision.

d. Workers Compensation insurance in accordance with California state law.

If requested by County in writing, Contractor shall furnish a certificate of insurance satisfactory to County as evidence that the insurance required above is being maintained. Contractor shall determine the method, means and manner of performance of, but not limited to, such matters as outlined in Exhibit "A" without restriction by County. County is interested only in the results to be achieved from Contractor's performance of the services. Contractor shall provide their own resources and equipment and direct their operation in all respects when necessary to perform these services. Notwithstanding this Agreement, Contractor shall have the right to provide the same or similar services to entities other than the County without restriction. County shall have no authority, control, or liability regarding Contractor's performance or activities before or after each instance that Contractor may perform under this Agreement. Contractor will at all times indemnify and hold County, and their respective agents, contractors and employees harmless from any and all claims, damages, liabilities and costs (including attorneys' fees) arising out of any material breach by Contractor of any representation, warrant or agreement made by Contractor hereunder or arising out of Contractor's services.

13. Assignment. Contractor may not assign, subcontract, sublet, or transfer its interest in this Agreement without the prior written consent of the County.

14. Non-discrimination. Contractor agrees not to discriminate in the provision of service under this Agreement on the basis of race, color, religion, marital status, national origin, ancestry, sex, sexual orientation, physical or mental handicap, age, or medical condition.

3. Commencement and Term. The date of commencement of the Work shall be the date of execution of this Agreement. Contractor shall complete the Work no later than June 30, 2026, subject to adjustment as stated in Sections 15 and 16.

4. Termination.

    a. By County for Cause. The County may immediately terminate this Agreement for cause, upon written notice to Contractor, if Contractor (i) does not supply sufficient skilled workers or materials to ensure the timely and competent performance of the Work; (ii) fails to make payment to subcontractors for materials or labor in accordance with the respective agreements between Contractor and the subcontractors; (iii) violates any law, ordinance, rule, regulation, or order of a public authority having jurisdiction over Contractor, the County, or this Agreement; or (iv) has committed any other substantial breach of this Agreement. If the County terminates this Agreement for cause, then Contractor shall not be entitled to receive further payment from the County other than for the value of the services and materials previously provided to the County under this Agreement.

Transitional Housing Program (THP) Allocation Acceptance Round 7

Rev. 08/19/25

County Allocation (select Applicant County in row 7 below):	$26,645

Pursuant to item 2240-102-0001 of Section 2.00 of the Budget Act of 2025 (Chapter 4 of the Statutes of 2025) and Chapter 11.7 (commencing with Section 50807) of Part 2 of Division 31 of the Health and Safety Code (HSC), the Department of Housing and Community Development (HCD) shall allocate funding to counties for the purpose of housing stability to help young adults 18 to 24 years of age, inclusive, secure and maintain housing, with priority given to young adults formerly in the foster care or probation systems.

Housing First

The Contractor shall certify to employ the core components of Housing First, pursuant to Welfare and Institutions Code Section 8255 (b) as shown below:

1) Tenant screening and selection practices that promote accepting applicants regardless of their sobriety or use of substances, completion of treatment, or participation in services;
2) Applicants are not rejected on the basis of poor credit or financial history, poor or lack of rental history, criminal convictions unrelated to tenancy, or behaviors that indicate a lack of "housing readiness";
3) Acceptance of referrals directly from shelters, street outreach, drop-in centers, and other parts of crisis response systems frequented by vulnerable people experiencing homelessness;
4) Supportive services that emphasize engagement and problem solving over therapeutic goals and service plans that are highly tenant-driven without predetermined goals;
5) Participation in services or program compliance is not a condition of permanent housing tenancy;
6) Tenants have a lease and all the rights and responsibilities of tenancy, as outlined in California's Civil, Health and Safety, and Government codes;
7) The use of alcohol or drugs in and of itself, without other lease violations, is not a reason for eviction;
8) In communities with coordinated assessment and entry systems, incentives for funding promote tenant selection plans for supportive housing that prioritize eligible tenants based on criteria other than "first-come-first-serve," including, but not limited to, the duration or chronicity of homelessness, vulnerability to early mortality, or high utilization of crisis services. Prioritization may include triage tools, developed through local data, to identify high-cost, high-need homeless residents;
9) Case managers and service coordinators who are trained in and actively employ evidence-based practices for client engagement, including, but not limited to, motivational interviewing and client-centered counseling;
10) Services are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses; and
11) The project and specific apartment may include special physical features that accommodate disabilities, reduce harm, and promote health and community and independence among tenants.

Pursuant to Section 50811 of the HSC, HCD consulted with the Department of Social Services, the Department of Finance, and the County Welfare Directors Association to establish the formula allocation for the purpose of distributing these funds to counties. Transitional Housing Program (THP) Allocation Acceptance Round 7

Rev. 08/19/25

County Allocation (select Applicant County in row 7 below):	$26,645

Pursuant to item 2240-102-0001 of Section 2.00 of the Budget Act of 2025 (Chapter 4 of the Statutes of 2025) and Chapter 11.7 (commencing with Section 50807) of Part 2 of Division 31 of the Health and Safety Code (HSC), the Department of Housing and Community Development (HCD) shall allocate funding to counties for the purpose of housing stability to help young adults 18 to 24 years of age, inclusive, secure and maintain housing, with priority given to young adults formerly in the foster care or probation systems.

Housing First

The Contractor shall certify to employ the core components of Housing First, pursuant to Welfare and Institutions Code Section 8255 (b) as shown below:

1) Tenant screening and selection practices that promote accepting applicants regardless of their sobriety or use of substances, completion of treatment, or participation in services;
2) Applicants are not rejected on the basis of poor credit or financial history, poor or lack of rental history, criminal convictions unrelated to tenancy, or behaviors that indicate a lack of "housing readiness";
3) Acceptance of referrals directly from shelters, street outreach, drop-in centers, and other parts of crisis response systems frequented by vulnerable people experiencing homelessness;
4) Supportive services that emphasize engagement and problem solving over therapeutic goals and service plans that are highly tenant-driven without predetermined goals;
5) Participation in services or program compliance is not a condition of permanent housing tenancy;
6) Tenants have a lease and all the rights and responsibilities of tenancy, as outlined in California's Civil, Health and Safety, and Government codes;
7) The use of alcohol or drugs in and of itself, without other lease violations, is not a reason for eviction;
8) In communities with coordinated assessment and entry systems, incentives for funding promote tenant selection plans for supportive housing that prioritize eligible tenants based on criteria other than "first-come-first-serve," including, but not limited to, the duration or chronicity of homelessness, vulnerability to early mortality, or high utilization of crisis services. Prioritization may include triage tools, developed through local data, to identify high-cost, high-need homeless residents;
9) Case managers and service coordinators who are trained in and actively employ evidence-based practices for client engagement, including, but not limited to, motivational interviewing and client-centered counseling;
10) Services are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses; and
11) The project and specific apartment may include special physical features that accommodate disabilities, reduce harm, and promote health and community and independence among tenants.

Background and Discussion:

On August 11, 2023, Plumas County entered into a 36-month Standard Agreement with the State Department of Housing and Community development (HCD) under the 2022 Community Development Block Grant (CDBG) Disaster Recovery Plan for Greenville and Surrounding Fire-Impacted Rural Areas. Funds from this planning activity will be used to support disaster recovery planning and implementation, including the preparation of the Plumas County 2021 Wildfires Long-Term Recovery Plan Public Review Draft. On May 28, 2024, the Planning Department released a Request for Qualifications (RFQ) seeking professional services under the 2022 CDBG Planning grant inviting qualified respondents interested in providing professional services to Plumas County regarding the Plumas County 2021 Wildfires Long-Term Recovery Plan document assembly, formatting, and design. On July 16, 2024, the Board of Supervisors approved a Services Agreement for Mintier Harnish, as the preferred consultant based on the Evaluation Panel scoring.

The Services Agreement executed is in the amount of $65,000 with no General Fund Impact, as funding is coming from the 2022 CDBG Planning grant (HCD/County Standard Agreement 22-CDBG-PL-20040).

The term of the Services Agreement was July 16, 2024 through March 31, 2025.

On March 18, 2025, the Board of Supervisors approved Amendment 1, extending the Services Agreement through September 30, 2025, to allow for additional time to design, format, and prepare the 2021 Wildfires Long-Term Recovery Plan document.

Presently, the parties desire to change the Services Agreement, again, through an amendment, and extend the term to May 10, 2026. Amendment 2 is for a time extension only. Note, the HCD/County Standard Agreement expenditure deadline is May 10, 2026, with a reimbursement deadline of July 9, 2026, and a contract deadline of August 10, 2026.

Action:

Approve and authorize Chair to sign amendment no. 2 to agreement between Plumas County and Mintier Harnish for a Services Agreement term extension through May 10, 2026, to provide design, formatting, and document preparation services for the 2021 Wildfires Long-Term Recovery Plan.

Fiscal Impact:

No General Fund Impact - HCD/County Standard Agreement 22-CDBG-PL-2004.

10. Insurance. Contractor agrees to maintain the following insurance coverage throughout the term of this Agreement:

comply with CDBG requirements. The Department reserves the right to monitor all Work to be performed by the Grantee, its contractors, and subgrantees in relation to this Agreement. Any proposed revision to the Scope of Work must be submitted in writing for review and approval by the Department and may require an amendment to this Agreement. Approval shall not be presumed unless such approval is made by the Department in writing.

B. For the purposes of performing the Scope of Work, the Department agrees to provide the amount(s) identified in Exhibit B, and as detailed in Exhibit E, Budget Worksheet. Unless amended in writing, the Department shall not be liable for any costs in excess of the total approved budget. The Department shall not, under any conditions, be liable for any unauthorized or ineligible costs or activities.

C. Except for General Program Administration, grant activity(ies) must meet one of the following three CDBG National Objectives:

1) Benefit to Low/Moderate Income Persons or Households,

2) Urgent Need, or

3) Elimination of Slums or Blight as defined in 24 CFR 570.483.

Activities that do not meet the reporting deadline will be deemed ineligible and the Grantee will be required to repay all grant funds expended on the activity.

C. Milestones: Grantee shall timely adhere to project milestones as established in Exhibit E.

1) Failure to Meet Milestones:

a) Failure to meet the first milestone identified in Exhibit E, is a material breach and will result in a for-cause termination of this Agreement. All funds, including program income, reimbursed for this activity prior to the termination shall be returned to the Department no less than thirty (30) days from the written notification of termination.

2) Failure to meet any given subsequent milestones identified in Exhibit E, may result in loss of program eligibility and will restrict the Grantee from applying for additional CDBG funding until the activity is corrected and put back on schedule, or the activity is completed, or the activity is canceled.

EXHIBIT A

3) Any milestone or deadline except the first milestone, the final activity report milestone, and the expenditure deadline may be revised administratively with the approval of the Department without incurring penalty, provided the revision request is received in advance of the original milestone due date.

Contract Revisions must be approved by the Department prior to implementation. If approved, contract revisions shall automatically be deemed a part of, and incorporated into, this Agreement. Approval shall be provided either through the online grant management system, or in writing, as appropriate. Contract Revisions shall include but not be limited to:

2) Contract Amendments: Adjustments to the Scope of Work that require an increase or a reduced scope of work, that change the National Objective, or that change the type or reduces the number of beneficiaries assisted shall require a Contract Amendment. BUDGET DETAIL AND PAYMENT PROVISIONS

1. Budget

A. Budget Detail: The activity shall follow the budget as detailed in Exhibit E.

B. Program Income: All Program Income is state administered CDBG funding and is subject to the same federal requirements for financial administration as open grant awards. Program Income, including both cash-on-hand and future projected receipts, if identified as a funding source for any given activity, must be included in the activity budget and must be substantially expended prior to drawing grant award funds. Program Income must be identified separately from grant funds in the activity budget and must be broken out into activity and general administration funding, as applicable. The Department will not encumber locally administered Program Income against NOFA grant funds in the state's accounting system. Only new grant awards made under a NOFA or in conjunction with an Urgent Need application will be encumbered in the state's accounting system.

Funding in this Agreement may include either or both:

1) the total new grant award from the NOFA to be encumbered by the Department from grant funds,

2) total locally held Program Income to be included in the activity budget but that will **not** be encumbered by the Department. This Agreement is for the sum total of funds to be used in the activity including grant funds and Program Income, as applicable. Program Income receipts must be reported no less than quarterly.

C. Other Non-State CDBG Funding Sources: The Grantee shall report on the value of other contributions included as leverage for each activity via the Financial Reports narrative section required for such activity and provide supporting documentation. The Financial Reports shall be accessed through the online grant management system and are the reports which convey the information needed to complete financial transactions in HUD's Integrated Disbursement and Information System (IDIS).

EXHIBIT B

2. Availability of Funds

The Department's provision of funding to Grantee pursuant to this Agreement is contingent on the continued availability of CDBG funds and continued federal authorization for CDBG activities, as well as the conditions set forth in Exhibit D, Section 33. The Department's provision of funding is subject to amendment or termination due to lack of funds or authorization. This Agreement is subject to written modification or termination as necessary by the Department in accordance with requirements contained in any future state or federal legislation and/or state or federal regulations. All other modifications must be in written form and approved by both parties.

3. Eligible Costs

A. No activity costs may be incurred, or funds reimbursed until the Grantee has documented compliance with the applicable National Environmental Policy Act (NEPA) requirements established in 24 CFR 50, 24 CFR 58, and 42 USC 4321, et seq., and an authorization to incur costs from the Department has been received or the contract has been fully executed.

B. Allowable Costs: Allowable costs shall mean those necessary and proper costs under 2 CFR 200.400 through 475, and as identified in the Grantee's application and as detailed in Exhibit E, and as approved by the Department unless any or all such costs are disallowed by the State of California or HUD. Allowable costs include necessary and proper activity and administration costs incurred prior to the execution of this Agreement. All costs incurred prior to the execution of this Agreement must be eligible to be considered allowable and suitable for reimbursement. Eligible costs must, at a minimum, be costs incurred according to the procurement requirements of 2 CFR 200.317, et seq. and be costs required for the activity in this Agreement to meet a National Objective.

C. Priority of Funds: The Grantee agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available. Payments are contingent upon the Grantee's financial management system meeting the requirements of 2 CFR 200.302, and the internal control requirements of 2 CFR 200.303. Payment may be suspended or terminated, in whole or in part, by the Department in its sole discretion in the event of a default by Grantee.

E. Disencumbering Funds: The Grantee agrees that funds determined by the Department to be surplus upon completion of the activity, the funds that are not able to be spent in their entirety prior to the Expenditure Deadline or that have not been drawn prior to the Contract Expiration Date will be subject to disencumberance by the Department in its sole and absolute discretion.

F. Indirect Costs: If Grantee wishes to charge for indirect costs, the Grantee must develop an indirect cost allocation plan for determining the appropriate CDBG share of such indirect costs and submit such plan to the Department for approval prior to submission of requests for any payments for the indirect cost expenditures.

G. Pre-Agreement Costs: Pre-Agreement Costs are eligible costs incurred prior to the award of funds as defined in Exhibit D, Section 1. Eligible Pre-Agreement costs as identified in Exhibit E, Project Budget, may only be reimbursed upon the full execution of this Agreement and verification that the costs meet all eligibility criteria. Pre-Agreement costs may include both activity delivery and general program administration.

The Grantee agrees that any Pre-Agreement costs **not** previously identified in Exhibit E, Project Budget, will **not** be paid with CDBG funds.

4. Method of Payment

The Department will not authorize payments unless it has determined the costs incurred are in compliance with the terms of this Agreement. Payments will be issued to the agency identified on the Taxpayer Identification Form (TIN) provided by the Grantee to the Department.

EXHIBIT B

A. Reimbursements: The Department will reimburse the Grantee its allowable costs for the services identified in this Agreement in Exhibit E, upon presentation of a financial reporting form, and supporting documentation of the cost eligibility. Funds shall be returned in accordance with the current State procedural guidance for grantees. All returned funds will be disencumbered.

4) All Funds Not Previously Requested: If the final funds disbursement request for costs expended during the term of this Agreement has not been received by the Department within 60 days following the Expenditure Deadline as defined in Exhibit A, Section 4 (B) of this Agreement, the Department may disencumber any funds remaining and grant funds will no longer be available for the Grantee.

5. Budget Revisions and Amendments

Budget line-item adjustments may be made in accordance with the following:

A. Budget Revisions: Adjustments to the Budget that do not require an increase or reduction of total activity budget, a change in National Objective, or a change in the type or a reduction in number of beneficiaries assisted may be completed as a Budget Revision. Budget Revisions shall include but not be limited to:

1) Adjustments that reallocate funds between budget line items, including between General Administration funding, activity funding, and Program Income resources, including both Program Income cash on hand, and Program Income projected receipts, but that otherwise does not change the overall budget total, the scope of work, the National Objective, and type and count of estimated beneficiaries. Reallocations involving General Administration funding are subject to applicable General Administration caps identified in the Notice of Funding Availability.

2) Adjustments that increase or decrease the detail included in the submitted lined item budgets, including adding and removing budget line items, without increasing or decreasing the scope of work and without changing the overall budget.

Budget Revisions must be approved by the Department prior to implementation. Approval shall be provided either through the online grant management system, or in writing, as appropriate. If approved, Budget Revisions shall automatically be deemed a part of, and incorporated into, this Agreement.

EXHIBIT B

B. Budget Amendments: Adjustments to the Budget that result in an increased or a reduced total activity budget shall require a Contract Amendment. Contract Amendments must be fully executed by both the Grantee and the Department prior to implementation. Adjustments may not be implemented prior to execution unless the Department has provided written notice authorizing the Grantee to proceed.

EXHIBIT D

A. Implementing procedures designed to notify Section 3 workers about training and employment opportunities generated by Section 3 covered assistance and Section 3 business concerns about contracting opportunities generated by Section 3 covered assistance.

B. Notifying potential Contractors for Section 3 covered projects of the requirements of Part 75, Subpart C and incorporating the Section 3 clause set forth below in all solicitations and contracts in excess of $100,000 as required at 24 CFR 75.27.

Section 3 Clause

The work to be performed under this contract is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

The contractor will not subcontract with any subcontractor where the contractor has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR Part 75.

EXHIBIT D

The contractor acknowledges that subrecipients, contractors, and subcontractors are required to meet the employment, training, and contraction requirements of 24 CFR 75.19, regardless of whether Section 3 language is included in recipient or subrecipient agreements, program regulatory agreements, or contracts.

The contractor agrees to submit, and shall require its subcontractors to submit to them, annual reports detailing the total number of labor hours worked on the Section 3 Project, the total number of labor hours worked by Section 3 Workers, and the total number of hours worked by Targeted Section 3 Workers, and any affirmative efforts made during the quarter to direct hiring efforts to low- and very low-income persons, particularly persons who are Section 3 workers and Targeted Section 3 workers.

C. For the purposes of this requirement "construction work" includes, but is not limited to, rehabilitation, alteration, demolition, installation or repair done under contract and paid for, in whole or in part, through this Agreement. 33. State Contract Manual Requirements (Section 3.11, Federally Funded Contracts (Rev. 3/03):

A. All contracts, except for State construction projects that are funded in whole or in part by the Federal government, must contain a thirty (30)-day cancellation clause and the following provisions:

1) It is mutually understood between the parties that this contract may have been written for the mutual benefit of both parties before ascertaining the availability of congressional appropriation of funds to avoid program and fiscal delays that would occur if the contract were executed after that determination was made.

2) This Agreement is valid and enforceable only if sufficient funds are made available to the State by the United States Government for the purpose of this Program. In addition, this contract is subject to any additional

EXHIBIT D

restrictions, limitations, or conditions enacted by the Congress or to any statute enacted by the Congress that may affect the provisions, terms, or funding of this contract in any manner.

3) The parties mutually agree that if the Congress does not appropriate sufficient funds for the program, this contract shall be amended to reflect any reduction in funds.

4) The Department has the option to invalidate the contract under the thirty (30) day cancellation clause or to amend the contract to reflect any reduction in funds.

B. Exemptions from provisions A.1 through A.4 above may be granted by the Department of Finance provided that the director of the State agency can certify in writing that Federal funds are available for the term of the contract.

California Government Code § 8546.4(e) provides that State agencies receiving federal funds shall be primarily responsible for arranging for federally required financial and compliance audits, and shall immediately notify the Director of Finance, the State Auditor, and the State Controller when they are required to obtain federally required financial and compliance audits.

34. <u>False, Fictitious or Fraudulent Claims</u>:

Warning: Any person who knowingly makes a false claim or statement to HUD or the Department may be subject to civil or criminal penalties under 18 U.S.C. 287, 1001 and 31 U.S.C. 3729.

Detecting, Preventing, and Reporting FRAUD

Fraud is a white-collar crime that has a devastating effect on the CDBG program because the CDBG program beneficiaries are victims of this crime when the CDBG program is abused.

HCD wants to stop any criminal assault on the CDBG program it administers, and in doing so all CDBG funds go to people it was designed to help and improve their living conditions.

Combatting Fraud

EXHIBIT D

The U.S. Department of Housing and Urban Development (HUD) Office of Inspector General (OIG) is committed to protecting HUD's programs, operations, and beneficiaries from dishonest individuals and organizations.

HUD cannot combat fraud alone.

HUD relies on HCD and CDBG NOFA applicants to combat CDBG program fraud. HUD also relies on applicants for, and people receiving, HUD benefits, such as tenants receiving rental assistance, borrowers with HUD insured loans, or citizens having their communities restored using HUD grants.

The HUD OIG Hotline number is 1-800-347-3735, this is the primary means to submit allegations of fraud, waste, abuse, mismanagement or Whistleblower related matters for the CDBG program to the Office of Inspector General.

HUD OIG accepts reports of fraud, waste, abuse, or mismanagement in the CDBG program from HUD employees, anyone administering the CDBG program, anyone working in the CDBG program, contractors, and the public.

You can report mismanagement or violations of law, rules, or regulations by HUD employees or program participants.

Fraud, Waste and Abuse in the CDBG program and its operation may be reported in one of the following four (4) ways:

Activity Description

The Dixie Fire began Tuesday, July 13, 2021, and burned nearly 1 million acres of land across five counties: Plumas, Butte, Lassen, Shasta, and Tehama, before it was considered contained October 25, 2021, 103 days later. It is the second largest wildfire in California history after the August Complex Fire.

Funds from this new planning activity application will be used to support a Disaster Recovery Plan for Greenville and Surrounding Fire-Impacted Rural Areas (Plan) inside the 2021 Dixie Fire burn scar (e.g., Canyon Dam, Indian Falls, outlying areas of Chester, and Warner Valley), intended to address the recovery needs of this rural area while also holistically approaching recovery countywide. The Town of Greenville was one of the most heavily impacted areas, with approximately 75% of the Town's structures destroyed by the fire. Greenville's historic Main Street and central business district, and over 500 homes and businesses were destroyed.

The Plan will include the mechanisms necessary to build sufficient infrastructure to address transportation needs, develop social services, foster economic development, and support other community development needs and to implement effective housing planning, housing production, and housing recovery.

The intent of the Plan is to interface with other recovery plans, including economic development recovery plans and any infrastructure recovery plans prepared by Cal OES, FEMA, U.S. Forest Service, Cal Fire, and any other recovery plans deemed necessary by the County, including plans potentially proposed by the Governor's Office of Planning and Research and Caltrans. This planning grant will ensure that recovery planning is fully integrated with these other recovery plans and that all Dixie Fire recovery plans complement one another and, together, are comprehensive throughout the County. This Plan will address identified planning gaps for addressing recovery needs comprehensively.

This planning activity is also intended to support onboarding of sufficient staff and consultants to support the potential use of CDBG Disaster Recovery funds from the 2021 Disaster Recovery allocation identified in Federal Register notice 2022 - 10969 which identifies the County of Plumas as a Most Impacted and Distressed (MID) community. While the 2021 Disaster Recovery Action Plan is still in development, the expectation is that a substantial portion of the available funding will be provided directly to the County to support recovery. Onboarding staff and consultants with expertise in CDBG-DR implementation and related capacities is imperative because CDBG – Disaster Recovery funds operate under a different federal structure with diverging rules and requirements than other state and federal funds. A component of the proposed Plan will be to analyze the capacity gaps and needs for hiring and/or procuring professionals to effectively leverage the CDBG-DR funds with local, state, federal, philanthropic, and other resources.

The community outreach will be completed within 12 months of Standard Agreement Execution, while the Draft Plan will be prepared within 24 months, and the final Plan Rollout will be achieved within 36 months of Standard Agreement Execution.

Provide a detailed narrative describing the steps to be taken to complete the activity. (i.e.: Task 1- create marketing plan; Task 2- hold a town hall meeting; Task 3- analyze feedback... etc.). This task narrative should indicate your knowledge of the steps and actions necessary to complete your activity. Narrative should include all actions taken to reach readiness through actions necessary for closeout.

Readiness Criteria

Planning Statement of Need and Proposed Outcome
Beginning in July 2021, the largest single wildfire in recorded California history tore through 963,000 in rural northern California. It burned for three months, and destroyed the Town of Greenville, as well as a handful of smaller census designated places in the surrounding area. Impacts have been felt across the region, even in communities where structural damage was minimal, with substantial impacts to the timber and tourism industries that are the lifeblood of the regional economy.

Based on US 2020 Census data, Greenville and its surrounding rural census blocks had the highest levels socio-economic vulnerability of any of the communities in the Dixie Fire burn scar, pre-fire. It's population as of 2020 was 1,026 with a median age of 51.2 with 16.1% being veterans. The median household income was $32,344 compared to the state average of $78,672. There were approximately 595 housing units with 69.8% homeowners. Approximately 34.7% of renters were paying less than $500 rent while 65.9% were paying between $500 and $999. A large number, 24.6% have some type of disability with the largest percentage having ambulatory issues. All this to say that without serious and deliberate planning Greenville and the surrounding rural areas will be hard pressed to build back both for homeowners as well as meeting the needs of the rental population.

Greenville was a hub for the rural northern-central part of Plumas County and was home to many small businesses and workers. Most of the community members who lived in Greenville, or the surrounding area are unable to return because there are virtually no services, facilities, or infrastructure left, for example, no housing, few businesses, no operational banks, and compromised internet.

The success of Greenville and its surrounding area is critical to the recovery of the entire County. Without a Plan for recovery that hones-in on the needs of this geography and the affected area, the County population will not be able to return and the delay to recovery in these communities will be significant and negatively impact the economic resiliency of this rural region.

Recognizing that only $14.7 million is available under the Federal Register Notice 2022 – 10969 in response to the Dixie fire, the unmet need is expected to be substantially higher than the money made available. To ensure that the communities of Greenville and the rest of the disaster impacted areas of the County have their recovery needs met, it is going to be exceptionally important that every CDBG and CDBG-DR dollar be leveraged with other funding sources: It must future annual CDBG dollars, potential CalHome dollars, MHP, Caltrans, Cal OES, Cal Fire, US Forest Service, and other funding opportunities. The CDBG planning grant funding for the Greenville area as part of the comprehensive Plumas County Disaster Recovery Plan is intended to support funding endeavors to bridge the recovery funding gap and allow the County to identify and start building the capacity necessary to operate in this complex funding environment and bring on the diverse professionals, consultants, and/or staff to effectively administer all aspects of disaster recovery.

The Need Statement presents facts and evidence to support the need for your planning activity. An effective need statement will describe the target populations to be served, define the community problem to be addressed, is related to the purposes and goals of your organization, includes quantitative and qualitative documentation and supporting information, does not make any unsupported assumptions, and describes the situation in terms that are both factual and of human interest.

Provide a detailed description of the population that will benefit from the implementation of the provide and how that population meets a national objective. Description should include if the population is a protected class, presumed benefit, or has some other shared characteristic, has been impacted by a disaster, is vulnerable due to environmental, economic, or community factors, or has other special characteristics.

Describe the population that will benefit
This planning effort is designed to ensure that the recovery of Greenville and its surrounding area is based in the needs of the local families, local businesses, and low-income households most drastically impacted by the fires and who will depend most on an inclusive approach to recover for their ongoing economic and social well-being.

Greenville's most vulnerable community members are the elderly, veterans, and tribal members. These populations are wanting to rebuild homes and businesses. The Plan and community outreach process will bring in underserved and vulnerable populations to understand needs and priorities, for example, engaging with the Maidu communities throughout Greenville/Indian Valley. The devastating loss of the Greenville Rancheria's medical and dental facility as well as their educational building, along with housing loss, will lend an opportunity to bring the Maidu community front and center in the recovery Plan process for the future of the town of Greenville.

Provide a narrative describing your planned community outreach for this planning activity.
Community outreach will be built into the planning effort and will build on considerable efforts to date conducted by the Dixie Fire Collaborative. Once the consultant(s) is procured, a key component of the work plan will be to review all previously submitted community input, evaluate stakeholder engagement to date, identify gaps, and create a community engagement plan that is woven into the larger Disaster Recovery Plan. The objective is to engage Greenville and surrounding fire-impacted areas through, for example, community workshops, listening sessions, targeted population group meetings and implement "block captains" to better understand neighborhood level needs and priorities. Public engagement surrounding a recovery Plan after a catastrophe builds hope, trust, and confidence in government, relationships, new leaders, and opportunities to improve long-standing community challenges. To capture these benefits throughout the process, the public engagement rollout of the Plan must be both deliberate and strategic.

Please include a narrative describing your staff and/or contractor/subrecipient expertise:
The County of Plumas has an experienced Planning Director, Tracey Ferguson, AICP, who has over 21 years of experience in private and public sector leadership specializing in land use planning, disaster recovery planning, preparation of general and specific plans, housing, water resources, airport land use compatibility planning, risk management, CEQA, entitlement coordination, and permit processing.

Director Ferguson has been integrally involved in the recovery efforts of the County following the Dixie Fire, for example, from preparing the necessary housing and debris urgency ordinances with County Counsel for adoption by the Board of Supervisors, to approving Zoning Clearance Certificates for disaster recovery uses, working with state and federal partners to permit temporary emergency structures, and serving as the County-lead on the Greenville historic buildings preservation mission. Director Ferguson has also led the long-term recovery efforts to-date with a working group made up of County, State, and Federal governmental staff; non-governmental stakeholders; and the Dixie Fire Collaborative.

Plumas County is the recipient of a FEMA long-term recovery disaster planner (Disaster Recovery Manager) who will be responsible for grant coordination, managing consultant contracts, Plan preparation, and community engagement related to the recovery effort.

To prepare this Plan, the County of Plumas will procure consultant(s) with experience in community engagement, grants management including cross-cutting federal regulatory compliance, environmental review, and project management.

Attached are the resumes and duty statements for the Planning Director and the Disaster Recovery Manager, a flow chart for the core team members and anticipated contractors, as well as a high-level organizational chart, organized by Recovery Support Function, for the additional recovery partners such as the state and federal government, Dixie Fire Collaborative, and community organizations.

PLUMAS COUNTY
PLANNING DEPARTMENT
MEMORANDUM

TO:	**Honorable Chair and Board of Supervisors**
FROM:	**Tracey Ferguson, Director of Planning**
MEETING DATE:	**September 16, 2025**
SUBJECT:	**Approved and authorize the Planning Director to sign a letter to the U.S. Department of Commerce, Economic Development Administration, concerning the Feather River Land Trust Olsen Barn Property; EDA Project No. 07-79-07847; County of Plumas Covenant and Deed Restriction required under California Department of Water Resources Grant Agreement Number 4600007650; approved as to form by County Counsel.**

Recommendation:

Approved and authorize the Planning Director to sign a letter to the U.S. Department of Commerce, Economic Development Administration, concerning the Feather River Land Trust Olsen Barn Property; EDA Project No. 07-79-07847; County of Plumas Covenant and Deed Restriction required under California Department of Water Resources Grant Agreement Number 4600007650.

Background and Discussion:

In 2015, the Feather River Land Trust (FRLT) purchased the Property, commonly referred to as the Olsen Barn, with support in part through a grant from the California Department of Water Resources (DWR) to the County, who in turn granted funds to the FRLT to protect its ecological, recreational, cultural, and education values, including public access to the Property. The FRLT applied for and was granted the Award to make repairs and improvements to the Property in support of public accessibility, waste management, sanitation, education, and the operation of a nature preserve, including the following Economic Development Administration (EDA) Project activities, as described in the Authorized Scope of Work in the Award:

An ADA Parking Pad at 400ft2, Restroom at 16'x9', Trail at 100' long by 4' wide connecting picnic, parking & restroom areas, two 10x10' concrete pads (picnic area with table and bench overlook pad), Path/service Road to Olsen Barn at 1200'x8' of fabric and crushed rock, replacement of Barn structural members-12x12" sill, 10x10" post bases, and 8x8" diagonal brace, 5/4: rough sawn pine replacement of the removed barn siding, 4 at 10'x10'barn and 1 at 10x14' main door &hardware replacement, 6 36x16" interpretive signs and 4 24x24" instructional signs, 4 kiosk panels at 3'6"x7", 2 barn Panels at 32x42" and two steel trashcans. All measurements and numbers are approximations.

The Deed Restriction includes the right of the County to enforce the terms of the Deed Restriction, which prohibits certain uses of the Property and requires removal of any improvement constructed in violation of the Deed Restriction. The FRLT received a $347,274 ("Federal Share") grant from the EDA, contingent on the EDA receiving a letter from the County confirming that the EDA Project will not violate the Deed Restriction if the Property is used consistently with the EDA Project, as described in the Authorized Scope of Work in the Award. Further, EDA requires that the FRLT record a covenant ("EDA Covenant") providing constructive notice of the Federal Share.

By way of the letter, the FRLT and Plumas County acknowledge that as part of the EDA Award for Construction Projects, Project No. 07-79-07847 for the Olsen Barn Meadow Preserve on the Olsen Barn Property, the EDA requires certain confirmation in relation to the Covenant and Deed Restriction recorded on October 22, 2015, as Document No. 2015-0006644 in compliance with the DWR Grant Agreement Number 4600007650, and this letter serves to facilitate the FRLT Award.

Upon review of the Deed Restriction and Authorized Scope of Work in the Award, the County confirms the EDA Project activities, such as repairs and improvements to the Property in support of public accessibility, waste management, sanitation, education, and the operation of a nature preserve, if implemented in substantial conformance as described in the Authorized Scope of Work in the Award, do not violate the Deed Restriction and are consistent with the permitted activities that are allowed to occur on the Property pursuant to Article III – Restrictions, Section 3.2. The County recognizes the list of prohibited activities in Section 3.1 are general restrictions applicable to the Property, unless such activities are allowed pursuant to Section 3.2. The County additionally confirms the recording of the required EDA Covenant is not prohibited by the Deed Restriction.

Action:

Approved and authorize the Planning Director to sign a letter to the U.S. Department of Commerce, Economic Development Administration, concerning the Feather River Land Trust Olsen Barn Property; EDA Project No. 07-79-07847; County of Plumas Covenant and Deed Restriction required under California Department of Water Resources Grant Agreement Number 4600007650.

Fiscal Impact:

No County FY25/26 impact, as Feather River Land Trust project is funded by EDA grant.

In 2015, the FRLT purchased the Property, commonly referred to as the Olsen Barn, with support in part through a grant from DWR to the County, who in turn granted funds to the FRLT to protect its ecological, recreational, cultural, and education values, including public access to the Property.

The FRLT applied for and was granted the Award to make repairs and improvements to the Property in support of public accessibility, waste management, sanitation, education, and the operation of a nature preserve, including the following EDA Project activities, as described in the Authorized Scope of Work in the Award:

> *An ADA Parking Pad at 400ft2, Restroom at 16'x9', Trail at 100' long by 4' wide connecting picnic, parking & restroom areas, two 10x10' concrete pads (picnic area with table and bench overlook pad), Path/service Road to Olsen Barn at 1200'x8' of fabric and crushed rock, replacement of Barn structural members-12x12" sill, 10x10" post bases, and 8x8" diagonal brace, 5/4: rough sawn pine replacement of the removed barn siding, 4 at 10'x10'barn and 1 at 10x14' main door &hardware replacement, 6 36x16" interpretive signs and 4 24x24" instructional signs, 4 kiosk panels at 3'6"x7", 2 barn Panels at 32x42" and two steel trashcans. All measurements and numbers are approximations.*

ISSUE DESCRIPTION

The Deed Restriction includes the right of the County to enforce the terms of the Deed Restriction, which prohibits certain uses of the Property and requires removal of any improvement constructed in violation of the Deed Restriction.

The FRLT received a $347,274 ("Federal Share") grant from the EDA, contingent on the EDA receiving a letter from the County confirming that the EDA Project will not violate the Deed Restriction if the Property is used consistently with the EDA Project, as described in the Authorized Scope of Work in the Award.

Further, EDA requires that the FRLT record a covenant ("EDA Covenant") providing constructive notice of the Federal Share.

CONFIRMATION

Upon review of the Deed Restriction and Authorized Scope of Work in the Award, the County confirms the EDA Project activities, such as repairs and improvements to the Property in support of public accessibility, waste management, sanitation, education, and the operation of a nature preserve, if implemented in substantial conformance as described in the Authorized Scope of Work in the Award, do not violate the Deed Restriction and are consistent with the permitted activities that are allowed to occur on the Property pursuant to Article III – Restrictions, Section 3.2. The County recognizes the list of prohibited activities in Section 3.1 are general restrictions applicable to the Property, unless such activities are allowed pursuant to Section 3.2.

The County additionally confirms the recording of the required EDA Covenant is not prohibited by the Deed Restriction.

COVENANT AND DEED RESTRICTION

This Covenant and Deed Restriction ("Deed Restriction") is made and executed on this 15th day of October, 2015 ("Effective Date"), by the Feather River Land Trust, a California nonprofit public benefit corporation ("FRLT"), which is the owner of fee title of certain real property located within an unincorporated area of the County of Plumas, State of California, Assessor's Parcel Numbers 100-340-017, -018 and 100-460-004, -005, for a total of approximately 106.77 acres, and more particularly described in Exhibit A, attached hereto and incorporated herein by this reference (the "Property").

A. The County of Plumas has received a grant (Agreement Number 4600007650) ("Grant") from the State of California, Department of Water Resources (DWR) to protect natural resources located adjacent to the community of Chester along the North Fork of the Feather River with the intention of creating the Chester River Parkway. These natural resources have high ecological value (especially for certain bird species), which include meadow, riparian, and wetland habitat bordered by the North Fork of the Feather River. The Property is part of an Audubon Society-designated Important Bird Area. The Property is also of high importance to the local community for nature-based recreation. These values are of great conservation value to the residents of the County of Plumas and the citizens of the State of California and are collectively referred to herein as the "Conservation Values" of the Property.

B. FRLT has agreed to execute and record this Deed Restriction to satisfy the requirements of the above-referenced Grant. Therefore, this Deed Restriction shall require, and is made for the purpose of ensuring, that the Property shall be preserved and maintained in perpetuity as set forth herein.

NOW, THEREFORE, in consideration of the Grant issued by DWR and the payments made by the County to FRLT to acquire the Property, FRLT for itself and for its assigns and successors in interest, hereby irrevocably covenants that the protective provisions, covenants and restrictions (collectively, "Restrictions") set forth in this Deed Restriction shall at all times on and after the date on which this Deed Restriction is recorded, constitute for all purposes, covenants, conditions and restrictions on the use and enjoyment of the Property that are hereby attached to the deed to the Property as fully effective components thereof pursuant to the terms hereof.

ARTICLE I
DEFINITIONS

1.1 County. "County" as used herein shall mean the County of Plumas and shall include its successor agencies, if any.

1.2 Occupants. "Occupants" as used herein shall mean FRLT and those persons entitled by ownership, leasehold, or other legal relationship to the right to use and/or occupy all or any portion of the Property.

1.3 Owner or Owners. "Owner" or "Owners" as used herein shall mean FRLT and/or its successors in interest, who hold title to all or any portion of the Property.

1.4 Conservation Values. "Conservation Values" as used herein shall mean those natural resource and cultural values associated with the Property that are intended to be conserved by FRLT through its ownership and land management of the Property.

ARTICLE II
GENERAL PROVISIONS

2.1 Provisions to Run with the Land. This Deed Restriction sets forth restrictions upon and subject to which every portion of the Property shall be improved, held, used, occupied, leased, sold, hypothecated, encumbered and/or conveyed. Each and all of the Restrictions shall run with the land, pass with each and every portion of the Property, and apply to, inure to the benefit of, and bind the respective successors in interest thereof, for the benefit of the County. Each and all of the Restrictions are enforceable by the County; provided, that any right granted to the County under this Deed Restriction is predicated on the condition that the County complies with the terms and conditions of this Deed Restriction.

2.2 Concurrence of Owners and Lessees Presumed. Any purchaser, lessee, or possessor of any portion of the Property shall be presumed by its purchase, leasing, or possession of such Property to be in accord with the foregoing and to agree for and among itself, its heirs, successors, and assigns, and the agents, employees, and lessees of such owners, heirs, successors, and assigns, that the Restrictions as herein established must be adhered to for the benefit of the County and that the interest of any Owner and Occupant of the Property shall be subject to the Restrictions contained herein.

2.3 Incorporation into Deeds and Leases. FRLT desires and covenants that the Restrictions shall be incorporated in and attached to each and all deeds and leases of any portion of the Property. Recordation of this Deed Restriction shall be deemed to be binding on all successors, assigns, and lessees, regardless of whether a copy of this Deed Restriction has been attached to or incorporated into any given deed or lease.

2.4 Monitoring. FRLT agrees that the County and its agents and/or contractors shall, upon providing no less than three (3) days' advance notice to FRLT, have reasonable access to the Property for the purposes of inspection, surveillance, or monitoring of the Restrictions, provided that any such entry by the County shall not unreasonably interfere with FRLT's permitted use and quiet enjoyment of the Property. Any right of entry afforded to the County under this section is predicated on the condition that County complies with the terms of this section and the other terms and conditions of this Deed Restriction, including providing advance notice to FRLT and not unreasonably interfering with FRLT's permitted use and quiet enjoyment of the Property.

2.5 Acts Consistent with Restrictions. No Owner or Occupant of the Property shall act in any manner that would be inconsistent with the Restrictions.

2.7 Enforcement. The County shall have the right to enforce each and every provision herein. This Deed Restriction shall be enforceable by remedy of injunctive relief in addition to any other remedy in law or equity. In the event the County reasonably determines that an Owner or Occupant is in violation of the terms of this Deed Restriction or that a violation is threatened, the County shall give written notice to

such Owner or Occupant of such violation and demand corrective action sufficient to cure the violation. The Owner or Occupant shall cure the violation within sixty (60) days after receipt of notice thereof from the County, or under circumstances where the violation cannot reasonably be cured within a sixty (60) day period, shall begin curing such violation within the sixty (60) day period and continue diligently to cure such violation until finally cured; provided, however, that if the County determines that circumstances require immediate action to prevent or mitigate significant damage to the Property, the County may pursue its remedies under this Section 2.7 without waiting for the cure period to expire. Failure of an Owner or Occupant to comply with any provision of this Deed Restriction shall be grounds for the County, by reason of this Deed Restriction, to have the authority to require that the Owner or Occupant, as applicable, modify or remove any improvements constructed in violation of this Deed Restriction and restore the Property to the condition that existed prior to the violation. In the event of a breach, any forbearance on the part of any party to this Deed Restriction to enforce the terms and provisions hereof shall not be deemed a waiver of enforcement rights regarding any subsequent breach. The County's right of enforcement of this Deed Restriction is predicated on the condition that it complies with the terms of this section and the other terms and conditions of this Deed Restriction.

Notwithstanding the foregoing, nothing contained in this Deed Restriction shall be construed to entitle the County to bring any action against the Owner for any injury to or change in the Property to the extent such injury or change results from (i) any cause beyond the Owner's control including, without limitation, fire, flood, storm, and earth movement; (ii) acts by the County, its employees, agents, contractors, and invitees; (iii) unauthorized acts by unrelated third parties; or (iv) any prudent action taken by the Owner under emergency conditions to prevent, abate or mitigate significant injury to the Property or to persons or personal property resulting from any of the foregoing causes.

2.8 Notice in Agreements. After the date of recordation hereof, all Owners and Occupants shall execute a written instrument, which shall accompany all purchase agreements or leases relating to the Property. Any such instrument shall contain the following statement:

> The land described herein, or a portion thereof, is subject to a deed restriction dated as of [the Effective Date], and recorded on [date of recordation], in the Official Records of Plumas County, California, as Document No. [recordation number], which Covenant and Deed Restriction imposes certain covenants, conditions, and restrictions on usage of a portion of the property described herein.

2.9 Prior Encumbrances. The Owner represents and warrants that it has fee simple title to the Property and, to the best of its actual knowledge, the Property is not subject to any financial liens or financial encumbrances as of the date of execution of this Deed Restriction (excepting liens for property taxes which are not yet due and payable). Exhibit B sets forth the non-financial, senior, prior encumbrances of record existing as of the date of execution of this Deed Restriction.

12. MATCHING SHARE: The Recipient agrees to provide the Recipient's non-Federal Matching Share contribution for eligible project expenses in proportion to the Federal share requested for such project expenses (see 13 CFR § 300.3). By accepting the Award, the Recipient also certifies that the Matching Share of the project costs is committed to the project, is not encumbered in any way that would prevent its use for the project, and will be available as needed for the project.

13. REFUND CHECKS, INTEREST, OR UNUSED FUNDS: If the Recipient needs to return money to EDA, it may:

A. Use the pay.gov website, which allows the Recipient to pay EDA online. The Recipient will have the option to make a one-time payment or to set up an account to make regular payments.

B. Contact the EDA project officer to see if alternative instructions for wire or paper checks are available from EDA. At this time, paper checks are not being accepted.

14. **CONSTRUCTION COMPLETION:** In keeping with prudent grants management policy, EDA construction projects must be completed within five years of the date the Form CD-450 is signed by the Recipient accepting the Award. If construction is not completed by that date and the Grants Officer determines, after consultation with the Recipient, that construction to completion cannot reasonably be expected to be completed promptly and expeditiously, the grant may be terminated. Extensions beyond the five-year period of performance are exceedingly rare and can only be authorized by the Assistant Secretary. Nothing in this paragraph is intended to alter the Project Development Time Schedule set out above.

15. **GOALS FOR WOMEN AND MINORITIES IN CONSTRUCTION:** Department of Labor regulations set forth at 41 CFR part 60-4 establish goals and timetables for the participation of minorities and women in the construction industry. Those regulations apply to all federally assisted construction contracts in excess of $10,000. The Recipient shall comply with those regulations and shall obtain compliance with 41 CFR part 60-4 from contractors and subcontractors employed on the project by including such notices, clauses, and provisions in the Solicitations for Offers or Bids as required by 41 CFR part 60-4. The goal for the participation of women in each trade area shall be as follows: from April 1, 1981 until further notice: 6.9 percent.

    All changes to this goal, as published in the Federal Register in accordance with the Office of Federal Contract Compliance Programs regulations at 41 CFR § 60-4.6, or any successor regulations, shall hereafter be incorporated by reference into these Specific Award Conditions.

    Goals for minority participation shall be as prescribed by Appendix B-80 of the *Federal Register* notice published October 3, 1980 at 45 FR 65984-65991, or any subsequently published amendments. The Recipient shall include the "*Standard Federal Equal Employment Opportunity Construction Contract Specifications*" (or cause them to be included, if appropriate) in all Federally-assisted contracts and subcontracts. The goals and timetables for minority and female participation may not be less than those published pursuant to 41 CFR § 60-4.6.

16. **PROCUREMENT:** The Recipient agrees that all procurement transactions shall be in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR §§ 200.317–200.327 and the EDA regulations contained in 13 CFR Chapter III, especially 13 CFR part 305 and 13 CFR § 302.17 ("Conflicts of Interest").

17. **EVIDENCE OF GOOD TITLE:** Prior to solicitation for construction bids, the Recipient shall provide an opinion of counsel, satisfactory to EDA, that the Recipient has acquired good and marketable title to land, free of all encumbrances, to all real property necessary for completion of the project, as well as any necessary rights-of-way, easements, State or local government permits, or long-term lease interests necessary for the completion of the project, in accordance with 13 CFR part 314.

18. **NON-RELOCATION:** By accepting this Award of financial assistance, the Recipient attests that EDA funding is not intended by the Recipient to assist efforts to induce the relocation or movement of existing jobs from one region to another region in competition for those jobs. In the event EDA determines that its assistance was used for such purposes, EDA reserves the right to pursue appropriate enforcement actions, including suspension of disbursements, termination of the

Award (which may include the establishment of a debt requiring the Recipient to reimburse EDA), and disallowance of any costs attributable, directly or indirectly, to the relocation.

19. **REAL PROPERTY REPORTING:** Consistent with 2 CFR § 200.330 ("Reporting on real property"), the Recipient must submit reports (using Form SF-429 "Real Property Status Report" or any successor form). The initial SF-429 form must be returned to the EDA Project Officer no later than December 31 of the year of the initial disbursement of Federal funds. Because EDA's interest in this real property extends at least 15 years, successive reports will be required by December 31 every **two** years thereafter during the established useful life of the property, rather than on an annual basis. At its sole discretion, EDA reserves the right to require more or less frequent real property reporting for the duration of the useful life of real property in which it retains an interest under this project.

20. **WASTE, FRAUD AND ABUSE:** Consistent with 2 CFR part 200, Recipient personnel responsible for managing the Recipient's finances and overseeing any contractors, sub-contractors or Subrecipients, will complete the training PowerPoint entitled "Compliance with EDA American Rescue Plan Assistance Program Requirements" and return the signed Certificate of Training Completion (page 34 of the training) to EDA along with the signed Form CD-450 within 30 days of receipt.

Further, Recipient will monitor Award activities for common fraud schemes, such as:

- false claims for materials and labor,
- bribes related to the acquisition of materials and labor,
- product substitution,
- mismarking or mislabeling on products and materials, and
- time and materials overcharging.

Should Recipient detect any suspicious activity, Recipient will contact EDA staff listed above and the Office of Inspector General, as indicated at https://www.oig.doc.gov/Pages/Contact-Us.aspx, as soon as possible.

21. **STAFFING CHANGES:** In the event of a change in the key professional staff positions related to project management, the Recipient shall provide the name of the individual selected to fill the position to the Project Officer and a copy of his or her resume within 30 business days of the selection.

22. **ARCHITECT/ENGINEER AGREEMENT:** Prior to disbursement of funds by EDA for Architect and Engineer Agreement costs, the Recipient must submit to EDA for approval, an

Architect/Engineer Agreement that meets the requirements in the EDA's "Summary of EDA Construction Standards," as well as the competitive procurement standards of 2 CFR part 200 and EDA Regulations at 13 CFR Chapter III. The fee for basic Architect/Engineer Services will be a lump sum or an agreed maximum, and no part of the fees for other services will be based on a cost-plus-a-percentage-of-cost or a cost using a multiplier.

23. **PROJECT INSPECTION AGREEMENT:** Prior to disbursement of funds by EDA for Project Inspection Agreement costs, the Recipient must submit to EDA for approval, a Project Inspection Agreement that meets the requirements in the EDA's "Summary of EDA Construction Standards," as well as the competitive procurement standards of 2 CFR part 200 and EDA Regulations in 13 CFR Chapter III. The fee for basic Project Inspection Services will be a lump sum or an agreed maximum, and no part of the fees for other services will be based on a cost-plus-percentage-of-cost or a cost using a multiplier.

24. **PHASED DISBURSEMENT:** The Recipient is authorized to receive disbursement of funds prior to the award of all contracts.

25. **RECORDED STATEMENT OF FEDERAL SHARE (BARN):** Prior to solicitation for construction bids, to better memorialize and protect the Federal Share in real property acquired or improved, in whole or in part, with the funds made available under this Award, the Recipient agrees that it shall execute and cause to be recorded a first priority unsubordinated mortgage lien in favor of EDA or, when permitted by EDA due to a Recipient's legal restriction against recording a mortgage (or deed of trust), a covenant declaring EDA's interest in said real property. EDA shall advise whether the Mortgage or Covenant will be used. The Mortgage or Covenant will be duly recorded with the appropriate office where mortgages are recorded for the jurisdiction where the real property is situated. The Mortgage or Covenant shall be in a form and substance satisfactory to EDA. Upon request by EDA, Recipient shall furnish an opinion by counsel for the Recipient that the Mortgage or Covenant is a valid and enforceable agreement according to its terms, and has been duly recorded in the appropriate office where mortgages are recorded for that applicable jurisdiction. EDA may waive this requirement in writing where, in the sole judgment of EDA, the EDA investment forms only a small part of a larger project.

The Recipient further agrees that:

A. Except as provided in 13 CFR 314.3, whenever, during the expected useful life of the project, any property acquired or improved in whole or in part with grant assistance is disposed of, or no longer used for the authorized purpose of the project, the Government must be compensated by the Recipient for the Federal share of the value of the property; provided that for equipment and supplies, the standards in 2 CFR part 200 or any supplements or successors thereto, as applicable, shall apply.

B. If property is disposed of or encumbered without EDA approval, EDA may assert its interest in the property to recover the Federal share of the value of the property for the Government. EDA

may pursue its rights under both paragraphs (a) and (b) of this section to recover the Federal share, plus costs and interest.

C. The Federal share of the value of the property is that percentage of the current fair market value of the property attributed to the EDA participation in the project (after deducting actual and reasonable selling and fix-up expenses, if any, incurred to put the property into condition for sale). The Federal share excludes that value of the property attributable to acquisition or improvements before or after EDA's participation in the project and not included in project costs.

D. The lien, covenant or other statement of EDA's interest must remain in effect throughout the useful life of the project which is determined to be 20 years from the date a mortgage or covenant satisfactory to EDA is recorded.

26. POSSIBLE CONTAMINATION: If contaminated soil and/or contaminated groundwater is encountered during construction, then prior to any further ground disturbing activities associated with the EDA-funded project, the Recipient shall provide evidence satisfactory to the EDA that the contamination has been remediated to applicable standards. All expenses related to site assessment and remediation work shall be the responsibility of the Recipient and EDA funds shall not be expended for assessment and remediation work.

27. HISTORIC PRESERVATION AND TRIBAL CONSULTATIONS: Prior to the solicitation of construction bids, EDA concurrence with the Recipient's final plans and specifications, and any construction and/or earth-disturbing activities, the Recipient shall complete to the satisfaction of EDA all activities necessary for complying with the National Historic Preservation Act (NHPA) and completing Tribal consultations. This may include, but is not limited to cultural resources surveys, reports, tribal consultations, SHPO/THPO consultations, etc. EDA will notify Recipient when these activities are considered complete. Recipient agrees to implement any changes to the project that EDA may require in response to complying with the NHPA or completing Tribal consultations and Recipient is solely responsible for covering any resulting cost increase.

28. TRIBAL MONITOR: Thirty (30) days prior to earth-disturbing activities funded under the EDA grant, the Recipient shall provide evidence satisfactory to the EDA that the Maidu Summit Consortium have been notified and given the opportunity to have a tribal monitor on-site during earth-disturbing activities.

29. ARCHEOLOGICAL AND HISTORICAL RESOURCES: If during construction of the project, historical and archeological resources, including burial grounds and artifacts are discovered, the Recipient shall immediately stop construction in the area, contact the applicable State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO), interested Tribes, and EDA, and follow the SHPO or THPO instructions for the preservation of resources.

30. **PHASE II ENVIRONMENTAL SITE ASSESSMENT:** Prior to solicitation of construction bids, EDA concurrence with the Recipient's final plans and specifications, and any construction and/or earth-disturbing activities, the Recipient shall provide evidence satisfactory to the EDA that the Recipient has had a Phase II Environmental Site Assessment (ESA) conducted for the project property. Recipient agrees to implement any changes to the project that EDA may require in response to the results of the Phase II ESA and recipient is solely responsible for covering any resulting cost increase.

31. **PROTECTION OF SURFACE WATER RESOURCES:** The project shall employ best management practices (BMPs) during construction to prevent any runoff from entering nearby and adjacent wetlands and waterways.

32. **AUDIT REPORT OR CONFIRMATION OF NO SINGLE AUDIT REQUIRED:** Prior to initial disbursement, Recipient must either confirm that a Single Audit was not required for the past two fiscal years or submit the most recent required Single Audit to EDA.

Martee Nieman • AUDITOR/CONTROLLER

Members of the Board and Citizens of Plumas County:

I am pleased to submit the Fiscal Year 2025-2026 Recommend Budget for Plumas County, which serves as the financial operating plan for all departments, agencies, and special districts governed by the Board of Supervisors. The budget is created from a process that includes requests by departments of the County and fiscal staff, review, recommendations, and compilation from the budget team.

The Fiscal Year 2025-2026 reflects expenditures totaling $174,121,542 inclusive of dependent special district and enterprise funds. Of this amount approximately $20,981,000 will be funded through current-year local property tax revenues.

The Recommended Budget totals $174.1 million of this amount, $162.4 funds are allocated, which include:

GOVENMENTAL FUNDS

- General Fund: $60.8 million
- Special Revenue Funds: $90.5 million
- Debt Service Funds: $10.6 million
- Capital Projects Funds: $0.4 million

OTHER FUNDS

- Internal Service Funds: $4.1 million
- Enterprise Funds: $5.2 million
- Special District Funds: $2.5 million

The proposed means of financing these expenditures are divided into discretionary and non-discretionary revenues, based on whether the use of funds is restricted to specific activities. Discretionary revenues-such as general fund property taxes, motor vehicle fees, sales tax (excluding the portion designated to public safety), and interest earnings- may be used for any legal purpose.

Most County revenues are non-discretionary, tied to mandated programs and services. These funds cannot be redirected to support general government functions, additional Sheriff's Deputies, or community services such as libraries. Furthermore, mandated programs are often not fully reimbursed by State and Federal governments, requiring the County to supplement these programs with discretionary funds.

Plumas County continues to face the challenge of meeting growing public service demands amid declining fiscal support from State and Federal partners. Despite these constraints, our budget team worked diligently with department heads and fiscal staff to develop a balanced budget, which is to be adopted by the Plumas County Board of Supervisors on September 30, 2025, following public hearing held on September 15, 2025.

We remain committed to fiscal responsibility, transparency, and the delivery of essential services to our residents. I extend my sincere appreciation to County staff and the Plumas County Board of Supervisors for your leadership and collaboration throughout this process.

Respectfully submitted,

Martee Nieman

COUNTY OF PLUMAS

THE MAKINGS OF PLUMAS COUNTY

Plumas County is located near the northeast corner of California, up where the Sierra and the Cascade mountains meet. It is situated in the northeastern part of California, bordered by Lassen, Sierra, Butte, and Tehama counties.

Plumas County was established in 1854 during the California Gold Rush, and it has a rich history of mining and logging. It is known for its picturesque landscapes, outdoor recreational opportunities, and small-town charm. The Feather River, with its several forks, flows through the county. The county is home to several small towns and communities, including Quincy, Portola, Chester, Greenville, and Graeagle. Quincy, the unincorporated county seat, is about 80 miles northeast of Oroville, California, and about 85 miles from Lake Tahoe and Reno, Nevada. State highways 70 and 89 traverse the county.

AREA POPULATION & GEOGRAPHY

The population of Plumas County is just under 22,000, and the Quincy area population is about 7,000. The county features a diverse landscape that includes mountain ranges, forests, lakes, and rivers. The county boasts more than 100 lakes and 1,000 miles of rivers and streams with over a million acres of national forest. With only nine people per square mile, this rural, four-season mountain retreat offers beauty, solitude, and clean air, making it the ideal spot for a quiet vacation.

Plumas County experiences a mix of Mediterranean and alpine climates. Summers are typically warm and dry, while winters can be cold with significant snowfall in the higher elevations.

QUALITY OF LIFE

The economy of Plumas County is primarily driven by tourism, agriculture, forestry, and small businesses. The population of the county has grown quite slowly, and with **U.S. National Forests** covering over 70% of its area, the county has been able to maintain the lifestyle that is so attractive to its residents.

RECREATIONAL OPPORTUNITIES

Family recreational opportunities abound in Plumas County or within driving distance and include several tournament golf courses. Numerous lakes and mountain streams create a playground for those who love the water. Framed by mountain ranges, the area is also a mecca for hiking and skiing. The county's natural beauty also attracts visitors for activities such as fishing, camping, boating, and skiing.

DEPARTMENT NARRATIVE

Department Head: Cindie Froggatt
Title: Assessor

It is the mission of the Plumas County Assessor's Office to provide equitable and timely assessments of properties in compliance with the laws of the State of California, while consistently providing quality customer service.

The work of the County Assessor is governed by the California State Constitution, laws passed by the Legislature and rules adopted by the State Board of Equalization. The duties of the County Assessor are to discover all taxable property, identify the owner, assess the value and enroll it on the local assessment roll. We prepare and maintain current data on each parcel assessed, including maps of boundaries, inventories of land structure, property characteristics and any applicable exemptions.

The Assessor is elected to office by the voters of Plumas County and serves a four-year term.

HIGHLIGHTS FROM THE PAST YEAR

The Assessor's Department has had a very productive year in that we now have a Permanent Chief Appraiser and one more appraiser that is being trained. We have also hired and trained a Department Fiscal Officer and a Property Tax Assessment Specialist.

The 2024-2025 tax year has been challenging as we have spent a lot of time understanding our practices and procedures. This includes the Assessment Appeals process, which we have made great strides in.

The valuation of hangars has been done more accurately as we have the leases for almost all hangars. With more information provided to the Assessor's office, the valuation of aircraft is being done more accurately.

The change in ownership transfers have been brought up to current levels of 45 days, this allows the appraisal staff to re-assess these properties closer to our goal of 3 months. The time from when the new construction or re-appraisable event happens to when it's re-assessed has been cut drastically.

Our current Prop 8 process has shown to be more accurate as we do an appraisal on all Prop 8 properties. This has helped us to be more accurate with our Prop 8 values.

These changes have allowed us to move forward with improving processes to help making jobs more efficient and ultimately, serve the public better.

The Single Audit for fiscal year 2022-2023 has been successfully completed, and substantial strides have been made toward completing the 2023-2024 audit.

Modernizing Records:
In pursuit of greater efficiency and accuracy, the office is modernizing financial record-keeping by scanning and uploading documents into the county's financial system, Tyler Munis. This initiative is designed to expedite all future audits for both the county and its special districts.

Payroll:
Significant progress has been made on the Tyler Munis payroll conversion, with full implementation targeted for the start of the 2026 calendar year. It has been a lot of work with the double entry of payroll in both the legacy system and in Tyler Munis. We feel great about the progress made and look forward to a more streamlined payroll system in the coming new year.

Fixed Assets:
The Fixed Assets module has been successfully implemented into Tyler Munis.

Special Districts:
The office proudly provides essential financial services to over 40 special districts within Plumas County, including timely vendor payments as well as payroll services for more than a dozen districts.

Munis Training:

Plumas County Behavioral Health services the residents of Plumas County who have a large range of problems, including depression, anxiety, PTSD, bipolar disorder and schizophrenia.
Behavioral Health also provides services for individuals with addiction to drugs and/or alcohol. All services are available on an outpatient basis, which may include therapy, medication services, group, and case management support. HIGHLIGHTS FROM THE PAST YEAR

In 2024; PCBH became a MediCare certified provider, implemented the Mobile Crisis Unit program, implemented CARE Court, and reinstated the Children's System of Care (CSOC) in Plumas County. In 2025 we were able to hire two (2) Substance Use Disorder counselors so we can expand our services. BH went through our first "mega audit" (both Mental Health and Substance Abuse Disorder programs), and it appears we have done well. BH continues to work on permanent supportive housing for people with severe mental illness.

Specifically, those with Schizophrenia or other psychotic disorders, access treatment and supportive services. It aims to provide less restrictive alternatives to traditional mental health interventions by offering a court CARE Plan that includes treatment, housing, and other supportive services. It connects a person struggling with untreated Mental Illness, and often also Substance Abuse challenges with a Care Plan for up to 24 months. Each plan is managed by a care team in the community. Family members or people in the community can file a petition for someone to enter CARE Court, but they have the right to refuse.

GRAND JURY

Fund: 0001 General
Budget Unit: 20270 - Grand Jury
Function: 02 - Public Protection
Activity: 17 - Judicial

DESCRIPTION

Overview
Functioning as an integral part of the judicial branch of government, the Plumas County Grand Jury (Grand Jury) is one of 58 county grand juries operating in the State of California. The Grand Jury consists of 19 county residents who serve Plumas County on a part-time basis for 12 months. The primary function of the Grand Jury is to act as a citizen "watchdog" over county, city, and special district departments and officials, helping ensure that local government agencies and officers are accountable and working in the best interests of the public and communities that they serve. For more information about the function of California grand juries generally, see the website of the California Grand Jurors' Association (CGJA).

Powers and Jurisdiction
The Grand Jury has broad investigative powers, which permit it to select the topics and offices to investigate and report on each year. Among other things, those powers allow it to:

- Determine whether public funds are being spent appropriately and for intended purposes.
- Investigate whether local government agencies and officers are conducting their affairs transparently and openly, by applicable laws and procedures.
- Conduct inquiries and investigations into the condition of jails, detention facilities, and hospitals.
- Serve as an ombudsman for residents of the county, receiving and pursuing where deemed appropriate complaints made by county residents concerning the actions and performance of public officials or agencies.
- Investigate credible allegations of willful misconduct by public officials or employees while in office.

The Grand Jury's jurisdiction is limited to matters involving local government and local government officials. It is not authorized to investigate state or federal functions or offices. Its customary focus is one of conducting civil investigations; it does not ordinarily sit as a criminal grand jury.
Grand jurors are sworn to secrecy and grand jury meetings are conducted in closed session. All testimony given to the Grand Jury, and its deliberations, must remain forever confidential.

Code Enforcement Division Highlights

Over the past fiscal year, the Plumas County Code Enforcement Division has continued to uphold the safety, standards, and integrity of our communities through reactive enforcement, interagency coordination, and operational improvements. Our efforts reflect an ongoing commitment to effective service delivery and legal compliance across diverse areas of concern.

AB 548 State Housing Law Inspection Policy

We implemented procedures under AB 548 (Health and Safety Code §17970.7), authorizing inspections of multi-unit complexes when violations of HSC §17920.3 or §17920.10 are identified. This policy supports assessments where health and safety concerns may impact multiple units within a building, offering greater protections for affected tenants.

Transition to Cloudpermit Case Management

Code Enforcement successfully transitioned from the HAL system to the Cloudpermit platform, enabling more efficient case tracking, documentation, and reporting. This migration improves transparency and workflow by offering digital management tools tailored to our division's needs.

Case Activity Summary

From July 1, 2024, to June 30, 2025, the division processed a total of **476 cases**, with **187 cases closed**. Due to the system transition, legacy cases were manually reviewed and closed where appropriate, which may slightly affect reported totals.

Abandoned Vehicle Enforcement and Jurisdictional Efforts

In coordination with the District Attorney's Office, Code Enforcement supported investigations into abandoned vehicle violations, including:

- Removal of vehicles from public roadways and federal lands (CHP and U.S. Forest Service areas)
- Towing operations within county jurisdiction, including multiple abandoned vehicles removed from Chester Airport
- Compliance engagement with an aviation company following a report of an abandoned aircraft at Chester Airport

Increase in Compliance Challenges

This year brought a noticeable rise in resistance from violators, requiring more advanced enforcement actions to achieve compliance. In response, our team deployed additional legal and procedural tools, including:

- **Inspection warrants**
- **Receivership proceedings**
- **Administrative citations**

These efforts underscore the growing complexity of enforcement operations and our commitment to upholding county standards with diligence and care.

RECORDS MANAGEMENT BUDGET

Fund: 0001 General
Budget Unit: 20469 - Records Management Budget
Function: 02 - Public Protection
Activity: 21 - Other Protection

DESCRIPTION

Increased postage funds in this department were approved and allocated to the budget line item for postage expenditures. Postage is purchased and loaded into the postage machine where various departments utilize postage as needed. They are billed and a journal entry transfers the cost of the postage from the department back to a revenue line item in this department. This is a revolving process, but funds transferred back in are placed in a revenue account instead of back into the operating budget.

The Department of Information Technology continues to work with us with the OnBase records retention and retrieval system. Several departments are able to access archived records and are able to add some of their own historical records. This is a service that could be coming to the end of its life cycle as the increased cost to upgrade the system for the amount of departments utilizing the service is not a sustainable cost.

DEPARTMENT NARRATIVE

Department Head: Michele Fisch
Title: Area Director

Established in 1914, University of California Cooperative Extension (UCCE) is the informal, off-campus educational and outreach arm of the University of California Division of Agriculture and Natural Resources (UC ANR). County-based advisers and community educators use workshops, public meetings, newsletters and other communication tools to bring relative and timely research-based information to the counties. UCCE connects the power of UC research in agriculture, natural resources, and youth development with local communities to improve the lives of all Californians.

UCCE has been serving Plumas County since 1946 and Sierra since 1947. The department functions through a Memorandum of Understanding between the UC ANR and the County. Plumas/Sierra County provides office space, supplies, transportation and one full-time employee for clerical support. UC ANR provides 1 full-time area director, 4 full-time academic advisors, 1 community education specialist and 1 post-fire resilience staff research associate. Research and outreach activities are funded by grants and gifts obtained by UCCE advisors.

UCCE Plumas Sierra advisors offer research and outreach programs in livestock, forestry, post-fire resilience, weed ecology and cropping systems, and 4-H youth development. Plumas Sierra 4-H provides meaningful, hands-on educational activities to youth in clubs and expanded learning opportunities in schools. We currently have 7 clubs with about 207 members and 68 volunteers throughout the region.

Key issues in fiscal year 2025-26:

- Post-fire recovery and forest restoration
- On going forest health enhancement (on burned forest lands)
- Ongoing noxious weed control in support of weed management districts
- Post-fire grazing for fuels management and research with USFS collaboration
- Irrigated pasture production and efficiency improvements
- Ranching with predators/non-lethal management tools for livestock producers
- Expand 4-H programming and expanded opportunities for youth throughout the region.

HIGHLIGHTS FROM THE PAST YEAR

Michele Fisch, Area Director:

- The new Area Director began in December 2025.
- Michele has been part of the UCCE system for over 20 years in Placer and Nevada Counties. She is eager to build new relationships in Plumas and Sierra Counties supporting our local teams of advisors, educators, staff and volunteers as they deliver high-quality educational programming to our communities.

Tracy Schohr, Livestock and Natural Resources Advisor:

- Established a 15-acre demonstration site to showcase the benefits of interseeding to improve irrigated pastures.
- Conducted Sierra Valley pasture forage and soil assessment to inform best management practices in the region.
- Hosted session to promote the development and refinement of succession plans that are crucial for preserving family relationships and ensuring long-term viability of farms and ranches.

- Continuing long term research projects that support sustainable public lands grazing, post-wildfire rangeland management strategies and drought resiliency.
- Coordinated disaster preparedness and wildfire safety trainings in Plumas and Sierra Counties, qualifying 49 ranchers for Ag Disaster Access Passes.
- Conducted survey of ranchers and farmers to captures impacted from wildfire. Created policy brief to improve USDA disaster assistance programs.

Tom Getts, Weed Control and Cropping Systems Advisor:

- Research and education focused on insect and weed management. Grasshoppers continue to be problematic, and effort was focused on extension of blister beetle information and monitoring in hayed systems.
- Extension of information to producers on variety selection, soil sampling, soil test interpretation, and irrigation management.
- Continued research on control options for potentially herbicide resistant perennial pepperweed in Sierra Valley. Also, investigating integrated pest management (IPM) strategies for goathead control in landscapes with and without herbicides.

Kane Russell, Forestry and Natural Resources Advisor:

- Kane joined the UCCE team in January 2025 covering Plumas, Sierra, and Lassen counties. Kane earned his bachelor's and master's degree in forestry from UC Berkeley. His graduate work analyzed the effects of prescribed burning on young Sierra Nevada mixed conifer stands. Kane looks forward to working with and learning from the many devoted people and organizations in the region.
- Kane is preparing to conduct a needs assessment to identify the most pressing forestry and fire issues in the region and will begin to build a research and extension program based on assessment findings in collaboration with local partners.

Nic Dutch, Staff Research Associate II

- Wrote 5 new educational publications for the Post-Fire workshop series. View them: https://ucanr.edu/site/forest-research-and-outreach/materials/resources-post-fire
- Spearheaded the Reforestation Effectiveness Monitoring project for the Dixie and Caldor Fired Emergency Forest Restoration Teams (EFRTs), in partnership with Feather River and El Dorado RCDs: https://ucanr.edu/reforest-monitor.
- Served on CA Reforestation Pipeline's Reforestation Monitoring Working Groups.
- Presented at CARCD Reforestation Camp, Plumas TREX, Feather River College.

(Position Vacant) Community Education Specialist, 4-H Program Coordinator:

- Volunteers 68
- Youth Enrolled 207
- Plumas County 4 Clubs
- Sierra County 3 Clubs
- Hosted Community Suppers, Presentation Day & Fair-Jr Livestock Auction
- Current 4-H coordinator position is vacant, but we hope to have it filled by fall of 2025.

LOCAL ASSISTANCE & TRIBAL CONSISTENCY FUND

Fund: 0026 Local Assistance & Tribal Consistency Fund
Budget Unit: 80026 - Local Assistance & Tribal Consistency Fund
Function: 01 - General Government
Activity: 10 - Legislative & Admin

DESCRIPTION

The American Rescue Plan appropriated $2 billion to Treasury across fiscal years 2022 and 2023 to provide payments to eligible revenue sharing counties and eligible Tribal governments for use on any governmental purpose except for a lobbying activity. This program is called the Local Assistance and Tribal Consistency Fund (LATCF). Plumas County received two LATCF Allocations of $3,770,368.18 from the US Treasury in 2023 for a total of $7,540,736.36. These funds are expected to be fully allocated by December 31, 2026, however there is flexibility as well as no current sunset date. December 31, 2028 is the target for spending funds (not a hard deadline at this time).

For FY 26, the LATCF program will pivot from the planned offset of the rising costs of health insurance. Currently, no additional expenditures are planned other than an office remodel for functionality in the Building Department approved in FY 23. In the past, these funds have been used for fiscal assistance through CliftonLarsonAllen and Tyler Munis trainings, the Beckwourth Pump Project, and other office improvements including the Human Resources office relocation and unexpected plumbing repairs in the Courthouse.

COUNTY COUNSEL

DEPARTMENT NARRATIVE

Department Head: Joshua Brechtel
Title: Director

The mission of County Counsel is to provide quality, timely, and sound legal advice, services, and representation in all civil and administrative proceedings to the Board of Supervisors, elected and appointed department heads, County departments, staff, and special districts.

County Counsel is a support organization; the work is client-driven without any independent objectives. County Counsel is dedicated to the principle that thoughtful, credible, and ethical legal services lead to fewer lawsuits, lower liability costs, better services, and better County government. By interpreting the law in a sound and consistent manner, the office enables clients to reach their objectives in accordance with local, State, and federal law, thereby avoiding, to the extent possible, challenge and confusion.

County Counsel provides legal advice and assistance on matters such as: public policies; land use; human/social services; civil actions; risk management and insurance; municipal and public law; tort law; resources law; environmental law; nuisance abatement; and construction, facilities, and real estate law. The attorneys in County Counsel prepare Board reports and recommendations; prepare legal opinions; draft ordinances, resolutions, and proposed legislation; represent the County before the legislature as directed; formulate litigation strategies; oversee legal research and investigations; act as trial counsel in State court, federal court, and administrative proceedings; monitor legal developments; retain and manage outside counsel; and serve as attorneys for the County in all civil actions.

HIGHLIGHTS FROM THE PAST YEAR

During Fiscal Year 24-25, County Counsel's office faced additional challenges as the office was short a full-time attorney and the absence of a CAO and permanent human resources director meant additional duties and responsibilities. However, the office was able to meet the County's requirement for competent and effective legal services by completing 1142 requests for legal services in fiscal year 24/25 compared to only 915 requests in 23/24 when the office was fully-staffed.

DESCRIPTION

In California, counties are primarily responsible for providing and paying for indigent defense. Indigent defense in Plumas County is provided by independent, private attorneys that contract with Plumas County to provide representation in a certain number of cases and/or over a certain amount of time. The County Counsel office oversees the budget and contracting with the public defender group. Currently, there are three public defenders representing the indigent defendants of Plumas County: Craig Osborne, Alyssa Thomas, and Anna M. Samardich Tyner.

DISTRICT ATTORNEY

DEPARTMENT NARRATIVE & HIGHLIGHTS FROM THE PAST YEAR

Mission Statement:
Our mission is to vigorously, fairly and compassionately seek justice each day. As the chief law enforcement officer in Plumas County, I take our mission and daily responsibilities very seriously. By law, the district attorney is the chief law enforcement officer in the county. While a district attorney's duties are not limited to criminal prosecution, California law provides the district attorney's most essential duty is investigating and prosecuting criminal offenses on behalf of the People. California law provides

Department Description and Key Issues:
The District Attorney Team
The Plumas County District Attorney's Office meets its Constitutional obligations through the tireless public service of the DA staff. Team members include two Assistant District Attorneys, three legal secretaries, a fiscal officer, two investigators, an Alternative Sentencing (ASP) Manager and two ASP case workers (currently vacant). In serving Plumas County, these dedicated workers regularly deal with disturbing subject matter, stressful situations and victims going through the worst day of their lives. Our staff addresses these daily challenges with a consistency, fairness, grace and perseverance of which we are all rightly proud.

2024 Filing Statistics, Staffing and Legal Scrutiny
During the calendar year of 2024, the DA's office reviewed approximately 817 investigations, filing criminal charges in approximately 437 cases, not counting juvenile cases or probation violations. We continue to maintain one of the most experienced staffs in Plumas County, meeting all of our daily court and office obligations. For the 14th consecutive year, the Plumas County District Attorney's Office did not have a conviction reversed on appeal (nor were we the subject of any type of lawsuit).

Alternative Sentencing Program
In addition to the traditional prosecution of crime, the DA's office houses and supports the award-winning Alternative Sentencing Program (ASP). ASP exists to assist low-level offenders in the journey of becoming clean and sober, curb drug-related crime, reduce impaired driving, and reunite broken families. ASP is responsible for creating responses to the ever-changing criminal justice system while keeping Plumas County relevant and up to date with programs mandated by State and Federal governments, including administering Plumas County's highly successful Drug Court (Community Justice Court). ASP works with the Courts throughout Plumas County, ancillary service providers, non-profits as well as law enforcement to ensure quality, evidence-based pretrial, re-entry, and reintegration programming is being offered in Plumas County. In 2024, ASP became Plumas County's lead agency to assist the Superior Court in executing the Mandated Treatment Court as created by the overwhelming will of California residents with their passage of Proposition 36. We remain committed to the treatment of certain populations of criminal offenders and are grateful to California voters for providing this additional tool in requiring treatment to certain offenders.

Truancy Prevention Team
The DA's office continues to partner with our schools in providing prevention services through the Truancy Prevention Team. The TPT supplements school truancy programs by offering early intervention

designed to identify and correct a student's root cause of truancy. Since Assembly Bill 901 went into effect 1/1/2021 significantly removing Probation's role in truancy, the DA's office has increased our attention in both prevention, detection, and prosecution. The DA's office has been able to accomplish these goals despite a lack of county general fund or state grant support. While the DA's office recognizes the 2024-25 school years was one of transition, we stand ready to continue and reinforce our partnership with Plumas County schools in the area of eliminating truancy.

DA Investigator Shawn Adams has led this response, meeting regularly with school site administrators to identify those students who are truant. Once the student has been identified, a plan is formulated between Shawn and the school to check on the student's welfare and encourage the student to reintegrate with school staff. To meet this challenge Shawn routinely travels from Portola to Chester visiting students. In addition to making sure Plumas County children receive the education to which they are entitled, our truancy prevention efforts also provide an important safety net for some of the most vulnerable in our community. An excellent example of the importance of this program occurred a few years ago.

During the fall of 2020 when Shawn returned to the Indian Valley residence of a 6 year old who was not been seen by her school nor had picked up materials for distance learning. Shawn had previously visited the residence and expressed concern about the health and safety of the three children living there. When Shawn returned he found the six-year-old student babysitting her 3 and 5 year-old brothers. All were in a trailer described by a responding deputy as being in "shambles – the carpet was filthy and covered in food, trash was strewn about the residence." The boys were dressed only in diapers and were restrained with zip ties in car seats and placed in front of a television. The six-year old, who had not seen her parents in hours and did not know where they were, was dressed in dirty clothes with her shirt on inside out and backwards, wearing mismatched shoes on the wrong feet and wearing glasses so scratched it was difficult to see out of them. When Shawn first approached the house the six-year old had difficulty opening the front door and there was nothing readily available to cut the zip ties and free the boys from their undersized car seats. Upon these observations Shawn contacted and engaged Plumas County deputies and social services workers who all responded and addressed the situation.

Legal Actions Outside of Court

Outside of the courtroom, we also continue to serve Plumas County. As part of the historic PG&E criminal settlement stemming from the Dixie Fire, we continue to work with our Monitor to hold PG&E to the terms of our agreement. This five-year supervision includes, for example, pushing back on PG&E's attempts to abandon or curtail effective but expensive EVM (Enhanced Vegetation Management) in favor of far cheaper EPSS (Enhanced Powerline Safety Settings).

We also represent the People of the State of California in parole hearings providing efforts to assist surviving relatives and make sure offenders serve an appropriate sentence.

Additionally, we attend unexpected and necessary appearances such as we did this past month when a Santa Cruz County Superior Court judge considered (and denied) ordering a sexually violent predator to be housed in Plumas County. We will continue to attend these hearings to vehemently object to such an inappropriate and dangerous placement.

Community Service

Not lost among the many accomplishments of the staff of the district attorney's office is the dedication to serving our community. As an office, we pick up trash, keeping Highway 70 clean through the CalTrans Adopt a Highway program; we host the Quincy Community Supper serving a hearty meal of enchiladas, rice, beans and salad for 100+ members of our community; and we also provide educational opportunities allowing local college students to intern in our office to learn about criminal law as well as serving as a mentor for a local high school senior as they prepare a mock trial for their senior project.

Challenges and Solutions for 2025-26

At the outset, the district attorney's office wishes to acknowledge the change in trajectory and positive momentum in Plumas County's government during 2025. We are noticing a level of calm, consistency and competence which is allowing us to better meet our obligations – the foremost of which is serving the citizens of Plumas County.

This newfound footing will certainly allow our office, and others within the county, to meet a variety of challenges in the coming year. Most prominent will be the transition in leadership personnel we will see in both Plumas County's law enforcement community as well as in the district attorney's office. Specifically, the DA's office will be losing its fiscal officer to a well-deserved retirement. Sheri Johns, the DA Fiscal Officer, has provided a level of dedicated excellence in her fiscal work and leadership since 2006. While she will be undeniably missed, she (and office staff) has worked tirelessly to make sure this transition is as seamless as possible. Secondarily, we are eager and excited to continue our implementation of Proposition 36. On November 5, 2024, some 68% of California voters approved Proposition 36 – the Homelessness, Drug Addiction and Theft Reduction Act. In Plumas County, with our partnership between the court, prosecution and defense bar, as well as our established and award-winning Alternative Sentencing Program, we were well positioned to implement this sea-change in criminal law. I remain excited to see Plumas County's growth in embracing and expanding the programming created by Proposition 36.

Respectfully submitted,
DAVID HOLLISTER
District Attorney

Budget Unit: 20432 - Public Administrator
Function: 02 - Public Protection
Activity: 21 - Other Protection

DESCRIPTION

The State of California mandates that each county support an Office of the Public Administrator. In Plumas County, the office is entrusted to the District Attorney. The Public Administrator is available for the purpose of administering indigent decedents' estates. The estates may lack any surviving beneficiaries or heirs to administer the estates. The Public Administrator takes possession of the decedent's property and safeguards it until all obligations of the estate are met, and the remaining assets are distributed to the proper persons. The Indigent Cremation Program also falls under the Public Administrator. The program is designed to help families who are financially unable to pay for a funeral and is limited to direct cremations only.

DEPARTMENT NARRATIVE

Department Head: John Steffanic
Title: Director

The Plumas Sierra County Fairgrounds are a year-round event center featuring nearly 400 events, meetings, and conferences with the additional task of producing an annual county fair. In 2024, the Fairgrounds hosted 334 event days.

It is our duty to keep the condition, both physical and visual, at the highest possible level. The team serves the community with its gathering and meeting needs and is ready to serve in an emergency. Further, the fairgrounds are a vital driver of economic activity in Plumas County and strives to improve the economic health of our community.

HIGHLIGHTS FROM THE PAST YEAR

The Fair expanded its relationship with the Central Plumas Recreation District, resulting in several improvements to the flexibility of Serpilio Hall. Several maintenance goals were met with improvements to the main well, electric system, and lighting.

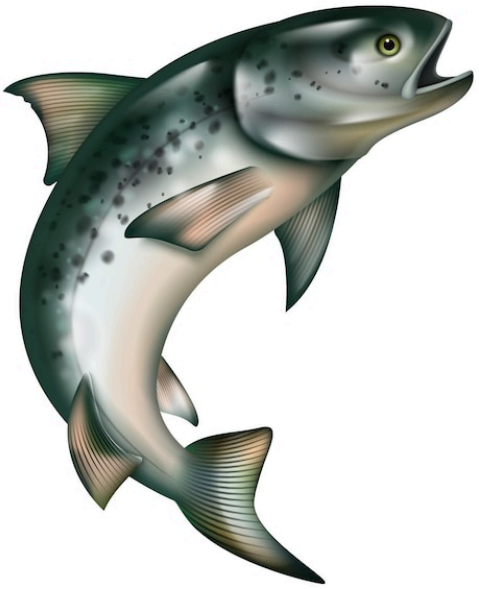
FISH & GAME COMMISSION

Fund: 0003 Fish and Game
Budget Unit: 20500 - Fish & Game Commission
Function: 02 - Public Protection
Activity: 21 - Other Protection

DESCRIPTION



The Plumas County Fish & Game Commission encourages the conservation and enhancement of Plumas County fish, wildlife and their habitats.

The Plumas County Fish & Game Commission consists of two members from each supervisorial district.

The Plumas County Fish & Game Commission works with Plumas County residents and the Board of Supervisors to support the conservation and maintenance of fish and wildlife resources in conjunction with Sections 1801 and 13100 - 13104 of the California Fish and Wildlife Code. This policy includes the following objectives:

- To enhance Fish and Wildlife activities including propagation, protection, restoration and community enjoyment
- To support Fish and Wildlife projects by citizen, State and Federal agencies
- To further research and education in areas related to Fish and Wildlife

HIGHLIGHTS FROM THE PAST YEAR

The Plumas County Fish & Game Commission (PCFGC) installed two wildlife guzzlers, each storing 1800 gallons of water from rainfall and snowmelt, on the north side of Highway 36 to provide water for deer and reduce roadkill near Lake Almanor. PG&E settlement funds were used to replace the existing guzzlers that were destroyed in the Dixie Fire.

The PCFGC contributed funds to the Plumas Audubon Society for their annual Grebe Festival at Lake Almanor. Funds were used to rent a pontoon boat for participants to view existing grebes up close. PG&E settlement funds were used to benefit this wildlife-related activity within the footprint of the Dixie Fire.

The Commission continued its partnership with the Plumas Unified School District K-6 Outdoor Education Program by committing to a level of funding to reimburse the qualified expenses for the four elementary schools in Plumas County.

The Commission partnered with Feather River Trout Unlimited to provide fishing poles for the annual Graeagle Fishing Derby.

LIBRARY/LITERACY

DEPARTMENT NARRATIVE

Department Head: Dora Mitchell
Title: Director

Plumas County Library provides free access to printed, audio-visual and electronic forms of information, and educates the community as to the uses and value of its resources. Serving as a gateway to knowledge beyond its collection, the library is a reflection of the community, a gathering of its knowledge, culture, and information. Through its programs, services, and collections, Plumas County Library provides free and equitable access to information and resources.

Plumas County Library includes the headquarters in Quincy, branch libraries in Portola and Chester, and a bookmobile. Through an agreement with neighboring Sierra County, Plumas County also provides library services at stations in Downieville, Sierra City, Loyalton, and Alleghany.

The library's collection includes books, audiobooks, DVDs, CDs, and magazines, online resources such as e-books, e-audiobooks, streaming movies, digital editions of current magazines and newspapers, newspaper archives, research databases, and educational resources like LinkedIn Learning, EBSCO Learning Library, and HelpNow (free one-to-one tutoring and homework help). Special collections include the California Collection (books on the history of Plumas County and surrounding areas); the Toy Library (educational toys and games); and the Library of Things, which offers a wide assortment of physical items such as home repair tools, outdoor gear, and digital devices. In-person services include reference assistance, public computers, Wi-Fi, printing, copying, and scanning. The library also hosts numerous programs for adults, children, and families, including Pre-school Storytime, Steam Ahead 4 Kids, the Summer Reading Program, and various educational programs, poetry workshops, and book clubs.

Plumas County Library oversees the Plumas County Literacy Program, which offers free help to adult learners in GED preparation, financial literacy, digital literacy, reading and writing comprehension, basic math skills, dyslexia remediation, and more. Literacy services are available by appointment or walk-in, in group and one-to-one formats. Plumas County Literacy also provides specialized learning programs for adults with intellectual and developmental disabilities, incarcerated individuals, and people on Probation. Computer instruction classes and weekly drop-in digital literacy services are open to all county residents. Plumas County Literacy also provides Project Read, a county-wide initiative to foster the love of reading by helping children build personal libraries at home. Baskets of free Project Read books can be found in various locations throughout Plumas County, as well as at county events such as the County Fair, Children's Fair, and Groundhog Fever Festival, and more.

HIGHLIGHTS FROM THE PAST YEAR

- The Library continued to be an active and vital community hub in the 23-24 fiscal year. Between the seven library locations in Plumas and Sierra County, the Library had more than 49,000 visits and 69,659 checkouts for the year. Over 10,000 residents across the two counties possess an active library card (used within the last three years).
- Library staff handled more than 4,800 reference questions on topics such as local history, genealogy, finding employment, accessing information online, technology help, and more.

- 475 programs for all ages were offered, including Summer Reading, Preschool Storytime, STEAM Ahead 4 Kids, Family Game Night, and Teen Game Night, as well as special one-time programs such as a bat nesting box-building workshop. More than 3,000 attendants participated over the course of the year.
- With funding from Plumas STARS, the Library created a Toy Library that offers a wide variety of educational toys, musical instruments, games, puzzles, building blocks, and more for families and childcare providers to borrow. The Library also began a collaboration with Plumas Rural Services to help promote and circulate PRS's own extensive toy library, which had been difficult for the public to access.
- The Library of Things (a collection of tools, electronics, and other special equipment) was expanded with a wide variety of useful items available for checkout. Tool lending libraries are a popular feature in public libraries nationwide. They provide a way for communities to reduce consumption, share resources, and access items that are often costly, only needed occasionally, and spend most of their time gathering dust in the garage. New items include a selection of power tools (cordless drill, impact driver, brad nailer, staple gun, digital stud finder, and more); home inspection tools such as a digital air quality monitor, gas leak detector, and infrared heat detector; gear for outdoor activities such as a GoPro camera, metal detector, bike repair kit, and an outdoor projector and inflatable screen for backyard movie nights; and crafting tools, including a button maker, sewing machine, and Cricut machine.
- The Zip Books program, which allows patrons to request any book or audiobook that the Library does not own and have it shipped from Amazon straight to their door, provided 822 new books to the public. More than 800 of these books were then added to the permanent collection.
- The children's areas in the Portola and Chester Branch Libraries were refreshed with grant funding from Plumas STARS. New books, musical instruments, educational toys and games, new display shelving, and a sensory play table were added to make these spaces more welcoming and engaging for young children and families.
- The Friends of the Quincy Library funded the purchase of new furniture for the Quincy Library reading area and young adult corner, inviting library users to spend more time reading, relaxing, and enjoying the Library's resources.
- Additional funding from the county's ARPA grant was provided to the Library for the purpose of addressing the digital divide in Plumas County. These funds were used for a much-needed upgrade to the public computers in the Quincy, Portola, and Chester branches, new student laptops for the Literacy program, and additional Wi-Fi hotspots, which provide internet access to county residents who don't have broadband connectivity at home.

DEPARTMENT NARRATIVE

Department Head: Paul Russell
Title: Director

The mission of the Plumas County Museum is to interpret to a broad public audience, in innovative and meaningful ways, the history of Plumas County from its beginnings, and to relate that history, when appropriate, within the broader context of Plumas County and the encompassing region.

The Museum seeks to collect, preserve, and interpret Plumas County's natural, cultural, and social history and heritage through historical exhibits and educational programs for all people. We seek to maintain our presence in local history education through hands-on experience, contribute to the economic development of Plumas County through museum programs and cultural tourism programs, and work with and offer support and technical assistance to other Plumas County cultural institutions.

Museum facilities include the main building featuring periodically changing exhibits and displays, including one of the finest Mountain Maidu basketry collections in the state and a bookstore featuring local and regional subjects. Our outdoor exhibit yard features mining displays, a working blacksmith shop, a gold miner's cabin, as well as a collection of antique vehicles. Adjacent to the museum is the 1878 Variel Home. This fully restored Victorian home is owned and operated by the Plumas County Museum Association and contains many artifacts from early pioneer Plumas County families.

The museum's collections originated with memorabilia assembled for exhibit in the Memorial Room at the Plumas County Courthouse in 1921 by the Native Daughters of the Golden West and the Native Sons of the Golden West. After construction of the Plumas County Museum in 1968, this original collection has grown into the thousands – with the bulk being donations from community members of Plumas County and now has expanded to include nearly 12,000 three-dimensional artifacts and over 28,000 archival historic documents, maps, photographs, negatives, books, newspapers, and other records. Some of the highlights of our collection include:

- Davis Native Basket Collection
- Falck Native Basket Collection
- Chinese Collection
- James Boynton Railroad Collection
- Antique Firearms Collection
- Longboard Skis Collection
- Philip Hyde Photograph Collection
- County Records Collection
- Watson Map & Surveying Collection
- James Beckwourth Collection
- Historic Plumas County Newspaper Collection

The Plumas County Museum also works with and oversees and manages (with the assistance of the Plumas County Museum Association) several county-owned historical properties such as the:

- Hall-Lawry House, Quincy
- Taylorsville School, Taylorsville
- Beckwourth Cabin Museum, Portola
- Chester-Lake Almanor Museum, Chester

GIS (GEOGRAPHIC INFORMATION SYSTEMS)

Fund: 0001 General
Budget Unit: 20510 - GIS
Function: 01 - General Government
Activity: 16 - Other General

DESCRIPTION

GIS (Geographic Information Systems) Division develops, maintains, and distributes spatial information to aid in the creation of public-facing interactive maps through the Plumas County GIS Map Portal and data analysis to support various County departments and their customers such as the Assessor's Office, Building Services, Engineering Department, Environmental Health Department, Planning Department, Elections, Public Works Department, and the Treasurer/Tax Collector. GIS is a computer system capable of holding and using data as a resource for mapping or performing land-based analysis. The data in GIS is created in what is called GIS 'layers.' Each layer represents a group of common information. Some examples of GIS layers used in Plumas County include planning area boundaries, parcels, roads, railroads, address points, general plan land use designations, planned development designations, primary zoning districts, combining zones, airport influence areas, special district boundaries, supervisorial districts, other political boundaries, voting precinct data, and much more.

PROBATION

DEPARTMENT NARRATIVE

Department Head: Keevin Allred
Title: Chief Probation Officer

The Plumas County Probation Department is committed to protecting the community and minimizing the impact of crimes by providing high-quality professional services to the courts, offenders, and victims.

The Probation Department is primarily guided by statutory mandates and court orders. Probation is fundamentally the primary alternative to incarceration. Probation Officers are sworn officers tasked with supervising defendants placed on formal probation with court-ordered conditions.

In the juvenile arena, the Probation Department's functions also include prevention services intended to deter youth from the juvenile justice system. Balancing accountability with the opportunity for clients to receive rehabilitative services and redirect their lives is a focal point, as these opportunities, when taken advantage of, can have a lasting impact on public safety.

The Probation Department collaborates with other local, state, and federal agencies and community-based organizations to accomplish our mission. Our primary services include supervision, court services, pretrial services, Collaborative Offender Reentry Program, as well as youth programs including diversion, informal probation supervision, wardship supervision, parenting classes, and foster care placement.

HIGHLIGHTS FROM THE PAST YEAR

During fiscal year 2024/2025, the Probation Department retained all of our staff. We recently had one of our most experienced officers promote from Deputy Probation Officer II to Deputy Probation Officer III. In addition, we hired two promising young employees: one Deputy Probation Officer I and one Probation Assistant. As a result, there remains only one vacant position in the department, the Supervising Probation Officer position. The significance of this accomplishment cannot be over stated. Stability and performance in the department are enhanced when staffing is consistent. After many years of instability and turnover, this type of consistency, along with the quality of the individuals who are employed, has contributed to the general welfare of the Probation Department and our contributions to public safety in Plumas County. For the first time in nearly a decade, we have stability within our agency. The Chief Probation Officer has been with this agency for over sixteen years. In addition, we have three employees who have over eight years of experience with the agency, including the

aforementioned newly promoted DPO III. Four other employees have four to nine years of law enforcement experience. The addition of Victim Witness to our agency has been a benefit to both agencies, as well as the public

The addition of weekly cognitive-behavioral journaling programs at the Probation Office, for both adults and juveniles, has been an effective intervention for our clients. These evidence-based interactive journals have been proven to be an effective means of motivating and guiding individuals toward positive life change by addressing a wide variety of topics such as social values, responsible thinking, self-control, peer relationships, substance abuse, employment, and more. For the new year, we will be adding an Independent Living Skills program for juveniles at the threshold of becoming young adults. This program is a partnership with the Plumas County Library Literacy Program and our Juvenile Probation Division, designed to help juveniles acquire some necessary skills to make a successful transition into adulthood.

We also currently offer both a 2.5-hour parenting class in partnership with the Library Literacy Program and a 16-week parenting class in partnership with Plumas Rural Services, designed to teach parents the skills necessary to deal with out-of-control juveniles. The goal of these parenting programs is prevention. In other words, help the parents get their children on the right path before those children become deeply entwined in the justice system.

This year, one transitional living cabin was added to the department's housing program that we operate in partnership with Environmental Alternatives Family Services, allowing the department to house up to four adult high-risk clients, who are generally repeat offenders. These clients receive comprehensive 24/7 case management services that address a myriad of issues related to future law-abiding behavior and positive life changes. This program provides the stability clients need to establish lasting changes. Before the recent development of this program, these clients would likely have been homeless and difficult to supervise. Public safety is enhanced when this type of rehabilitation and close supervision is provided. In addition, in FY24-25, we began working with Plumas Crisis Intervention and Resource Center's Northstar Navigation program to provide housing, services and structure to clients recently released from incarceration. This program offers a gateway to either transitioning the client to long-term stable housing or to our program with Environmental Alternatives, which offers another step towards independence. The goal in each case is to move the client towards employment, permanent housing, and law-abiding, productive living. Both programs have been very successful partnerships. All the above-mentioned programs contribute to public safety in Plumas County.

This year, efforts have been made to better evaluate the effectiveness of programs by collecting data related to outcomes and the impact they are having on recidivism and clients' improved functioning in the community, such as employment, housing stability, safe and positive relationships, etc.

We would be remiss if we did not mention that our Officers work tirelessly to ensure the public remains as safe as possible. At times, this means referring a client to one of the above programs and supporting them in their path toward rehabilitation. Other times, it means holding clients accountable through sanctions, violations of probation, and arrests or confinement. All of these tools contribute to our primary goal of keeping the citizens of Plumas County as safe as possible.

There is still much to be done, but the last year has been a promising and productive one for the Probation Department. We continue to strive for excellence and consider it a privilege to serve our court, clients, and community.

AB109 - PUBLIC SAFETY REALIGNMENT

Fund: 0046 Probation Grant Department(s)
Budget Unit: 20418 - Probation-AB109 - Public Safety Realignment
Function: 02 - Public Protection
Activity: 19 - Detention & Correction

DESCRIPTION

To comply with a United States Supreme Court decision to reduce California's prison population, and assist in alleviating the State's financial crisis, the Public Safety Realignment Act (AB109) was signed into law on April 4, 2011. AB 109 redefined felonies and shifted responsibility for both supervising and housing certain convicted felony offenders and parolees from the state to the county. Implementation of the Public Safety Realignment Act began October 1, 2011.

This Act diverts the custody housing and supervision of offenders convicted of certain state prison offenses to the local county level. Realignment legislation also directs the State to give counties a portion of sales tax and vehicle license fee revenue to fund the new responsibilities realigned from the state to the counties. In order to receive the funding, counties are required to have a Community Corrections Partnership (CCP) that creates and oversees an AB 109 Realignment Implementation Plan (AB 109 Plan) identifying programs to address responsibilities for realigned offenders going through the local justice continuum.

SB678 - ADULT HIGH RISK

Fund: 0046 0046R Probation-Adult High Risk
Budget Unit: 20409 - SB678 - Adult High Risk
Function: 02 - Public Protection
Activity: 19 - Detention & Correction

DESCRIPTION

The Community Corrections Performance Incentive Act (CCPIA) provides funding to local jurisdictions for specified purposes relating to improving local probation supervision practices and capacities for felony offenders on formal probation.

The Legislature designed the California Community Corrections Performance Incentives Act of 2009, or SB 678 program, with two purposes: alleviating state prison overcrowding and saving state General Fund monies. These purposes are to be accomplished without compromising public safety by reducing the number of individuals on felony supervision (felony probation, mandatory supervision, or post-release community supervision) who are sent to state prison. The program is also designed to encourage county probation departments to use evidence-based supervision practices to accomplish these goals.

The mission of the Plumas County Public Health Agency is to promote and protect individual and community health and well-being. We do this through innovative partnerships, public planning and policy, and ensuring access to respectful services.

Plumas County Public Health Agency (PCPHA) is accredited through the Public Health Accreditation Board, highlighting PCPHA's commitment to community health by meeting national quality and performance standards. PCPHA consists of several divisions that support community health and wellbeing.

PCPHA's comprehensive range of nursing services include Communicable Disease Control, Family Planning, Immunization Programs, Home Visiting and Maternal and Child Health Services, Childhood Injury Prevention Program, STI/STD Testing, Outreach Clinics, Tuberculosis Testing, WIC Assessments, and Flu Shot Clinics.

Health Promotion and Chronic Disease Prevention programs focus on keeping people healthy by engaging and empowering individuals and communities to choose healthy behaviors and make changes that reduce the risk of developing chronic diseases and other morbidities. These programs include Youth Development and Substance Use Prevention, Tobacco Use Reduction (including electronic devices), Healthy Eating and Active Living, HIV Care & Treatment, Children's Oral Health, and Harm Reduction services.

Public Health Emergency Preparedness focuses on creating strategies, protocols, and training programs to ensure a prompt and efficient response to events such as natural disasters, disease outbreaks, or other emergencies that may impact public health.

In addition to these services, PCPHA holds previous General Fund Departments, Senior Nutrition and Transportation Services and Veteran's Services, which also support the health and wellbeing of the populations they assist. These services are integrated as distinct divisions within the agency. Unlike the other divisions of PCPHA, these divisions are partially funded by the general fund due to their background as general fund departments, and partially funded through grants and subvention funds.

DESCRIPTION

This program is dedicated to preventing and controlling the spread of infectious diseases with the primary goal of protecting the health of the community and our most vulnerable populations. This is achieved by conducting surveillance of potential infectious diseases and identifying potential outbreaks by tracking disease trends. Response efforts are then coordinated by mobilizing resources, deploying personnel, and effectively communicating to increase public awareness about preventative measures, vaccinations, and disease transmission.

PUBLIC WORKS

DEPARTMENT NARRATIVE

Department Head: Rob Thorman
Title: Director

The mission of the Public Works Department includes:

- Maintain, repair, design, and construct county roads, bridges, and stormwater drainage systems in accordance with local, state, and federal laws/standards to maximize public safety.
- Review and approve land development projects as they relate to the county road and drainage systems.
- Pursue and obtain federal and state funds for the county roads, bridges, and storm drainage systems.

The Department of Public Works strives to provide a safe, secure, and reliable infrastructure for the County. The Department serves the public as the Road Department by providing for the construction and maintenance of County roads and bridges.

The Road Department also provides staffing to serve the public for:

- Flood Control & Water Conservation District
- Solid Waste Division
- Engineering Department (County Engineer and County Surveyor)
- Walker Ranch Community Services District (water and sewer)
- Beckwourth Community Services Area (sewer)
- Transportation Commission
- County Service Area # 12 (Transit Operations)
- Quincy Lighting District
- Crescent Mills Lighting District

HIGHLIGHTS FROM THE PAST YEAR

- Public Works has been successful at filling Road Worker positions, but struggles to hire Assistant Director, Transportation Planner and Assistant Engineer positions. Eric Braswell was promoted to Deputy Director in April after Joe Blackwell's retirement. Rob Thorman was appointed Director after John Mannle's retirement.
- Snake Lake Bridge project received authorization for construction funding
- Beckwourth-Calpine received authorization from Ca Transportation Commission for construction of paving overlay from Dyson Lane to the Sierra County Line.
- Flood Control was successful at selling 2,025 acre feet of water thereby keeping Flood Control sustainable.
- Solid Waste managed repair of three columns at the East Quincy transfer station paid for by Waste Management insurance.
- Solid Waste partnered with CalFire and Intermountain Disposal in acquiring an air curtain burner on loan as a pilot program for efficiently burning pinecones and needles.
- The Engineering Department instituted a revised Fire Safe Driveway fee to conduct additional site visits prior to permit and after construction.
- Beckwourth CSA continues to operate the sewer grinder pump that was added a few years back with no breakdowns to date.

- The Transportation Commission was successful at installing two dual port level 2 charging stations at Dame Shirley Park. An Electric Vehicle Master Plan is also underway County wide.
- CSA 12 received three new buses through a grant to maintain capital improvements.
- Quincy Lighting District upgraded the lighting fixtures to more efficient LED lighting.
- Crescent Mills Lighting District has no highlights for the year, and that is a good thing!

SHERIFF

DEPARTMENT NARRATIVE

Department Head: Chad Hermann
Title: Sheriff-Coroner

MISSION STATEMENT:
The mission of PCSO is to protect and serve the residents of Plumas County by providing vigorous, ethical, efficient law enforcement, and increasing public awareness of personal safety and security measures. In addition, PCSO provides humane custody and care for those incarcerated in the Plumas County Jail.

SUMMARY:
The members of the Plumas County Sheriff's Office (PCSO) are committed to providing constitutional, ethical, and professional service to the residents of Plumas County. These "Core Values" guide the members of PCSO as they work to fulfill their mission.

In order to accomplish the mission, PCSO encourages employee professionalism through improved communications and by providing continuous and productive training. PCSO is committed to providing a secure and comfortable work environment in which employees are encouraged to take pride in their work and strive for excellence. PCSO realizes the importance of individual commitment and recognizes outstanding employee performance.

PCSO serves all the residents of Plumas County by providing a complex mix of public safety and public service functions. PCSO provides around-the-clock law enforcement response to every region of the unincorporated County and the City of Portola. In addition to 24-hour policing, PCSO offers a full range of services which serve all of Plumas County as required by law such as coroner services, civil services, court security, and corrections. PCSO's organizational structure consists of four distinct but interrelated divisions:

The Operations Division oversees the Sheriff's patrol, dispatch, investigative, and coroner functions.

- Patrol: PCSO deploys teams of deputy sheriffs throughout the County to investigate criminal activity and engage in preventative patrols. Deputies respond to approximately 3,919 calls for service per year.
- Dispatch/Warrants: In 2024, the Sheriff's Dispatch Center received approximately 10641 calls of which approximately 7, 382 were 9-1-1 emergency calls. The Dispatch Center processed approximately 393 warrants, which includes entering all warrant data into in-house, state, and national databases.
- Coroner: The coroner function of PCSO involves the investigation of sudden and unexpected deaths in order to determine the circumstance, cause, and manner of those deaths. In 2024, 136 cases were investigated by the Coroner's Office.
- Other teams and units overseen by the Operations Division include the Special Weapons and Tactics Team (SWAT), the Boat Patrol Unit and Animal Control.

Corrections Division – The Corrections Division completed the move-in to the new 60-bed Plumas County Correctional Facility. The transition to the new direct supervision has been a needed transition from the old lineal style jail. Correctional Staff have been continually adapting to the new facility to make the operation and safety of the facility their top priority. In 2024, the average daily population in the jail was 26 inmates in 2024, a slight decrease from 34 in 2023. Annual bookings decreased from approximately 689 in 2023 to 538

in 2024. Corrections Division staff supervise and care for inmates within the jail by providing for their safety, security, and basic needs.

The Corrections Division includes a number of specialized working groups and units. These include programs to mitigate the risk of recidivism; the Jail Medical Unit, Classification Officers, the Inmate Transportation and Extradition Officer, the Alternative Custody Supervision (ACS) program, as well as food preparation and laundry services.

The Sheriff's Office continues to work diligently to mitigate on-going challenges brought about by AB 109, Proposition 47, Cal-Aim and other statutory changes to the criminal justice system.

Administrative Support Division – The Administrative Support Division provides direct and indirect support services and staff to the other Divisions by assisting with the following:

Civil Unit – Pursuant to state law, the Civil Unit processes, serves and enforces court documents, writs, and orders within Plumas County, including, but not limited to the following: restraining orders, evictions, wage garnishments, levies, subpoenas, and bench warrants. The Civil Unit is responsible for the collection and disbursement of collected funds. Approximately 643 civil service orders were processed in 2024.

Records Unit – This unit reviews and maintains all of the crime and incident reports generated by the Operations and Corrections Divisions. On average, the unit processes approximately 10,641 cases/calls each year, resulting in an average of more than 1,000 reports. These reports must be reviewed and routed appropriately for investigation and potential prosecution.

In addition, the Records Unit is responsible for compiling and reporting monthly and annual statistical data as required under the California Incident Based Reporting System (CIBRS), and California Racial Identity Profiling Act (RIPA). The Records Unit is also responsible for processing and maintaining the records on all Sex and Arson Registrants into the California Sex/Arson Registration system (CSAR). Approximately 56 sex offenders and two Arson offenders are currently registering with the Plumas County Sheriff's Office annually, one of which is a transient and must register every 30 days in addition to the annual requirement.

All permits and licenses for Sheriff's services are prepared, processed, and maintained through the Records Unit. A few of these permits include approximately 470 residential alarm permits, 75+ ABC Permits, and citizen concealed weapons (CCW) applications.

In 2024, the unit processed approximately 131 CCW applications, and maintained a total of 500 active CCW permits. The Records Unit is also available to the public for live scan fingerprinting services for employment, licenses, and permits. In the year 2024, the Records Unit processed about 665 fingerprinting services to the community at large.

Court Security Division – Provides security to both the Superior Courthouse and Courthouse annex within Plumas County. Court security includes courthouse entrance weapons screening of all persons entering the court buildings, custody of inmates awaiting court hearings, and safety of all persons within the court buildings including judicial officers, court employees, and members of the public. In a year, court security screens approximately 10,000 people and manages approximately 7,000 inmate appearances.

HIGHLIGHTS FROM THE PAST YEAR

In Fiscal Year 2024/25 the Plumas County Sheriff's Office had several highlights through hard work and dedication from the members of our department,

- We were able to get hiring bonuses for Correctional Officers, Dispatch and Patrol Deputies. The bonus helped with recruitment and retention, thus cutting down on mandatory overtime to cover shifts. The reduced work provided staff with the opportunity to have time off and decompress rather than working 6 days per week.
- We completed the new jail project and moved into the facility in October. This was a heavy lift for staff, but the transition to the new facility went flawlessly. More importantly, the cost of the jail was nearly completed within the allotted budget.
- We were able to get our new Computer Dispatching, Report Management and Jail Management system operational and in use despite our in-house I.T. retiring as we started the project.
- Our partnerships with the County Department Heads have improved tremendously. We are working together to save money where possible while providing the best possible service to the county.
- We received grant funding for Boats and Waterways, an officer wellness program, funds for spay and neutering, a traffic collision software program, and the last phase of our body worn cameras.
- We have been working with Sierra Electronics to bolster the infrastructure of our communications systems to enhance public safety.
- We developed our plan and process to install laptops in patrol vehicles which will provide patrol staff with the ability to work remotely on reports within the county. This plan should be fully implemented in the upcoming fiscal year. We utilized Homeland Security grant funds to complete this project with no impact on the general fund.
- Due to the retirement of our in-house I.T., we have developed a great partnership with County I.T. and are working closely with them on much needed security measures and software upgrades.
- The basic work equipment upgrades within the Sheriff's Office have provided staff with a safer and healthier work environment.
- Successfully completed mandatory POST and BSCC training for the majority of staff.

Assembly Bill 443 (AB 443), passed by the California Legislature in 2023, focuses on enhancing the standards and protocols related to peace officers and the determination of bias in law enforcement. This bill mandates the Commission on Peace Officer Standards and Training (POST) to establish a clear definition of "biased conduct," which includes both explicit and implicit biases. COMMUNITY CORRECTIONS PARTNERSHIP AB109 - SHERIFF

Fund: 00017 0017G Sheriff - Grants
Budget Unit: 70362 - Community Corrections Partnership AB109 - Sheriff
Function: 02 - Public Protection
Activity: 18 - Police Protection

DESCRIPTION

The Community Corrections Partnership (CCP) was established as part of California's Public Safety Realignment under Assembly Bill 109 (AB 109) in 2011. This legislation shifted the responsibility for many non-violent, non-serious, and non-sexual offenders from state prisons to county jurisdictions. AB 109 aimed to reduce recidivism and improve public safety by encouraging local governments to strengthen their community corrections programs through evidence-based practices.

The CCP in each county is responsible for developing and implementing local plans to manage these offenders. These plans are submitted to the county Board of Supervisors for approval. The partnership typically includes various local officials such as the Chief Probation Officer (who chairs the CCP), the Sheriff-Coroner, the District Attorney, the Public Defender, and representatives from health and human services, the judiciary, and law enforcement.

DESCRIPTION

The Tobacco Settlement Fund is derived from the Master Settlement Agreement (MSA) reached in 1998 between major tobacco companies and 46 states, including California. Under this agreement, tobacco manufacturers make annual payments to states in perpetuity to compensate for public health costs associated with tobacco-related illnesses.

Counties in California receive a portion of these funds through the state's allocation process. The use of Tobacco Settlement Funds varies by jurisdiction but is generally directed toward health-related programs and services. Eligible uses may include public health initiatives, healthcare access, tobacco prevention and cessation efforts, and capital improvements to health facilities.

GUIDE TO THE BUDGET

This Guide is provided to explain in everyday terms how Plumas County government plans and accounts for its finances in order to meet its obligation to be stewards of the public's money. Plumas County government provides for the basic safety, health, and welfare of its citizens by providing a variety of services to the public. The County provides such a wide variety of social, health, environmental, public safety, and other services it is a challenge to keep citizens informed and involved in the business of government. Hopefully, this Guide will make it easier to understand how at least some of the County's financial activities work.

WHAT IS THE BUDGET?

The annual budget of Plumas County government is a statement of the financial policy and plan for the coming fiscal year. The budget document presents in detail, the financial plan for the County, including its sources of revenue (resources) and the allocation of these resources to the programs of the County. The Board of Supervisors adopts the budget by passing a Resolution authorizing an appropriation of funds.

WHAT IS AN APPROPRIATION?

An appropriation is a common term for the authorization granted by the Board of Supervisors to make expenditures and incur obligations for specific purposes. An appropriation is time-limited and must be expended before the end of the fiscal year.

WHAT ARE REVENUES?

Revenues consist of income received through taxes, licenses, and permits, grants from other governments, charges for services, fines, and forfeits, and other miscellaneous sources. Revenues are one component of available financial resources which are used to fund appropriations.

WHAT ARE EXPENDITURES?

Expenditures occur when the County buys goods and services and pays its employees. Expenditures can be categorized into three types: operating expenditures, capital expenditures, and debt service expenditures. Operating expenditures are the day-to-day spending on salaries, supplies, utilities, services, and contracts. Capital expenditures are generally for acquisition of major assets such as land and buildings or for the construction of buildings or other improvements. Debt expenditures repay borrowed money and interest on that borrowed money.

WHAT IS A FUND?

For accounting purposes, the County is organized into many separate fiscal entities known as funds. Each fund is a separate division for accounting and budgeting purposes. The fund accounting structure allows the County to budget and account for revenues that are restricted by law or policy to a specific use or purpose in accordance with nationally recognized rules of governmental accounting and budgeting.

The County budget consists of many funds. Each fund may be thought of as a separate checking account to be used for a specific purpose. All funds of the County fall into one of six major categories. The following is a brief description of the six fund categories.

General Fund: The General Fund finances most services that the County provides. This includes law enforcement and other criminal justice, community development and land use planning, elections and voter registration, fire protection, library services and administration. The General Fund is basically a "catch-all" to account for County operations that do not have to be recorded in a different fund.

Special Revenue Funds: Special revenue funds are used to account for revenues that are used for specific purposes. An example is the Road Fund where we record the transportation allocations and taxes received from the State which must be used for roads and bridges.

Capital Projects Funds: The Capital Projects Fund is used to account for the acquisition and/or construction of major capital facilities. Debt Service Funds: Debt service funds are used by the County to account for the accumulation of resources for, and the repayment of, borrowed money and any interest on these debts.

Enterprise Funds: Enterprise funds are established to account for operations that are financed and operated in a manner similar to private businesses with the intent that the cost of goods or services provided will be recovered primarily through charges for services. Enterprise funds are used to account for all costs such as Solid Waste Planning/Operations, Airports, Plumas County Transit Authority, and Senior Transportation. Internal Service Funds: Internal service funds are used by the County to account for the financing of goods or services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis. An example of an internal service fund is the Workers' Compensation Fund.

WHAT USE FUNDS?

Reason 1: Fund accounting is required by the State. California State law governs how counties and cities in the State will account for their revenues and expenditures. All cities and counties are audited annually to ensure that they have followed the accounting rules.

Reason 2: Whenever a city or county receives dollars from the State or federal government in the form of a grant, the city or county must account for those dollars in the manner prescribed by the State or United States government, audits are conducted to ensure that these accounting rules are followed.

Reason 3: Whenever a local government approaches the financial market to borrow money, the local government must provide financial statements, prepared in accordance with national accounting standards, which accurately portray the financial condition of the local government. Financial institutions and investors will loan money to the local government only if the local government can demonstrate through its financial statements that it will be able to repay the debt.

Reason 4: The County, like all other local governments nationwide, uses fund accounting because this system of accounting is the standard prescribed by national organizations that are associations of accountants and finance professionals from cities and counties all over the country. The principles used to account for businesses, called Generally Accepted Accounting Principles (GAAP), are established by the Financial Accounting Standards Board (FASS). Similarly, principles used to account for local government finances are established by the Governmental Accounting Standards Board (GASS).

WHAT IS A TRANSFER?

Interfund operating transfers represent subsidies and contributions between funds. An example of operating transfers is the transfer of funds from the General Fund to the Public Health Fund for the County's mandated contribution to public health programs. Another example is the transfer of funds from the General Fund and/or other operating funds to the Capital Projects Fund to account for Capital Projects.

WHAT IS A FUND BALANCE?

Fund balance is the difference between the assets and liabilities of the fund. It is good financial policy to have a reasonable amount of fund balance for emergencies and to carry the fund through slack times in revenue collections. In a given year, if revenues exceed expenditures, the fund balance will increase; if expenditures exceed revenues then the fund balance will decrease.

ACCOUNTING FOR TAX DOLLARS?

It is the responsibility of the County Auditor-Controller to account for the receipt and expenditure of all County funds. The County Auditor-Controller annually issues what is referred to as the Annual Audit to show the financial condition of every County fund and details of each fund's revenues and expenditures that fiscal year.

A BALANCED BUDGET

By law, each separate fund must have a balanced budget. This means that revenues, plus fund balance carryovers, must equal the appropriations and increases in reserves. So for each fund, the budget spells out where the dollars are coming from and how they will be spent.

THE OPERATING BUDGET - SERVICES TO THE PUBLIC

The majority of services provided by the County to its citizens are accounted for in operating funds, which include the General Fund, Public Health Fund, Behavioral Health Fund, and Road Fund.

The expenditure budget for all funds is itemized into categories, often called line items but sometimes referred to as objects, sub-objects, accounts, and subaccounts, depending on the level of detail. These line item categories are used to account for expenditures made. However, for budgeting and planning allocations, the object level of detail is used. The various line items are grouped into several object categories. These are:

Salaries and Benefits: This is the amount paid for services rendered by employees in accordance with the rates, hours, terms, and conditions authorized by law or stated in employment agreements. TO:	**Honorable Chair and Board of Supervisors**
FROM:	**Rob Thorman, Director of Public Works**
MEETING DATE:	**September 16, 2025**
SUBJECT:	**Adopt RESOLUTION to authorize the Manager of Flood Control to transfer Operation and Maintenance responsibilities and to pay associated transfer costs; (No General Fund Impact); approved as to form by County Counsel; discussion and possible action. Roll call vote.**

Recommendation:
Flood Control Manager recommends that the Flood Control Governing Board approve the Resolution authorizing the Manager to transfer the O&M responsibility to the City of Portola and to pay DWR associated costs estimated at $20,000.

DWR has invoiced for $20,000 for turnout related cost per article 10 (d) of the Water Supply Contract. DWR advance is for reimbursement of DWR time in coordinating the transfer and drafting the transfer agreement.

The Resolution authorizing the transfer and payment of associated costs has been approved as to form by County Counsel.

Action:

Adopt **RESOLUTION** to authorize the Manager of Flood Control to transfer Operation and Maintenance responsibilities and to pay associated transfer costs; (No General Fund Impact); approved as to form by County Counsel; discussion and possible action. **Roll call vote.**

SUBJECT: Transfer of Operation and Maintenance Responsibilities for Grizzly Valley Pipeline to City of Portola

Dear Mr. Villalobos:

This letter is in response to your October 18, 2017 letter, copy attached, regarding Plumas County Flood Control & Water Conservation District (District) request to transfer local operation and maintenance (O&M) responsibilities of the Grizzly Valley Pipeline (GVP) from District to the City of Portola (City).

I understand from the above referenced letter that Department of Water Resources (DWR) requires written statement from Portola, draft copy attached, indicating its desire to accept operation and maintenance responsibilities and written acknowledgement from PCFCWCD of its continued Water Supply Contract obligation to pay for all Water Supply Contract costs associated with the GVP.

PCFCWCD acknowledges its continued Water Supply Contract per agreement with DWR dated December 26, 1963. Any cost associated with the Grizzly Valley Pipeline O&M would be the responsibility of the City of Portola.

Operation and Maintenance of the Grizzly Valley Pipeline in the agreement between DWR and the District dated June 10, 1970, would be transferred to the City of Portola.

Very truly yours,

Dear Mr. Perreault:

This is in response to your June 23, 2014, letter to Ms. Nancy Quan of my staff regarding a request to transfer local maintenance responsibilities of the Grizzly Valley Pipeline (GVP) from Plumas County Flood Control & Water Conservation District (PCFCWCD), pursuant to the attached June 10, 1970 Agreement between the Department of Water Resources (DWR) and PCFCWCD, to the City of Portola (Portola). My staff later confirmed with you that the intent is for PCFCWCD to transfer both the operation and maintenance (O&M) responsibilities of the GVP to Portola.

On September 26, 2017, DWR staff met with PCFCWCD and Portola staff at the Lake Davis Water Treatment Plant for the purpose of discussing the potential transfer of O&M responsibilities of the GVP from PCFCWCD to Portola. If O&M responsibilities are transferred to Portola, please note that PCFCWCD will remain responsible for all costs associated with the GVP. In order to proceed with this transfer, DWR must receive a written request from Portola indicating its desire to accept these O&M responsibilities and a written acknowledgment from PCFCWCD of its continued Water Supply Contract obligation to pay for all costs associated with the GVP. In addition, the current Grizzly Valley Dam and Lake Davis O&M Manual, dated June 1992, will need updating as a result of this transfer.

If you have any questions or need additional information, please contact Dietlind Wiesner at (916) 653-8127 or Lincoln King of my staff at (916) 653-4389.

DESCRIPTION & CHARACTERISTICS OF COUNTY

Plumas County is a rural county that lies in the far northern end of the Sierra Nevada range. The region's rugged terrain marks the transition point between the northern Sierra Nevada Mountains and the southern end of the Cascade Range. More than 75% of the county's 2,553 square miles is National Forest. The Feather River, with its several forks, flows through the county. Quincy, the unincorporated county seat, is about 80 miles northeast from Oroville, California, and about 85 miles from Lake Tahoe and Reno, Nevada. State highways 70 and 89 traverse the county. The county's communities are nestled in different geographic areas, such as Chester in the Almanor basin, the communities of Greenville and Taylorsville in Indian Valley, the town of Quincy in American Valley, Blairsden, Graeagle, and Clio in Mohawk Valley, and the town of Portola, which lies west of Sierra Valley on Highway 70.

Population Estimates

The county's population is approximately 18,834 *(US Census 2024 Population Estimates Program) which is a reduction of 609 people, or 3% of the total population from 2022 US Census*. Plumas County's largest town is the incorporated city of Portola, home to approximately 2,100 residents *(US Census 2020 Population Estimates Program)*. The town of Quincy, the county seat, has an estimated population of 1630, and East Quincy a population of 2376, with the greater Quincy area's (American Valley and surroundings) population at approximately 7,000. The County's population is comprised of 90.4% Caucasian or White, approximately 10.6% identify as Hispanic or Latino, those who identify as two or more races is 4.2%, 3.1% are Native American or Alaska Native, and the balance consists of individuals from other race/ethnicity groups.

There are over 1,700 veterans who are residents, which represents up to 9.4% of the County population. Approximately 17% of the population is under 18 years of age with 4% of that being children under the age of 5 (US Census 2024); 46% are ages 18-65, with over 65 years at 33%. The US Census shows that 49.9% of the total population is female.

The US Census estimates that 5.5% of the population of Plumas County speaks a language other than English at home, with the predominate language being Spanish. However, Plumas County has no threshold language, per the Department of Health Care Services (DHCS) formula, but Plumas County Behavioral Health strives to offer services and materials in Spanish and any primary language of the individual client.

Social Determinants of Health

Plumas County's unique topography and geography (multiple and diverse, isolated communities separated into high valleys by overlapping mountain ranges) directly affect each communities' social determinants of health. Generational poverty and the ongoing decrease of once prosperous natural resource industries have made long-term deleterious economic impacts on rural communities in Northern California, as well as cutting financial reimbursement levels to local infrastructure (reducing Secure Rural Schools Act funding and declining timber receipts), lack of affordable housing and healthcare options, chronic under- and unemployment, few adult vocational/tech educational opportunities due to many years of funding cuts and underfunding local vocational programs, and the lack of innovation and shoring up of economic development programs, have contributed to long-term health disparities in this rural county.

- In 2022, 13.3% of Plumas County Residents identified as food insecure which has decreased from the 22% - 31% rate in 2020. Higher food prices in 2024 will likely spike this percentage again.
- Median household income in Plumas County has decreased slightly and remains below state and national levels, $64,946 compared to California's of $95,521 (*US Census Bureau 2024).*
- 12.7% of county households live below the Federal Poverty level.
- Plumas County ranks 54th of 58 counties for overall health outcomes (2022).
- Demand for and low inventory of affordable housing impacts families' overall income spent on renting, thus impacting financial health – greater competition for affordable rentals. Families who may otherwise stay in county must move away to find affordable housing.
- Plumas County lacks inventory to meet the permanent affordable housing needs of local individuals and families (affordability of homes to purchase).
- Increasingly higher estimates of overall depression-related feelings in 7th, 9th, and 11th graders in study years 2020/21 at the height of the pandemic.

Homelessness and the Plumas County 2023 Point In Time (PIT) Count

Plumas County Behavioral Health MHSA program has been providing direct homeless services for a number of years to new and ongoing clients, as well as referrals for homeless services and other emergency supports to the lead agency, Plumas Crisis Intervention and Resource Center, for residents who don't meet eligibility for mental health services at PCBH. As part of the department's commitment to meet community needs for homeless services, PCBH partners with multiple agencies, such as Plumas Rural Services, Environmental Alternatives, and PCIRC.

The 2023 Point-in-Time Survey collected data on a total of 134 individuals experiencing homelessness in Plumas County. Of these individuals:

- 58 were sheltered, 76 unsheltered.
- 76 were male, 49 were female.

- Most individuals were ages 25-34 (18%), or ages 55-64 (28%)
- There were 18 children under the age of 18.
- 40% reported they have lived in the county all or the majority of their lives.
- 27% of individuals have only been in the county 1-5 years.
- 3 unsheltered individuals were veterans.
- Less than 7% of reported mental health being a reason for being homeless.
- Nearly 22% reported that they were impacted by the Fire.

The 2024 Point-in-Time Survey was a "Sheltered" count and data was collected on 9 individuals. The next full PIT count will be conducted in 2025 and will be reported in the new 3 year plan.

Plumas County agencies and the local Housing Continuum of Care (CoC) Advisory Board continue to work towards expanding the continuum of housing services for homeless individuals and families, including increasing the affordable housing inventory for both rentals and homebuying and housing for special populations, such as initiatives funded through the CA Department of Housing and Community Development (HCD)

Access to affordable permanent housing with supportive services is a significant barrier that prolongs suffering for individuals and their families. The table below gives an overview of the PIT count demographics.

Plumas County is a frontier county with limited resources in comparison to the rest of California. After Covid 19 and the Dixie fire, Plumas County experienced a large decrease in staffing, especially among the licensed clinicians and continues to struggle will low staffing. Plumas County has had multiple open positions for clinicians for the past 4 years with no applicants. PCBH is currently down 50% of its clinical staff.
Plumas County is still recovering from the Dixie Fire in 2021. The residents of the county continue to experience trauma from this event which creates a greater need to address the trauma among our entire community.
Mental Health has also become a greater focus after Covid-19 and we are finding that multiple agencies are looking to hire their own clinicians and they are able to offer higher wages and better benefits and hours than the county. Over the past 2 years we have lost multiple clinical staff members to other local agencies due to the perks that these agencies can offer.
The needs of the unserved and underserved populations are difficult to address due to a combination of meeting medical necessity for severely mentally ill, alternate insurance carriers and a lack of staffing to provide the services. Plumas County has limited resources and a lack of non-profit agencies to contract with for services. Plumas County also struggles with a lack of managed care options.
Veterans, Senior Citizens, and those with private insurance are referred to managed care providers which is very difficult to find in Plumas County. This leaves these individuals having to travel to Reno or Chico to get mental health services, both of which are anywhere from 1-2 hours away from any given Plumas County community.
Plumas County youth are another underserved population. PCBH has partnered with the local school district to help narrow this gap, but it continues to be a struggle for youth who do not have Medi-Cal insurance. PCBH obtained the MHSSA grant in partnership with Plumas Unified School District in 2021 to help provide free mental health services for all students. This service is called “E-Therapy” and is a telehealth service offered at each school site in the county. During the 24/25 school year E-Therapy provided 147 unduplicated students with services before May 1, 2025 and a total of 1,798 total therapy sessions. In other words, an extra 147 students were able to receive mental health services this year that otherwise wouldn’t have been able to receive services due to their insurance or difficulties with travel to see a provider.
The fully served clients would include our FSP clients who are eligible for ancillary services that could include, but are not limited to, assistance with utilities, clothing, food, rental assistance, housing, gas or bus passes to get to appointments or a job etc. FSP is a whatever it takes model to help a client stabilize. Non-FSP clients are eligible for up to $300 a year in ancillary assistance.

The main barrier that Plumas County faces for being able to implement programs is the lack of staffing and the lack of resources available in a frontier county. It is difficult to run a program when you don't have people to staff it or community agencies to contract with to provide the services. Plumas County is severely limited on agencies that have the staffing or capacity to run programs as well.

MHSA Community Program Planning and Local Review Process

County: PLUMAS **30-day Public Comment period:**

Date of Public Hearing:

The Plumas County Behavioral Health (PCBH) MHSA Community Program Planning Process for the 24/25 Annual Update and Expenditure Plan, builds upon the continuous planning process that started several years ago and operates under the MHSA 2023-2026 Three Year Plan. Over the past several years, this planning process has developed into obtaining input from diverse stakeholders through focus groups, stakeholder meetings, and survey results.

Components addressed by the planning process included Community Services and Supports (CSS); Prevention and Early Intervention (PEI); Innovation; Workforce Education and Training (WET); Capital Facilities/Technological Needs (CFTN); and Housing. In addition, PCBH provides basic education regarding mental health policy; program planning and implementation; monitoring and quality improvement; evaluation; and fiscal and budget components.

In addition to reviewing stakeholder input, we analyzed data on our client service utilization to determine if clients are successfully achieving positive outcomes. Outcome and service utilization data is regularly analyzed and reviewed by management to monitor clients' progress over time. This data has helped us to understand service utilization and evaluate client access and has been instrumental in our planning process to continually improve mental health services.

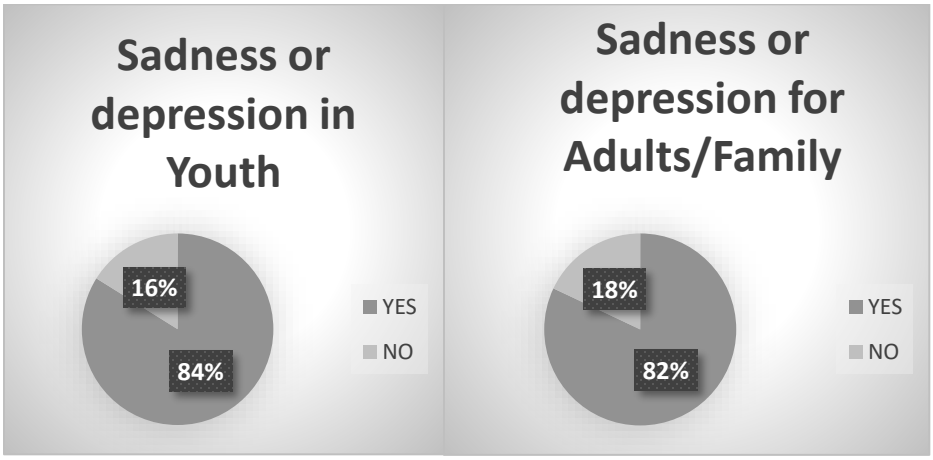
A primary goal of this Annual Update includes a focus on funding for continuing programming that offers expanded services to underserved and unserved populations, with program changes to address stakeholder feedback obtained in the 2023, 2024 and 2025 stakeholder meetings and the development of the 2023-2026 Three Year Plan.

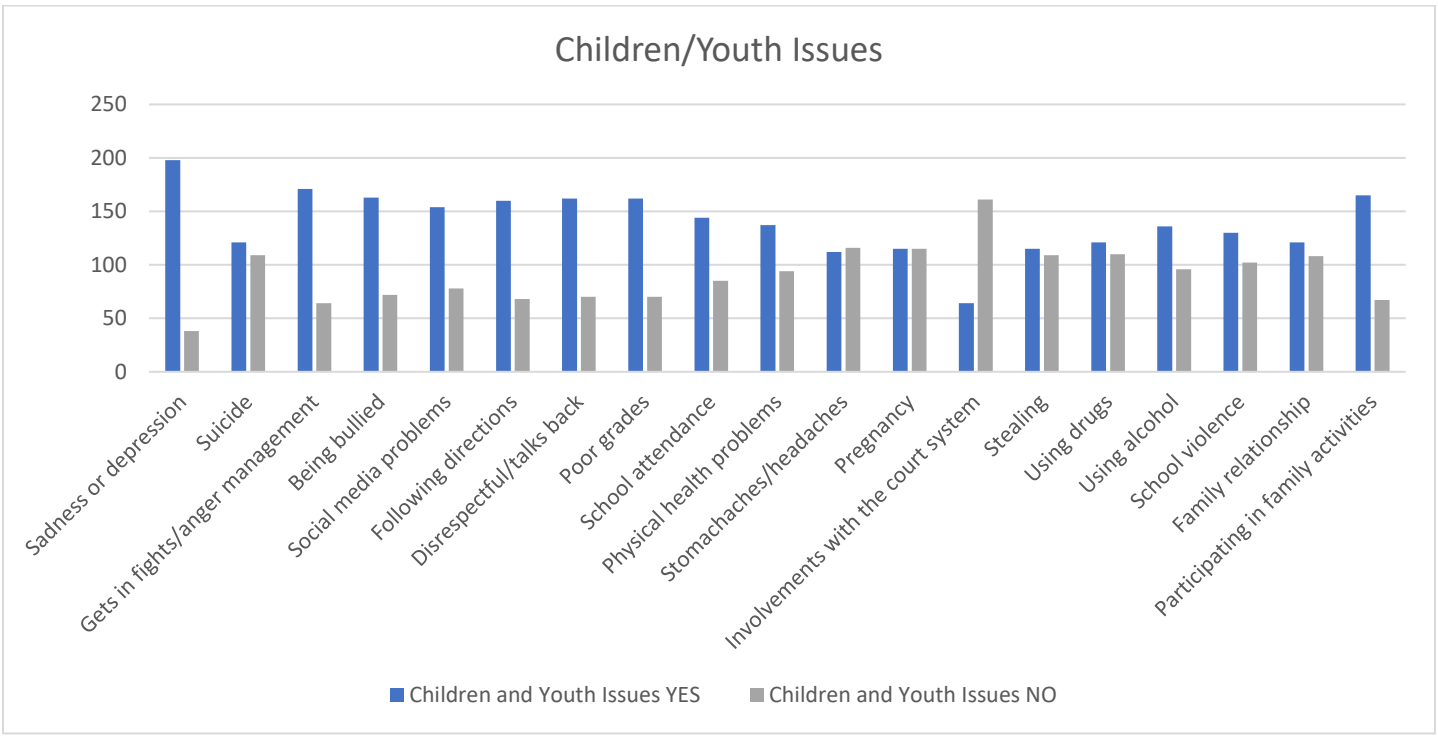
MHSA Program staff disseminated over 300 surveys and collected 281 Community Mental Health Priority surveys in February 2023. MHSA program staff obtained input from 32 youth, 9 Law Enforcement, 14 senior citizens, 9 Veterans, 76 school staff, 82 clients and 59 community members.

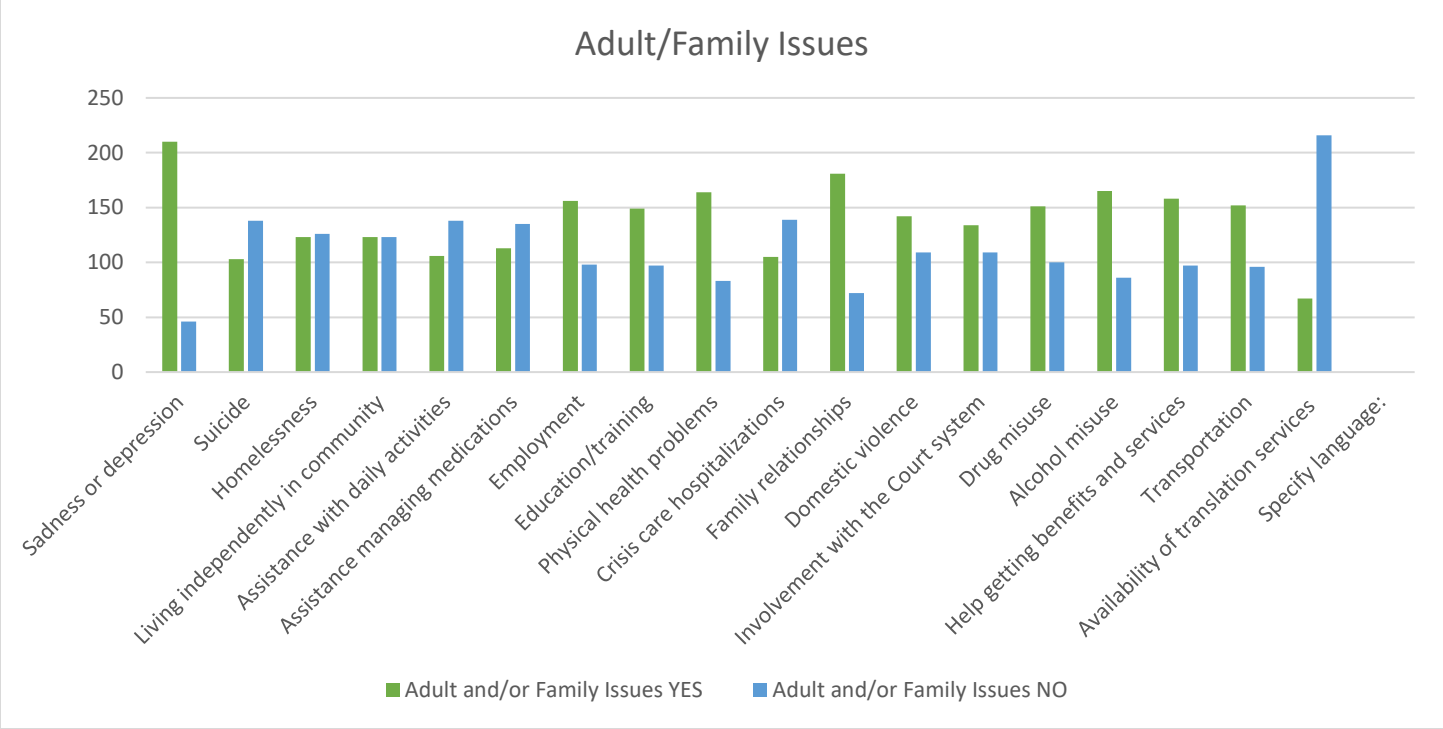
The top areas of concern to stakeholders are:

1. Sadness and Depression among youth and adults
2. Improving access to services for children and their families
3. Family Relationships
4. Anger Management
5. Alcohol Misuse
6. Physical health problems
7. Help getting benefits and services
8. Employment

9. Bullying, poor grades and disrespectful youth
10. Domestic Violence
11. Involvement with the court system
12. Homelessness







Plumas County MHSA Program staff scheduled 2 Community Program Planning meetings for all stakeholders and community members. The meeting held on March 11, 2025 was in person at the Quincy Wellness Center at 1:00pm and had 8 participants. The stakeholder meeting held on March 12, 2025 at 10:00am was held online and had 3 participants. MHSA staff engaged the stakeholders in open conversations about the current needs and gaps of Plumas County and how the remainder of the 2023-2026 Three Year Plan will operate given the changes that Proposition 1 will bring in 2026 and the time it will take to adjust to these changes so Plumas County can be ready to implement the new guidelines on time. Most stakeholders showed more interest in the BHSA and how it will change programming in Plumas County. There was less interest during these stakeholder meetings on the annual update and the final year of MHSA.

The MHSA Coordinator conducted the stakeholder surveys in 2023 where most of the stakeholder input was collected. The community meetings for this annual update were held in early 2025 but due to the changes that BHSA will bring, most stakeholders were interested in the BHSA.
See Appendix A. for supporting documents.

Plumas County Behavioral Health staff created an MHSA 101 slideshow that covers the basic components, funding categories and the purpose and requirement of each category. However, the slideshow was not shown during the 2024 and 2025 stakeholder meetings because Proposition 1 will change these guidelines under the new 3 year plan. A hard copy of this slideshow can be found in appendix A. A new slideshow will be developed to cover the guidelines under BHSA that will begin in July 2026 but will need to be available for the community and stakeholders in late 2025 for planning purposes.

Plumas County makes every attempt and effort to gain stakeholder involvement and feedback in the MHSA. The MHSA coordinator holds a quarterly MHSA meeting, a quarterly Cultural Competency meeting, attends and reports at the monthly Behavioral Health Commission Meetings. The MHSA Coordinator has also gone out into the community to meet with other agencies, schools, other therapy providers in the community and MHSA contract partners to invite them to any of the meetings and to answer any questions about the MHSA.

The Behavioral Health Commission is updated monthly on the MHSA and is made up of consumers or family members, community members, youth, and a Board of Supervisors attendee. In recent months we have been able to get other community agencies to regularly attend the Commission meetings such as a representative from Veterans Services and Plumas Charter School. The Commission reviews all the MHSA plans and updates before they are posted for the 30-day public comment or sent to the Board of Supervisors for final approval.

Stakeholder meetings were scheduled online and accessible for everyone in each of the 4 communities. Over 300 surveys were handed out throughout the community in 2023 and a total of 281 were returned with stakeholder feedback about problem areas and needed services in this county.

Stakeholder Comments and Feedback from the 2023 Stakeholder Survey:

- The Work Crew Reinstated
- Bring back Mountain Visions & Work Crew
- Services are very limited in our county
- More IEP
- A big area of concern in the lack of Mental Health therapist as well as a community care facility for those suffering from mental health issues
- I am answering the questions for people I have seen that need help. So many kids need help
- Suicide for kids as young as 6 yrs old (services needed)
- Help with major PTSD and major anxiety disorder
- We all need to be important mentally, physically, emotionally, spiritually. I am tired of being the mental patient
- Support our library, children and youth activities
- Services county wide for cultural indigenous people of this land

- A close relative uses your services. Dr. B is amazing while I find your therapy/counseling lacking. Doesn't spend more than 10 minutes w/ client and no goals provided. Its like they are filling a quota to get funded.
- I do suffer from mental health issues and heart artery issues. Over past few years I am extremely grateful finding resources to help me
- I believe that many of these services are required. The stories I hear about bullying issues within the school district, youth taking their lives or attempting too. My family member went to PCBH, doctor told him he didn't need meds. He's been manic for 2 months at least, was 5150 but released 2 weeks later and is full on manic again.
- (clients name) has trouble focusing on school work in class. He gets distracted easily. Hard time following directions. He has had been sent to the office many times. He can't ride the bus because of behavior problems. He was suspended from school for fighting.
- Trauma counseling
- Services for children are needed
- Services for children are needed
- Services for children are needed
- Anger management for teens is needed
- Help for teens, NOT severe mental illness, support
- Children: Afraid of shooting
- Fire survivor family therapy is needed
- Family Groups
- Family Groups
- Family group counseling for family unit together (not just individually) more in person in Quincy vs Telehealth
- I just need a different provider my current one isn't helping anymore or available enough. I need case management as well since my previous one quit.
- Children/youth sexual assault is a problem
- People who have Agoraphobia had more access to class/support over the phone.
- Closer facilities for 5150 hospitalizations
- What can I do to help
- Vocational plumbing and heating school
- Some counselors don't' call patients back at all
- More help for the parents dealing with unruly kids
- Plumas County needs a Rec center in Portola
- The doctors in the area are not listening to patients. I've had friends sent home only to have to be sent to Reno for proper care. Friend who's 14 year old sent home with "stomach bug" that died in Reno from juvenile diabetes because they wouldn't do the tests the mother asked for. I know multiple cancer patients who were told they didn't have anything wrong. They all got diagnosed in Reno of Chico. We need better doctors.
- I am age 75 (since age 28, have had sensations) I live alone. I am enrolled in one class at FRC British Literature 1785 to present. I walk to -from school. I am in stress reduction group workshop. One day a month I work, recording secretary.
- Education in nutrition, life skills, managing finances, health exercise.
- Our SSC has made a huge difference and is really needed
- I think there is difficulty for people in our community who are just out of high school to access resources while still dependents of family when what they need is to gain independence but can't if parents won't waive them. Its difficult for some populations to find a safe place to be.
- Counseling services in Spanish
- I think many people are not aware of which services are available

- There is so much need for mental health services for youth, family and parents. Housing is also an increasing need for many families
- Parenting classes and support groups
- Need for housing and job employment opportunities. Provide trade education to enhance our community as well as give others more job opportunities.
- Feeling included with peers/relationships is a problem.
- More counselors available across all fields
- More counselors available
- Housing not available
- Sexual abuse
- Homelessness
- Healthy recreational programs and activities
- Open safe place for LBGTQ
- Trauma counseling
- What happened to the counseling for fire victims?
- Low self esteem
- I am NOT aware of M.H. services for non-medi-cal
- Services needed for all, no matter what Insurance!!!!
- Cutting
- Vaping
- Vaping
- Services specifically for younger children counseling
- Unhealthy relationship dynamics – youth
- We don't have enough therapists locally
- Bring back Wilderness therapy, TAY and work programs
- These services might be available but people without medi-cal have a hard time accessing them.
- Sexual harassment
- Parenting skills, motivation, emotional support
- Parenting skills
- Its difficult to quantify how many families have difficulty with parent/family issues. Its not all of these issues all of the time. These items apply to a family for a time/place maybe temporarily. These issues seem to come and go in waves.
- Need someone to help with truancy
- Our SSC and full time counselors are invaluable. I think that readily available and easily accessible MH services are critical too. Especially on weekends, holidays and after school hours.
- Hard to convey understanding of parental situations as I do not have access to them as easily as with students. I do suspect possible domestic unrest in families, but no real direct evidence. I talk with (school staff member) about starting up a parental support group through the school and mental health outlets in the future. Community providers can come in once a month to give parents educational tools. Reading support, parent to parent support, educational work, tracking system, mental health coping skills, financial planning. A link between behavioral health, PRS, PCS, Rethink Industries.
- Addiction to phones, devices, social media
- I had a very interesting conversation with a group of 5th graders that expressed their personal issues with being LBGTQ. Many feel as though they can't tell parents and some have not told teachers either. This was very informative conversation to me, learning how some students prefer to be addressed (pronouns) and each sharing issues they have had at home or at school regarding being LBGTQ. I believe they need a place to come together outside their regular friend groups and have these tough conversations.

- My experience is most of the veterans here at EPHC feel they have utilized the services they have needed and want. The younger generation to get what they have coming. Hats, t-shirts, pens, pizza is what these guys want.
- We need more mental health providers and services for the area
- Transportation to outside services in Reno or Chico
- IHSS access not good
- Pro-active Chaplin, availability offered possibly local ministers on a rotation (weekly)
- Divorce: this needs to be its own subject. Have seen this hit our kids/parents hard in the community

The draft 3 year plan will be posted to the county website and announced at the Behavioral Health Commission Meeting and the Board of Supervisors meeting. Hard copies will be printed out and posted at all of the Wellness Centers throughout the county. A hard copy will also be delivered to the following agencies: Plumas Rural Services, Environmental Alternatives, Sheriffs substations, CHP office, Chester Elementary School, Chester High School, Greenville Elementary School, Greenville High School, Quincy Elementary School Pioneer Campus, Quincy Elementary School Alder Campus, Quincy High School, Plumas Charter School, Portola High School, C. Please see Appendix B for supporting documentation.

In the Appendices, the following documents may be included: newspaper articles, radio ads, flyers, billboards, website postings, email blasts, website screenshots, flyers, notices in social and print media, etc. are examples of methods that were used as described above.

MHSA Community Services and Supports (CSS)

The PCBH MHSA Community Supports and Services (CSS) program will continue to provide ongoing services to all ages [children (ages 0-15); transition age youth (TAY, ages 16-25); adults (ages 18-59); older adults (ages 60+)]; all genders; and all races/ethnicities.

The CSS Program includes *Full-Service Partnerships*, which embrace a "whatever it takes" service approach in helping individuals achieve their goals. Services for all populations help reduce ethnic disparities, offer peer support, and promote value-driven, evidence-based practices to address the individual's mental health needs. These services emphasize wellness, recovery, and resiliency and offer integrated services for clients of all ages and their families. Services are delivered in a timely manner and are sensitive to the cultural needs of the individual.

Outreach and Engagement activities address hard-to-reach populations, such as seniors, individuals who abuse substances, and those released from incarceration. Outreach activities that focus on Native American and veteran populations improve access to needed mental health services and improve overall community wellness.

Additionally, clinical and case management services will continue to be available in each of the four communities, at the schools, and at Wellness Centers. There will be a new focus on integrating mental health service with health care services to promote health and wellness for all clients.

Service Utilization

The CSS Program includes comprehensive assessment services; wellness and recovery action planning; case management services; individual and group mental health services; same-day and after-hours crisis services; medication vouchers; education and employment support; training and anti-stigma events; linkages to needed services; and emergency lodging and transitional housing support for Full-Service Partnership and outreach & engagement clients.

To understand service utilization for our existing behavioral health services, data was analyzed to show the number of CSS clients served in Calendar Years 2022 and 2023 by age and race/ethnicity.

The Plumas County MHSA Three-Year Plan, 2023-26, continues to serve Plumas County consumers and their families in each community through a comprehensive plan of improving Systems of Care behavioral health access in all communities. It continues to improve access to services and to provide high-quality and expanded services in the schools through school-based services and in the communities at PCBH Wellness Centers. The plan continues the Department’s goals of client and family driven services with opportunities for Full-Service Partners to improve their outcomes through meaningful employment and education.

Improvements in expansion of service deliveries by PCBH include increased behavioral health services in the County jail, a completely revised system to meet DHCS’s standards for network adequacy, ensuring new client contact and the intake/assessment appointment occur within the10-day window, an improved access through the Department’s open access model at all 3 clinic locations with plans to return to the Greenville after the wellness center there was lost in the Dixie Fire. PCBH has expanded telehealth days of operation with 2 new contracted telehealth providers. PCBH was able to rent office space in the community of Greenville 2 days a week to provide telehealth and telemed services in this community. PCBH has been unable to locate an appropriate option to re-open a Wellness Center in Greenville.

In early 2025, PCBH discussed closing the Quincy Wellness Center for a variety of reasons. Initially the Quincy Wellness Center was meant to replace the Drop-In Center which was located outside of town. The property where the Drop-In Center was located was put up for sale and so the Drop-In Center was moved to downtown Quincy and was renamed the Quincy Wellness Center. The intent was for this location to be more accessible to all clients, especially those without transportation. Unfortunately, this Center has never been utilized like the Drop-In Center was. When the Quincy Wellness Center opened, it was fully staffed with front desk staff, therapists, case managers and a

nurse. Since then, the Wellness Center has lost both therapists, both case managers and the nurse that was working at this center. PCBH has not been able to replace these positions and therefore, the services that were being offered at the Quincy Wellness Center have greatly reduced. The center is currently being staffed by a part-time extra help peer, and the Site Coordinator Supervisor. Services in the center have gone from a couple of hundred people a month down to an average of 30 people a month or 1-2 interactions per 8 hour work day. In looking at these numbers, it is not fiscally appropriate to keep this center open. In March of 2025, this information was presented to the Behavioral Health Commission and they approved shutting the center down. PCBH is currently in the process of notifying the Board of Supervisors of this change and working with the lease holder to fully close the center in 2025.

The closure of the Quincy Wellness Center will not affect the available services in the Community of Quincy because the main Mental Health office is located there. The community of Quincy is still able to provide more resources than the outlying communities and therefore the Wellness centers in Portola and Chester are a priority for PCBH to keep open.

A. Full-Service Partnerships

Plumas County's current Full-Service Partnership program enrolls from fifteen (15) to thirty (30) clients at any given time (FSP census in 2022/2023 for the entire year was 25), who demonstrate the highest need for supports and services, based on criteria including a diagnosis of severe mental illness, or severe emotional disturbance in a minor, and other risk factors, including but not limited to being homeless or at risk for homelessness, hospitalization, or incarceration. PCBH continues to make progress in developments and supports for the FSP program. Since 2020 a formalized procedure has been used to review each client for enrollment as full-service partners through the Department's Utilization Management (UM) review process, with quarterly re-assessment and status updates.

In any given program year through June 30, 2026, MHSA Plan Year, PCBH is projecting it will provide Full-Service Partnership services and supports to the following number of clients by MHSA age category:

Projected FSP Enrollment by Age:

0 - 15 years	6	15%
16 - 25 years	10	25%
26 - 59 years	14	35%
60+ years	8	20%
Total	**40**	**100%**

In Fiscal year 24/25 the FSP Enrollment had a large decrease, only serving 16 individuals as FSP. 8 of these individuals were housed, 3 provided emergency lodging, and 11 were provided non-housing related ancillary services. The projected FSP numbers have gradually decreased each year and will be re-evaluated for the new BHSA three-year plan.

For the past 9 years, PCBH has been contracting with Environmental Alternative, Inc. (EA) to assist with the identified need for greater oversight, intensive case management and housing stability for the Department's Full-Service Partner clients. The program has shown success in helping FSP clients to stabilize, remain housed, engaged in therapy, and working with their case managers in decreasing functional impairments and homelessness, prolonged suffering, and unemployment. There has been a decrease in negative outcomes associated with a serious mental illness for full-service partners, specifically hospitalization, incarceration, and homelessness.

EA's program has become more comprehensive by adding therapeutic services to those already in place and an on-site 24/7 peer staff. Participants will be identified and referred by PCBH Utilization Management process, and a service plan will be created by PCBH clinical staff and EA to best meet the participant's needs and treatment goals, while the partner lives in a safe, stable environment and receives a scaffolded "whatever it takes" system of support and resources.

At the beginning of the 3- year plan, EA and PCBH partnered for EA to add a work crew to their service delivery which will further help clients to gain daily living skills such as budgeting, banking, establishing a consistent schedule, learning skills appropriate for the work force, communication and a safe environment for clients to learn skills for managing their symptoms. Unfortunately, due

to staffing shortages, EA was unable to get its work crew up and running during the 23/24 or 24/25 fiscal years.

a. Outreach and Engagement

Plumas County Behavioral Health provides outreach and engagement services to individuals who participate in the PCBH intake and assessment process, participate in Wellness Center activities, and to those who are discharged from hospital or jail. The purpose of outreach and engagement is to assist unserved and underserved individuals in accessing services and supports that will ensure completion of the initial intake, from assessment through criteria and diagnosis, to approval for services; the period of outreach and engagement is typically characterized as the first 30 days of assessment, diagnosis, utilization review, and assignment of a therapist, and in some cases a case manager. This period varies dependent on the client's ability to engage with PCBH staff, and in many cases, to obtain lodging, food assistance, and other supports which are needed to become stable and engage in services.

Outreach and engagement may be offered to previous clients who are re-engaging in services after an absence; these supportive services may help the individual to stabilize and may include emergency lodging, emergency food or utility assistance, and often transportation assistance in the form of a bus pass, or, depending on need, transportation support. MHSA CSS funds are the primary source used for outreach and engagement expenditures.

When an individual meets diagnosis criteria of a serious mental illness or co-occurring diagnosis of serious mental illness and substance use disorder, or functional impairments that may be associated with an undiagnosed mental illness, the process may culminate in the therapist and client working to develop a problem list for ongoing therapeutic services.

In Fiscal Year 2023-24, PCBH provided outreach and engagement and client support services to more than 36 new and re-engaging clients. PCBH provided direct support for clients, such as clothing vouchers, one-time supports, emergency food assistance, bus passes, etc. Emergency lodging through outreach and engagement services and emergency lodging through client support services were also achieved.

Some of these clients were later enrolled in Full-Service Partnership housing programs with local contracted service provider – Environmental Alternatives for intensive case management, therapeutic services, transitional housing, basic needs support, employment and education support, and transportation and peer services.

b. Full-Service Partnership (FSP) Programs

Full-Service Partners receive both mental health and non-mental health services as allowed expenditures, per the California Code of Regulations (CCR), Title 9 Chapter 3620. Mental health services include, but are not limited to, alternative and culturally specific treatments, peer support, wellness centers, supportive services to assist the client and, when appropriate, the client's family in obtaining and maintaining employment, housing, and/or education. Non-mental health care includes but is not limited to food, clothing, rent subsidies, housing vouchers, house payments, residence in a drug/alcohol rehabilitation program, transitional and temporary housing, cost of health care treatment, cost of treatment of co-occurring conditions, and respite care.

Program Deliverables

Environmental Alternatives is a non-profit organization with the knowledge and ability to fulfill the mission of providing comprehensive services to homeless PCBH FSP clients and offers a program tailored to meet their identified needs. EA took on our 3 transitional housing units as of July 1, 2023. These 4 units are for a lower level of care and do not require 24/7/365 overview. These units are designed to house a client for up to 3 months in preparation for obtaining their own housing.

Goal

The goal of this program is to provide up to ten (10) qualified individuals (longer term housing) and four (3) individuals (transition housing) who meet eligibility for *MHSA Full-Service Partnership* through Plumas County Behavioral Health's Utilization Management (UM) review process with:

- a single-occupancy residence,10% of the units (at least 1 unit) will be designated as Transitional Sober Living Environment (TSLE) housing for co-occurring individuals, and a broad array of services and supports to promote:
- a stable and secure living arrangement
- progressively increased normalcy and integration in accord with participant capacities
- sustained periods of non-incarceration and non-hospitalization with decreases in overall incarcerations and hospitalizations
- optimal use of existing community resources
- accommodations for mental and physical disabilities
- improved health outcomes and quality of life
- harm reduction interventions to support sober living
- individualized goals and outcomes to improve independent living skills
- individualized permanent housing planning to optimize community integration upon program exit
- individualized vocational/educational planning and support

Program Philosophy

The qualifying population has been identified as needing targeted help and services because of higher-than-average risk factors for homelessness, incarceration, hospitalization and/or failure to respond favorably to normal intervention efforts. It is therefore important for this program to maintain a tolerance for and understanding of participant setbacks. For example, participants who have been previously discharged from the program should not be automatically rejected for future services. Rather, it challenges the program to develop alternative strategies and practices for handling especially difficult cases. Flexibility and consistency are hallmarks of the program's orientation.

Success for the targeted population is best measured by identifying small gains and evolving stability, as viewed against a background of less desirable outcomes for these individuals. Program tolerance for non-conformity and abnormality is the norm, while implementing program and community standards for greater participant acceptance.

It is the program's belief that participants will respond favorably to enduring relationships emphasizing understanding, non-judgmental acceptance, and security. Therefore, all participants are assigned a

staff mentor whose major responsibility is to develop a trusting and comforting relationship. Employees assigned that task assume the complex role of an advocate, facilitator, coordinator and guide to participants. Thus, this program intends to blend the role of a standard case manager with characteristics of an emotionally invested mentor. The interpersonal bond becomes a foundational resource in assisting participants to sustain progress and stability.

I. TARGET POPULATION:

County-referred MHSA FSP clients who are Plumas County Medi-Cal beneficiaries:

Wellness Centers in Plumas County have played a crucial role in the expansion of mental health and substance disorders services across the county. These centers are an essential location for outreach to community members and engagement of clients in the breadth of services offered at PCBH.

In the Fall of 2021, the Greenville Wellness Center was lost in the Dixie Fire. PCBH has worked with the Greenville Long Term Recovery team to develop a plan for getting a wellness center back in Greenville. There are currently no options for a Wellness Center in Greenville due to the complete destruction of the town and there being no buildings to rent. Land and property owners are tied up in litigation with PG&E which prevents them from doing anything with their land until the lawsuits are completed. PCBH cannot own or build anything and are at the mercy of finding a building to rent once rebuilding starts. PCBH was able to locate office space with the Plumas District Hospital Clinic in

Greenville to allow for 1-2 days a week of therapy and tele-med services only until we can get a full Wellness Center back in the community.

In early 2021, Plumas County Behavioral Health began renovation plans for the Quincy wellness Center. The Drop-in Center in Quincy was located outside of town and was difficult for some clients to access. The Drop in Center was County owned property and the County made the decision to sell the property which required plans for relocating the Drop In Center which is now called the Quincy Wellness Center. The process was completed, and we moved into the new center in June of 2022. The Quincy Wellness Center as well as the Portola and Chester Wellness Centers are staffed by one site supervisor (located at the QWC) and three site coordinators, 1 located at each of the 3 centers.

In early 2025, PCBH discussed closing the Quincy Wellness Center for a variety of reasons. Initially the Quincy Wellness Center was meant to replace the Drop-In Center which was located outside of town. The property where the Drop-In Center was located was put up for sale and so the Drop-In Center was moved to downtown Quincy and was renamed the Quincy Wellness Center. The intent was for this location to be more accessible to all clients, especially those without transportation. Unfortunately, this Center has never been utilized like the Drop-In Center was. When the Quincy Wellness Center opened, it was fully staffed with front desk staff, therapists, case managers and a nurse. Since then, the Wellness Center has lost both therapists, both case managers and the nurse that was working at this center. PCBH has not been able to replace these positions and therefore, the services that were being offered at the Quincy Wellness Center have greatly reduced. The center is currently being staffed by a part-time extra help peer, and the Site Coordinator Supervisor. Services in the center have gone from a couple of hundred people a month down to an average of 30 people a month or 1-2 interactions per 8 hour work day. In looking at these numbers, it is not fiscally appropriate to keep this center open. In March of 2025, this information was presented to the Behavioral Health Commission and they approved shutting the center down. PCBH is currently in the process of notifying the Board of Supervisors of this change and working with the lease holder to fully close the center in 2025.

The closure of the Quincy Wellness Center will not affect the available services in the Community of Quincy because the main Mental Health office is located there. The community of Quincy is still able to provide more resources than the outlying communities and therefore the Wellness centers in Portola and Chester are a priority for PCBH to keep open.

Wellness Centers play an integral part of the community-based service delivery model that Plumas County Behavioral Health has been developing since 2014. Direct individual and group services are provided within the Wellness Centers and incorporate appropriate and existing SMI/SED therapeutic services, including comprehensive assessment services, wellness and recovery action planning (WRAP), case management services and crisis services; education and employment support, mental health training and anti-stigma events, linkages to needed services, housing support, as well as transportation, and peer to peer advocacy and peer group facilitation. Over the past 9 years, the Wellness Centers have proven to be an integral part of each community and has greatly decreased the challenges for individuals to access services.

PCBH Wellness Centers reflect characteristics and needs of their respective communities. General features of all Wellness Centers, as well as some community-specific information are summarized below:

- Facility locations that are easy-to-access, *consumer-friendly*, and provide a *community-based alternative* to a traditional clinic atmosphere.
- Full-time supervising site coordinator supervises three site coordinators, one in each of the wellness centers in Portola, Quincy and Chester (all PCBH employees)
- Office space made available to other county agencies and non-profit direct service providers, including but not limited to, Public Health Agency, Veterans Services, Social Services, Probation, and community-based organizations who provide direct services
- Telepsychiatry and telemedicine services
- Training and professional development as well as clinical supervision to support peer advocacy staff who work with clinical and wellness center staff
- Space for PCBH licensed clinicians and client support specialist (case managers) staff to provide clinical services
- Localized outreach and engagement efforts to underserved populations
- Resource referrals to PCIRC and other service-based agencies; ongoing food/clothing distributions
- Space and funding for community-based wellness activities, such as yoga, tai chi, art, children's afterschool and holiday programs (outreach to families), smoking cessation, etc.

PCBH Wellness staff began collecting and reporting center utilization data in 2017-18 using an electronic collecting tool on a tablet at each center. Data was collected beginning in January 2018. Visitors voluntarily sign in and self-report their reason for the visit. They may indicate multiple reasons during the same date, so this data represents some duplicated clients and visitors. Data collected include individual and group activities, other agency services and classes, such as Probation check in, Plumas Rural Services parenting classes, and Social Services benefits eligibility, wellness activities. Each site has community access desktops and libraries of books and DVDs.

The centers are located in each community, and they provide peer to peer support for clients and family members in need; the peer advocates will also help the Wellness Center site coordinator to identify community needs for developing wellness programming, and when possible, they may facilitate peer-run groups/activities.

Each of the centers will offer a range of services that are consumer-focused and recovery-based, helping PCBH to enhance and to improve access to our mental health services system. These services will include wellness and recovery focused programs such as nutrition, smoking cessation; individual and group services; as well as consumer-run activities (art, yoga), walking, and other activities that focus on engagement and wellness.

Each center has both clinical and case management staff, a site coordinator, four-wheel drive vehicle(s), and other transportation options. Additionally, community and agency partners who might be centralized in another part of the county are able to meet additional local needs by using "flex" space to provide one on one counseling and supports. Examples of this partnership include Social

Services eligibility and social workers, Veterans Services case management and outreach workers, as well as Plumas Rural Services children and families' programs.

Outcomes

- Improve access, timeliness and linkage to services, decreasing duration of untreated mental illnesses
- Improve outreach and engagement to community members and unserved and underserved populations
- Increase sense of community connections and well-being
- Increase access to services by targeted populations through funded-partner direct service delivery (TAY, Seniors, Children and Families, and Veterans)
- Decrease social isolation and increase access to peer advocacy, support, and wellness activities
- Increase engagement in treatment and case management services
- Expand workability by offering peer employment opportunities to those with lived experience

The Adult Peer Work Program at PCBH enrolls highly motivated clients who wish to return to work in some capacity, some of whom receive Supplement Security Income or SSDI. These consumers participate and contribute to their communities by working abbreviated work schedules and are often supervised by an outside work site supervisor.

PCBH case managers transport and work with the consumers on improving their functional impairments in the work setting: the Program is designed to assist clients to develop the skills that will help them manage their mental illness symptoms as they are placed in a work situation where they're completing routine tasks while engaging with other program participants and a work supervisor.

The case managers also work with the individual clients to practice stress management and to work on strengthening coping skills that help the client to better self-regulate and to start transitioning into a job setting within their community. The program enrollment is set at up to 9 months running from early spring to late fall depending on weather conditions. Clients are limited to 1 term in the adult work crew to allow more clients to access this service and to prevent clients from becoming financially dependent on the program.

The Adult Peer Employment Program plans to enroll ten clients with an average attendance of eight participants per session. Outcomes will include participants who will transition to community-based employment and participants will report decreased feelings of isolation, an increase in self-confidence, and increased motivation to search for job opportunities outside of the program. Clients will also learn daily living skills such as budgeting, money management, banking, resume building, interviewing skills etc.

The program was moved to the Community Services and Supports (CSS) component in FY18/19 to better align with the goals of the CSS component, offering a supportive employment program to consumers living with a serious mental illness (SMI).

During Covid-19 and the Dixie Fire, PCBH lost staffing and had to put a halt to the adult work program. We were able to re-establish the program in Spring of 2023.

Plumas County Behavioral Health began its Transition Age Youth Employment program in 2015. In summer 2017, the program transitioned from a year-round after school and summer program to a brief-intervention model of case management rehabilitation interventions in a typical youth summer work field setting. During 2020 and 2021 the program experienced a lot of changes from not being able to operate at all due to Covid restrictions to an increase in the workable season and hours due to lifted regulations when outdoors and the youth remaining out of school and having more flexible schedules and workable hours outside of summer. Unfortunately, during the summer of 2021, Plumas County was victim to the Dixie Fire and the program was not able to run due to unhealthy air quality from the smoke. In late summer of 2021, the community of Greenville was lost to the Dixie Fire which resulted in the loss of staffing and the overall loss of the program. PCBH would like to bring back the TAY program and has plans to do so but due to continued staffing shortages it has been difficult to find the appropriate staffing necessary to run this program. PCBH identified a staff member who was in the process of completing their master's degree and was planning to run the program beginning Summer of 2024 but this staff member was offered a high paying position elsewhere and left the department. PCBH will continue to identify staff that can re-start this valuable programming.

The TAY Peer Employment Program is a collaborative, community-based mental health program which supports the participant in building emotional self-regulation and other stress-reducing coping skills in a vocational and social setting; the program operates for seven weeks over the course of each summer. The Programs bridge two program fiscal years: from late June through early August. Workdays are typically Monday through Wednesday from 9AM to 1PM.

To address the unique needs of Transitional Age Youth in Plumas County, partnerships were established with area nonprofits, Rugged Roots Farm and Sierra Buttes Trail Stewardship, which operate within resource and conservation management, the most specialized industries in the county. Projects with Sierra Buttes Trail Stewardship take place on the South Park Trail system of the Cascades, Bucks Lake Wilderness, and Mt. Hough, and may include trail building and maintenance, trail engineering, and removal of forest overgrowth.

Projects with Rugged Roots Farm take place at the farm site in Quincy and includes agriculture and the farm to fork model of healthy foods and production and distribution. The Rugged Roots Farm also offers different community opportunities to access healthy foods such as their “Farm Bucks” program, accepting EBT and distributing a box of fresh fruits and vegetables weekly to the Wellness Centers throughout the county.

One day a week, clients spend engaging in the evidence-based program, *Working at Gaining Employment Skills (W.A.G.E.S.)*, which included professional skills development and practice, the creation of resumes and cover letters, and engagement in mock interviews.

During all activities, PCBH staff trained in a variety of evidence-based treatment modalities provide therapeutic interventions to individual participants and to the group. Treatment modalities utilized included Cognitive Behavioral Therapy, Solution-Focused Therapy and Mindfulness-Based Cognitive Therapy.

All participants will complete the program from start to finish. All participants are expected to complete 80% or more of the work activities (17/21 workdays). Progress will be monitored through documentation by program staff in individual Electronic Health Records and in communication with participants’ individual treatment teams.

It is expected that 80% of participants may be able to terminate services shortly after program completion by meeting all their treatment goals.

Previous participants have gone on to obtain internships through the Forest Service, employment within PCBH, and other community agencies. Throughout the duration of the program, participants will receive support from their individual case management specialists and clinicians at PCBH and education about community resources through visits to the Alliance for Workforce Development and local wellness centers.

MHSA CSS funding is used for the TAY consumer salaries and benefits, transportation, as well as program supplies and equipment. Case management services are billed through Medi-Cal.

This program was moved to the Community Services and Supports (CSS) component to better align with the goals of that category offering a supportive employment program to consumers with a serious mental illness (SMI) or serious mental disturbance (SED). Program cost per participant is less than $1,500 per year.

Due to the potential for environmental risks to clients, PCBH will provide snacks and water or Gatorade to help prevent any environmental illness such as heat stroke or low blood sugar that could

result in an emergency while out in the field on the TAY or Adult work crew. The safety of our staff and clients is our number 1 priority.

The Work Program at Environmental Alternatives will operate similarly to the PCBH Adult work program but E.A. will focus working with the FSP population that is housed through E.A. and receives their case management services from E.A. staff.

E.A. case managers transport and work with the consumers on improving their functional impairments in the work setting: the Program is designed to assist clients to develop the skills that will help them manage their mental illness symptoms as they are placed in a work situation where they're completing routine tasks while engaging with other program participants and a work supervisor.

The case managers also work with the individual clients to practice stress management and to work on strengthening coping skills that help the client to better self-regulate and to start transitioning into a job setting within their community. Clients will also learn daily living skills such as budgeting, money management, banking, resume building, interviewing skills etc. The goal for clients in the E.A. work

program will be to transition from E.A. housing to their own established housing while having gained the skills to be financially independent of E.A. and PCBH services.

EA was unable to get a work program up and running during the 23/24 Fiscal year due to a shortage in staffing. PCBH is hopeful that EA will be able to obtain a full staff and begin this program in 2025.

Program Deliverables

PCBH was in the process of having discussions with the Spanish Creek Motel and partnering agencies to acquire the property to expand the amount of transitional housing units we have for the SMI population. Unfortunately, the property was sold to another individual before these discussions could be finalized. PCBH has continued to look for potential housing options throughout the 23/24 and 24/25 fiscal years.

Goal

The goal of this program is to provide up to ten (10) qualified individuals who meet eligibility for *MHSA Full-Service Partnership* through Plumas County Behavioral Health's Utilization Management (UM) review process with:

- a single-occupancy residence.
- a stable and secure living arrangement.
- progressively increased normalcy and integration in accord with participant capacities
- sustained periods of non-incarceration and non-hospitalization with decreases in overall incarcerations and hospitalizations
- optimal use of existing community resources
- accommodations for mental and physical disabilities
- improved health outcomes and quality of life
- harm reduction interventions to support sober living
- individualized goals and outcomes to improve independent living skills
- individualized permanent housing planning to optimize community integration upon program exit
- individualized vocational/educational planning and support

During the 23/24 and 24/25 Fiscal years, PCBH has been working to identify potential options for additional housing throughout Plumas County. PCBH has identified a couple of options for low income apartments through RCHDC, and is working with the building department, community members, Ad Hoc groups, and RCHDC to identify appropriately zoned properties for an apartment complex where 10 of the units will be specifically for Behavioral Health clients.

PCBH plans to use these funds to start the development process and for predevelopment costs upon approval from DHCS.

Anticipated Cost per Client:		Case Managers and clinicians will have access to use these vehicles to provide services up to 250 clients annually			

Program Deliverables

In August of 2021 the Dixie Fire went through the community of Greenville and destroyed the Greenville Wellness center along with 3 MHSA vehicles. The 3 vehicles that were destroyed in the fire will be replaced with insurance payouts. However, it was determined that additional vehicles would be needed to run programs more effectively and efficiently.

Goal

The goal of the vehicle purchases will be to provide staff members with safe and reliable vehicles for providing in-the-field services to clients. Plumas county is a frontier county spread out over 2,553

square miles. This requires PCBH staff to travel to multiple communities and locations to provide adequate services to their clients.

Vehicles were not purchased during the 23/24 fiscal year but the process for researching appropriate vehicle options was started. PCBH identified 6 vehicles for purchase, 2 Ford Escapes, 2 Subaru Outbacks, and 2 Honda CRVs. The 2 Ford Escapes were purchased in March 2025. The remaining 4 vehicles contracts are currently with County Counsel and we hope to have the process completed before June 30, 2025. There is a possibility that the contracts on the 4 remaining vehicles may roll over into FY 25/26. The vehicle purchases will be completed by June 30, 2026.

A total of 8 PCBH vehicles were retired due to high mileage, safety concerns, or extensive repairs needed on these vehicles.

Number of Participants	1275
Program cost per participant:	$198 per student

This program began as an Innovation program with the goal to improve response to and decrease occurrence of potential threats in Plumas County schools, including presentation of suicidal ideation, reported self-harm behaviors, and reported bullying behaviors by establishing improved communication and sharing of resources across agencies and improving school climate. The primary tools created to address this goal were specific protocol development to address threats and bullying complaints, implementation of Positive Behavior Interventions and Supports grades K-12, and the addition of Student Services Coordinators in each community, serving grades K-12. At the end of the first year, the program transitioned to a Prevention and Early Intervention Project-Plumas Unified School District School Based Prevention Services with the goal to increase access and provide outreach for increasing recognition of early signs of mental illness.

Over the past few years, these services have transitioned into more direct services for the mild to moderate population. PUSD serves all students on a Tiered basis. Tier 1 would be direct services for all students such as classroom groups, teaching mindfulness techniques in a classroom, general interventions among students etc. These Tier 1 interventions are similar to community based groups that would be offered in a Wellness Center.

Tier 2 interventions would be small groups or one on one services with students who need a higher level of care or interventions from the general population of students. These students meet the mild to moderate population.

Tier 3 interventions would typically mean the student is moderate to severe and needs a referral to PCBH. Often times these students need weekly or daily check-ins, interventions, redirection and support from school staff.

Background:

The PUSD School-Based Program utilizes Positive Behavior Interventions and Supports (PBIS), a research supported framework developed out of the University of Oregon and now implemented nationwide. PBIS allows for a data driven application of evidence-based social/emotional and behavioral interventions to students on a tiered level. This has been further expanded to include academics and attendance under the umbrella framework of Multi-Tiered Systems of Support (MTSS) across PUSD. PBIS is the framework under MTSS used to organize and deliver social/emotional and behavioral supports.

Tier I of PBIS serves all students across the district by applying a universal approach to teaching behavior expectations at schools, through a systematic process verified by fidelity measures to ensure the framework is being applied appropriately. Universal behavior expectations are taught to students by staff, positive behaviors within the expectations are reinforced by all staff and retaught repeatedly throughout the year. The mantra is: teach, reinforce, reteach, reinforce again. Research shows that 75% of the student body should respond favorably to this approach. For the students who do not respond as determined by data, they move up to the next tier of supports.

In Tier II of PBIS, students are identified by intervention teams with data-driven decision making, not anecdotal reporting, as being non-responsive to Tier I interventions. These students are then assigned to different evidence-based Tier II interventions, either administered directly by or in conjunction with Student Services Coordinator support. Each school site has an intervention team that meets at least 2x monthly to review data and students in need of intervention.

In Tier III of PBIS, the 5-7% of students who are non-responsive to Tier II level interventions are then identified through the same data-driven intervention team process and referred to Tier III level supports, which include a referral to Plumas County Behavioral Health (PCBH) for a mental health assessment to determine the individual's level of need, whether mild to moderate or moderate to severe, through the Utilization Management (UM) Committee review process. Individuals who are assessed and require mild to moderate level of mental health services will be referred to Plumas Unified School District for school-based mental health services. For those individuals who are assessed by PCBH and meet a higher level of need, they will be reviewed through the UM process to receive moderate to severe community and school-based specialty mental health services by PCBH staff. Other Tier III supports provided by PUSD include IEP evaluations and supports, as well as Truancy Prevention Team interventions for academic and attendance issues.

Explanation:

It is in Tier II identification where students who are beginning to manifest signs of mental illness typically rise to this level of need for support. In the past, school sites were missing them through lack of consistent intervention team meetings and lack of Tier II interventions. Through the intervention team process, students are identified that need increased access and linkage to treatment and the referral process is engaged at this point, months earlier than the previous system allowed for, which typically responded when a student's level of need rose to Tier III, or severe/crisis status. Research supports that 60% of students who receive Tier II interventions will assimilate back into the general population. This results in more cost-effective interventions being utilized sooner and fewer students advancing to Tier III, subsequently helping to keep from overloading the system with referrals.

Challenges:

School-based activities:

- Student Service Coordinators in each community - fully staffed in Quincy, Portola and Chester all school year- partially staffed in Greenville.
- Lead Student Service Coordinator for supervision of paraprofessional social work

services- staffed all year.

- PBIS Implementation -
  - C Roy Carmichael Elementary - Continued strengthening of Tier I and Tier II implementation with fidelity measures met throughout the year
  - Portola Jr Sr High School - Continued strengthening of Tier I and Tier II implementation with fidelity measures met throughout the year.
  - Quincy Elementary - Continued strengthening of Tier I and Tier II implementation with fidelity measures met throughout the year.
  - Quincy Jr Sr High School - Tier II Booster training- successful implementation of Tier I and Tier II with fidelity measures met end of year.
  - Indian Valley Elementary and Greenville Jr Sr High School - Tier II Booster training; successful implementation of Tier I and Tier II with fidelity measure met end of year.
  - Chester Elementary - Tier II Booster with new leadership this year; successful implementation of Tier and Tier II with fidelity measures met at the end of the year.
  - Chester Jr Sr High School - Tier II Booster training- successful implementation of Tier I with fidelity measures met throughout the year and Tier II met by the end of the year.
  - PUSD has found that it takes a long time with consistent leadership at a site to implement PBIS with fidelity. As leadership becomes more stable at our sites in transition, we aim to see stable rates of fidelity met in practice of PBIS principles.
- September - Suicide Prevention Month- Grades 7-12 awareness campaigns on campuses throughout PUSD with social media push out of information and resources - local, national, and internet-based resources shared.
- October - Bullying Prevention Month- Grades K-12 awareness campaigns on several campuses throughout PUSD with social media and newsletter push out of information and district protocol shared. Challenge Day to be held at each 7-12 campus throughout the district and anti-bullying assemblies with curriculum support at CRC.
- May - Mental Health Awareness Month- Grades K-12 awareness campaigns on several campuses throughout PUSD with social media and newsletter push out of information and resources- local, national, and internet-based resources shared.

Paraprofessional social work practiced at each site throughout the year provided coordination of services, referrals to services, mentorship, and reteaching of school wide expectations.

Types of treatments individuals may be referred to:

- Plumas County Behavioral Health
- Plumas Rural Services- Child Abuse Prevention Treatment (CHAT) Program, 0-5 Counseling Services Program, Private Insurance Provider Program, Mild to Moderate Provider Program
- Eastern Plumas Health Care- Mild to Moderate Provider Program Behavioral Health
- On-line Private Providers of Telehealth services under Private Insurance – Live Health Online, MDLive
- 7 Cups of Tea- online support provider (free and paid for services)
- North Fork Family Medicine- Mild to Moderate Provider and Private Insurance

- Local area private providers- Kathleen Toland, MFT; David Schaffer, LCSW; Aly Makena, MFT etc.
- Private Providers out of the area determined by insurance - Reno, Chico, Truckee, Susanville

Individuals Who Followed through on Referrals and Engaged in Treatment:

There are multiple challenges within the school system for tracking follow-throughs on referrals and treatment outside of the school system.

The most notable challenge has been the lack of Behavioral Health providers in our area despite significant recruitment efforts. It is easier now to track how many referrals the schools have sent to the different provider options for our students, however as seen above tracking when the follow-through and engagement occurs still has some barriers that we will continue to work out.

Additionally, PUSD has suffered a staffing shortage and funding decrease resulting in one community in the county not having consistent SSC coverage. This has impaired our ability to collect data accurately. The numbers reported are less than what occurred due to this barrier. Keeping the PUSD Behavioral Health Specialist positions staffed has also proved to be a challenge. PUSD will continue to coordinate with PCBH on the efficacy of this model and make changes as indicated.

A big success to date has been with the implementation of Tier II interventions at school sites. As Tier II interventions get more widely utilized and applied, the students who respond well should reintegrate back into Tier I level of functioning leaving a much smaller number requiring Tier III level of intervention. This should decrease the overall number of referrals over time to specialized services.

Additionally, PUSD has begun to create an overarching Multi-Tiered System of Support (MTSS) which will incorporate multiple levels of interventions for social, emotional, behavioral, and academic needs. The addition of this umbrella should help us identify those students who may need further intervention that are not receiving it.

Another major success is that all our school sites are practicing PBIS with fidelity across Tiers I and II as of the end of this fiscal year.

The implementation of this project has reinforced past knowledge that successful implementation takes a long time and persistent investment in the process. Staffing changes, staffing shortages, trial and error all take time to smooth out and fill gaps that arise over time. This tells the team to anticipate a longer amount of time for successful implementation. Additionally, the team's understanding of the cultural differences across communities in our county also contributes to each community developing at a slightly different rate with some being stronger than others in some areas. Lastly, it also reinforces

that mistakes occur, and periodic evaluation is a good tool to help target gap areas and address problems.

It was also learned and reinforced that even though small interventions can have powerful impacts, shortage of resources can still stifle application of interventions and supports for students. It has challenged the teams to work smarter with the resources available.

PUSD has a very large transient population. This poses a challenge to school culture and access and linkage to services. Resources are often applied to students who are here temporarily and that likely holds up the referral process for students in need who have more permanent residence here in Plumas County.

At some school sites, it has been experienced by staff that when small interventions are applied it does result in prevention of increase in symptoms. Students who would have historically been automatically referred to Tier III level services in the past have shown strong responses and movement to wellness with Tier II interventions. As staff sees this reinforced over time, the stronger the Tier II implementation should become.

PCBH will be contracting with the local Charter School to expand school based services and to meet increasing need for school-based mental health services, to serve up to an additional 350 students.

The Community Services and Supports portion of the program utilize MTSS (Multi Tiered System of Support) research supported framework developed out of the University of Oregon and now implemented nationwide. MTSS is under the umbrella of PBIS and allows for data driven application of evidence-based social/emotional and behavioral interventions to students on a tiered level. Plumas Charter currently uses MTSS and will begin working to implement PBIS. This has been further expanded to include academics and attendance under the umbrella framework of Multi-Tiered Systems of Support (MTSS) across PUSD. PBIS is the framework under MTSS used to organize and deliver social/emotional and behavioral supports.

Tier I of PBIS serves all students across the district by applying a universal approach to teaching behavior expectations at schools through a systematic process verified by fidelity measures to ensure the framework is being applied appropriately. Universal behavior expectations are taught to students by staff, positive behaviors within the expectations are reinforced by all staff and retaught repeatedly throughout the year. The mantra is: teach, reteach, reinforce, reteach again, reinforce. Research shows that 75 percent of the student body should respond favorably to this approach. For the students who do not respond, they move up to the next tier of supports.

In Tier II of PBIS, students are identified by intervention teams with data-driven decision making, not anecdotal reporting, as being non-responsive to Tier I interventions. These students are then assigned to different evidence-based Tier II interventions, either administered directly by or in conjunction with Student Service Coordinator support.

Research out of the University of Oregon has shown that 60% of students who participate in Tier II level supports when non-responsive to Tier I will reintegrate into Tier I level functioning and not require referrals to the most intensive Tier III supports. This is precisely where both prevention and early intervention occur as students who begin to manifest signs of mental illness typically rise to this level of need for support. If we apply the evidence-based interventions with these students, research tells us that 60% will not go on to need Tier III level of supports, which often includes treatment for severe mental illness.

In Tier III of PBIS, the 5-7% of students who are non-responsive to Tier II level interventions are then identified through the same data-driven intervention team process and referred to Tier III level supports, which include a referral to Plumas County Behavioral Health for a mental health assessment to determine the individual's level of need, whether mild to moderate or moderate to severe, through the Utilization Management (UM) Committee review process.

Individuals who are assessed and require a mild to moderate level of mental health services will be referred to Plumas Charter for school-based mental health services. For those individuals who are assessed by PCBH and meet a higher level of need, they will be reviewed through the UM process to receive moderate to severe community- and school-based specialty mental health services by PCBH staff.

Other Tier III supports provided by Plumas Charter include IEP evaluation and supports, as well as Truancy Prevention Team interventions for academic and attendance issues.

Both Tier I and Tier II services provided at each school site through PBIS are focused on social/emotional and behavioral supports. When schools address social/emotional and behavioral issues within the framework of PBIS, data reports that this helps reduce risk factors for developing a potentially serious mental illness and builds protective factors such as emotional literacy, emotional regulation skills, improved conflict resolution and relationship skills. Tiers I and II support the goal of improving mental health, including the reduction of negative outcomes such as suicidality, school failure and drop out, and prolonged suffering. Tiers I, II and III are focused on capturing data points to determine levels of support including specific risk factors such as biological family history, neurological history, behavioral/social/economic/environmental risks, chronic medical conditions, adverse childhood

experiences (ACEs), trauma, ongoing stress, exposure to drugs, poverty, family conflict, domestic violence, racism and social inequities, prolonged isolation, previous mental illness, previous suicide attempts, and family history of mental illness or suicide attempts.

Tier I and II supports also promote recovery and related improved functional outcomes for a mental illness early in its emergence. The data points gathered in the intervention team process through behavioral referrals and parent and teacher requests for assistance allow Plumas Charter to identify the risk factors above through prevention and promote recovery through the Tier II, and when needed, Tier III supports applied to the students and families in need.

Functional outcomes addressed include intervention with suicide risk, interventions applied to address risk of school failure and drop out, and intervention to identify and decrease prolonged suffering. Plumas Charter Early Intervention supports also include supports for family members of students, provided by or supported through Plumas Charter staff.

Deliverables:

- Plumas Charter will provide PBIS Tier I and Tier II infrastructure practice with fidelity in all communities within the district.
- Plumas Charter will provide a .5 FTE Student Services Coordinator/Behavioral Health Clinician in each community with student population less than 400 as funding allows.
- Plumas Charter will provide evidence-based Tier II interventions to students who are in need as determined by intervention teams (data collections and requests for assistance)
- Plumas Charter will provide awareness activities on campuses physically and virtually through social media for suicide prevention as well as mental health awareness.
- Plumas Charter will provide referral to PCBH for all Tier III individuals for assessment and level of care determination.
- Plumas Charter will provide mild to moderate school-based mental health services for those individuals who are determined by PCBH to qualify for a lower level of care.

Measurable outcomes:

- Plumas Charter will improve timely access to services for the underserved population of school children and youth. Site-based intervention teams meet once to four times monthly to review student data and requests for assistance. It is through this process that students are identified for necessary Tier II and Tier III services. Plumas Charter will be able to report out the number of students referred to services across the district quarterly (see below for collection method).
- Plumas Charter will provide access and linkage to treatment through the intervention teams student data screening process as well as through requests generated from awareness month activities – suicide prevention and mental health awareness. Intervention teams meet once to four times monthly. Referrals are generated through the Request for Assistance process at each site and intervention team recommendations through data analysis on students.
- Plumas Charter will provide supports using non-stigmatizing and non-discriminatory strategies by providing a tiered approach to supports which starts with application to the entire student body as well as awareness activities both on physical campus and virtually through social media outlets. Making it available to all students decreases stigma and discrimination.
- PCBH will be able to measure the access to services by comparing the number of intakes completed from school referrals with the reported number of referrals from Plumas Charter at the quarterly reporting periods.

- Plumas Charter will provide mild to moderate school-based mental health services for those individuals who are determined by PCBH to qualify for a lower level of care. The productivity standard is set at 50% due to other prevention and referral related tasks.

Data collection methods:

- Plumas Charter will utilize their student database to extract demographic reporting of students served.
- Plumas Charter will utilize intervention team data-based decision making to ensure identification of students in need of Tier II supports in each community.
- Plumas Charter will report the number of students within the district receiving Tier II evidence-based supports. These numbers will be collected through intervention team meeting minutes by school site.
- Plumas Charter will report the number of students within the district receiving Tier III referrals to mental health services, reporting PCBH referrals and non-profit or private referrals separately. These numbers will be collected through intervention team meeting minutes by school site.
- Plumas Charter will report the number of family members of students at risk that are supported by Plumas Charter Staff across the district. These numbers will be collected by Plumas Charter Staff documentation of daily contacts.

Projected number of students served through Tier I and Tier II supports:

Children and their families (0-15)	>250
Transition Age Youth (TAY) (16-25)	>50
Adult (26-59)	0
Older Adult (60+)	0

Contractor will provide services in accordance with the following provisions.

Plumas Charter School Quincy Campus

1425 E. Main

Quincy CA, 95971

Indian Valley Academy – Taylorsville

Taylorsville, CA 95983

Plumas Charter School Chester Campus

II. Purpose

Provide Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Specialty Mental Health Services (SMHS) for full scope Medi-Cal eligible Plumas County children, ages 5-21, through the Mental Health Services Act (MHSA) Community Supports and Services Program for elementary, junior high, and high school students enrolled at Plumas Charter School, who don't respond to Tier I and Tier II PBIS interventions and supports. A listing and description of these services are detailed in Section VI of this Scope of Work.

Goal

The goal of the EPSDT SMHS is to provide school-based screenings and referrals for assessment by PCBH Utilization Review process and to provide school-based mental health services for individuals who meet criteria for mild to moderate mental health services.

III. Target Population

County-referred Plumas County Medi-Cal beneficiaries.

These are children and youth who will be assessed by PCBH staff in each community and identified by Plumas County Behavioral Health Utilization Review team as either needing mild to moderate mental health services or moderate to severe specialty mental health services. It is expected that Plumas Charter will provide mild to moderate school-based mental health services. For services to be eligible for payment, all eligible clients must be approved by the County specifically, as follows:

1. The County will require periodic review for continued service authorization through the Utilization Review (UR) process.

IV. MONITORING

Track and report annually or as noted on the following:

I. Child and Adolescent Needs and Strengths-50 (CANS): The CANS tool is an evidence-based tool to measure children and youth functional outcomes in California. The CANS is a structured assessment used for identifying youth and family actionable needs and useful strengths. It provides a framework for developing and communicating about a shared vision and uses youth and family information to inform planning, support decisions, and monitor outcomes. The CANS is completed at intake, every six months thereafter, and at discharge.

J. The Pediatric Symptom Checklist (PSC) is a 35-item parent/caregiver-report psychosocial screen designed to facilitate the recognition of cognitive, emotional, and behavioral problems so that appropriate interventions can be initiated as early as possible. The PSC is completed at intake, every six months thereafter, and at discharge.

K. Bi-Annual completion of: State Consumer Perception Survey.

L. Chart reviews will be conducted by PCBH staff to support compliance with Medi-Cal documentation standards. Plumas Charter will be held to the documentation standards that are expected by the Department of Healthcare Services.

Program Deliverables

The purpose of this program is to provide support to the local hospitals that are dealing with 5150 holds and assessments. Since Plumas County is rural, all 5150 hospitalizations are out of county placements. It can often be difficult to locate and secure a bed in contracted hospitals which requires patients to be in the local Emergency Room for multiple hours. This contract will help the hospitals to find supporting staff to sit with these patients while they are waiting for a bed. It is imperative that the emergency rooms have adequate staff to sit with these patients to keep them safe while not reducing the staff that is available to handle other emergencies. A patient on a 5150 hold must always be watched. This program will help provide the funding needed for the hospitals to hire sitters to ensure that not only the 5150 patient is being appropriately cared for but that there are still adequate staff to handle other life-threatening emergencies in the ER.

Goal

The goal of this program will be to improve access and care for those in crisis and in need of round-the-clock observation. This will not only improve care for SMI patients in the emergency room, but it will also improve the collaboration and working relationships between PCBH and the local hospitals. When agencies can work together and have positive working relationships, we are able to improve the care we provide to our patients.

PCBH has reached out to the local hospitals throughout the 23/24 and 24/25 fiscal years, but has not received any response from hospital administration in order to put these contracts into place.

Prevention and Early Intervention (PEI)

The Plumas County MHSA Prevention and Early Intervention (PEI) Program consists of contracted community-based programs working with targeted populations to address mitigating negative outcomes - school failure, removal of children from their homes, suicide, and prolonged suffering – that may result from untreated mental illness through programs of Prevention, Early Intervention, Outreach for Increasing Recognition of Early Signs of Mental Illness, Access and Linkage to Treatment Program, Improve Timely Access to Services for Underserved Populations Program, Stigma and Discrimination Reduction Program, and Suicide Prevention Program.

Combined, these programs connected with over 4,000 (over 20% of) Plumas County residents either through indirect prevention, suicide prevention, and stigma and discrimination reduction and outreach and engagement programming or through direct referrals to services, supports, and case management. Plumas County commits a majority of its PEI funding (75.6%) to programs for those under 25 years of age, targeting elementary, high school, and college-based outreach and access and linkage to hard-to-engage and hard-to-serve child and adolescent populations through school-based and afterschool programs. Veterans and Seniors are other large populations in Plumas County which receive PEI funding for programs targeting these underserved populations.

For FY 24/25 most of the PEI program budgets were increased in order to help the partners expand their services and find ways of maintaining services after July 1, 2026 when the new BHSA takes affect and most of these programs will be at risk of losing support from MHSA funds. PCBH has continued these increases into the 25/26 FY.

Each of the following PEI programs provides unique experiences, services, resources, and supports to Plumas County populations which are typically unserved to hard-to-serve, due to difficulty in engaging, stigma blocking discussion of mental illness, bullying behaviors, or isolation.

Overview:

Senior Connections supports Plumas County seniors, their families, caregivers, and friends.
Our mission is to assist with resources in and outside the County. At times, we advocate for issues related to health, housing, financial, and elder abuse, both physical and emotional situations.
We work closely with Sr Nutrition, Sr Transportation, IHSS, APS, PRS, Plumas Bank, Senior Solutions, among other community members, to support and provide services and resources available in the County.
The primary focus for Senior Connections is to visit our homebound seniors on the delivery nutrition program. Visits and phone calls consist of a brief but necessary mental health assessment to determine if there are depression issues or other potential mental or behavioral health conditions that need further attention. The referral to Behavioral Health is voluntary and must be initiated by the individual. Contact information is provided, and follow-up with the individual usually takes place 2-4 weeks after the initial visit.
Sr Connections started the new fiscal year a bit modified. FMLA leave for July resulted in no physical visits, no ride-along activities, and limited phone calls.
August had limited ability to do home visiting. Phone communication, referrals, and follow-up calls were managed. September through December, normal activities resumed. Number of Sr Nutrition participants for Q-1

There has been a significant increase in adult children of aging Plumas County parents and relatives contacting the County to inquire about resources available.
Managing calls involved Sr Transportation and Sr Nutrition. This year saw a surge in assisted living, skilled nursing, memory care, and primarily home health support in-home care. Many County seniors are undergoing medical treatments and surgeries outside of the County. When they return home, the resources are limited to nonexistent medical care and support.
Sr Connections is also a member of the AFN Committee and participates in the MDT Quarterly meetings.
Noteworthy of the 2nd quarter were visits to the Congregate sites, Portola, Quincy, and Chester, from Passages Medicare consultant Carrie Alden. She helped seniors with enrollment questions at the sites and by referral calls. Sr Connections also distributed File of Life magnets for seniors to display on their refrigerator to alert First Responders of medical conditions. More will be distributed next quarter.

Senior Connections has been designed to enhance basic-need programs for the older adult population already provided through Plumas county Senior Services. The enhancements offered are intended to reduce prolonged suffering in the older adult population, especially inhomebound seniors, who are indentified as underserved in Plumas County.

Enrollment/ targeted “underserved” group:

The MHSA-funded prevention program employs strategies of improving timely access to services of underserved population and access and linkage to treatment through support of home visits by a public health education senior specialist to homebound seniors through linkage with the Senior Nutrition Program, and screens participants for early signs of depression or other mental ilness.

This approach provided staff of Senior Connections the opportunity to quickly identify individuals who may otherwise remain underseved and may need a referral for a mental health intake and assessment. The program also connects seniors to the greater community to combat isolation and improve whole health outcomes through social connection and education.

The program enhances ongoing collaboration and partnerships with Behavioral Health and other key community partners to provide this underserved population with access and linkage to

menatl health services, thereby increasing timely access. These activities and strategies will decrease negative outcomes of prolonged suffering that may result from untreated mental illness in homebound seniors.

Future projects include creating a resource link on the PCPHA website for resources and intersting articles our seniors, families and caregivers. Continue to hand out information flyers to congregate sites and lunches delivered. In collaboration with AFN, PRS and MDT in supporting, protecting, and providing services to this population.

Roundhouse Council is a community-based non-profit organization dedicated to providing language and cultural activities and education and resource support to Native American youth, families, and elders in Plumas County. This program focuses on reducing negative outcomes that may result from untreated mental illness, including school failure, suicide, and prolonged suffering.

Unfortunately, during the Dixie Fire in 2021, Roundhouse lost their Greenville facility and many of the items used in the following programming. The Roundhouse Council is working to re-establish the programming they lost during the fire and has plans to get back to providing all of the following services once their center is rebuild in the Greenville area. Roundhouse continues to offer the services and programming that they are able to including language services, children and youth services and community education through tribal activities and presentations.

<u>Youth Activities</u>

Roundhouse Council will work with local Native youth, providing them afterschool, weekend, and summer programming. Youth are offered Language, Traditional Dance, Hand game practice, along with youth prevention strategies, such as wellness groups and teen activity nights, as well as Native-specific mental illness stigma and discrimination reduction strategies. When appropriate, the organization provides a means for warm referral to other agencies, including Plumas County Behavioral Health, for its participants and their families.

Roundhouse recently added Wellness Art projects and Traditional Plant medicines and gardening to their programming. These programs are designed to help reduce stress and improve moods along with native children gaining traditional knowledge that can be passed down to future generations.

Wellness Groups

Roundhouse Council will partner with two main facilitators who travel regularly to Indian Valley from out of county. Roundhouse Council's Cultural Coordinator will assist current facilitators during their groups, optimizing the effectiveness of these interactions, measuring attendance and collecting participant demographics, and moderating communication among participants and community members.

Roundhouse Council staff has made connections with other tribes and villages and will invite them to visit and share their knowledge with our students on a one on one basis and in a group setting - these individuals will visit this program site multiple times over to impart generational and tribal knowledge.

Staff will continue to reach out to Native individuals who have experience working with Native youth programs and who would like to offer their knowledge to assist in our current youth programs. The skill level of these facilitators ranges in program knowledge geared towards Native American people and the different ways they interpret and internalize information that pertains to mental, physical and spiritual wellness: White Bison, 12-step programs, *Fatherhood and Motherhood Is Sacred*, Sacred Native Institute's *Healthy Relationships,* and *Tobacco Is Sacred, Drugs and Alcohol Are Not Traditional,* are a few programs these facilitators are trained to provide.

These are family-oriented programs that can be formulated to focus on youth and multi-generational participants. The importance of reaching out to different individuals and inviting them to participate in this program helps to keep the program new for returning participants, while continuing to bring in the facilitators who have already built rapport with them.

Staff has reached out to the local Tribal TANF office in Greenville to partner on creation of wellness-focused groups; this is an opportunity to reach more Native people in the community who may not currently participate in Roundhouse Council programs and will allow Roundhouse facilitators to partner with other Native American educators utilized by the TANIF program to create future events and programs designed specifically for Native youth.

Skill Building

Roundhouse facilitators will continue to work with local youth on traditional dance, hand-games, and Native language. These lessons are taught and retaught to assist youth in retaining the cultural

curriculum to pass the teachings on to others in their families and communities for those who didn't have this opportunity, and as a legacy for the next generation of Native children.

Roundhouse Council will invite additional facilitators to share their unique talents with student participants, such as their ability to make dance regalia. Dance regalia can take years to make: the work that goes into dance regalia is time consuming and tedious. There are many individual pieces that need to be made in order to create a full dance outfit.

Many of these pieces are made with natural materials and need to be treated as live spirits; part of the teachings of making one's own dance *Reigns*, another term for regalia, is that they must make them in a good way, because the emotions one feels while creating the dance Rigens is what one puts into the feathers, requiring the participant to want to feel happy for the Rigens to offer up good prayers. Creating one's own dance Rigens also demonstrates the owner's sense of pride in self and teaches patience.

Language Program

There was a time in Native American History when tribes were not allowed to speak their language or practice their religion; practices that were punishable by death. The traditional teachings that RC can share with Native youth was passed down by Elders who retained the teaching of prior generations who practiced in fear of what could happen should they get caught. To be able to continue what RC has started with Native youth is a blessing from their Creator and is a solemn responsibility.

Roundhouse Council's Language program was born out of long-held recordings of local Elders who spoke the Maidu Language. Together with these recordings, the Maidu dictionary, and primary sources online and in the Berkeley Archives, RC and its educators have been able to start a language program.

The facilitators have used these recordings and created lesson plans for the Language group. This has been an ongoing learning process for the youth who participate in the Language group. Unfortunately, Maidu is not the first Language of RC participants, and without regular practice by RC's Language group, it will not survive for this and subsequent generations.

Gatherings of Native Americans

Roundhouse Council will plan and host a GONA, or Gathering of Native Americans, each year of the Plan; this is where collaboration and partnerships with other Native programs will be beneficial: during a GONA the need for multiple facilitators is required for the breakout sessions and to assist if needed when the conversation intensifies, for the potential of one-on-one counseling, when needed. Roundhouse Council has observed that many Native adults are not as willing to participate in weekly groups, but they are willing to participate in occasional functions, such as a GONA, Big Time or Hand game Tournament.

GONAs are intended to provide tools for emotional, spiritual and physical wellness and subject matter can be based around issues that are important to youth, adults and multi-generations.

Big Times are also Gatherings of the people and are an opportunity for Native communities to gather to Dance and Pray for the people. A Big Time will be held for a few hours or many days: some Big Times are just for an opportunity to be social with other groups, while others are spiritual.

Hand game tournaments are a Traditional game that is believed to have been around since the beginning of time. The game has since been modernized and Tournaments now are played for money prizes, while for prior generations, play was for merchandise, such as tools or jewelry.

While Hand game tournaments are incentivized with prizes, the game is deeply rooted in the ritual of play and connected through time singing the same songs. The songs are unique to people's Tribal areas but have been shared along the Hand game Circuit.

GONAs, Big Times, and Hand game Tournaments are traditional ways for Native People to come together to share their common history and culture. These events highlight Tribal commonalities and differences drawing on the strengths that all Tribal people share: the love of their culture and the motivation to preserve it for future generations.

Family Night Dinners and Elder Luncheons

During the next three years, Roundhouse Council will continue to work with students on culturally specific programs focusing on Tribal youth's mental, physical and spiritual wellness. Roundhouse Council will continue to meet the needs of the community by hosting bi-weekly Family Night dinners and monthly Elders' Luncheons.

While these meals help to supplement participating families' monthly food budgets, especially for struggling families who receive county aid, such as food stamps, they provide opportunities for Roundhouse Council leaders to assess wellbeing and to provide outreach when needed.

During family nights, the community members play games, tell stories, watch movies, or just visit. This allows Native families to stretch their monthly food budgets and have a break from cooking. Family night dinners offer a time for families to socialize in a safe and welcoming environment, while participating in activities that focus on harm reduction and are drug and alcohol free.

The Elders' Luncheons serve Elders from Indian Valley and Quincy. This has been a longtime function of Roundhouse Council, and it provides an opportunity for Native Elders to get out of their homes and visit amongst each other. No activities are planned during this time because the Elders would rather chat with each other and socialize about the "good ol' days." Before everyone goes home the staff likes to share program schedules, in case any of the Elders would like to join Language group activities, family night dinners, cultural field trips, or offer to share their lived experience and knowledge during youth wellness groups.

Program Participants and Outcomes

Roundhouse Council anticipates serving a minimum of 20 youth and 20 adults each year during the three-year MHSA program. Proposed outcomes include the following:

- 100% of those participating in Multi-Generational Wellness programs will have an increased knowledge of and connection to Native American culture, traditions, skills and language

- 100% of those participating will have increased connections to supports and linkages to services that may identify early signs of a mental illness, reducing mental health disparities among Native American families and decreasing prolonged suffering, suicide, and school failure
- 100% of those participating will receive timely access to supports and will experience reduced perceptions of stigma and discrimination in seeking and receiving mental health services
- All participants will have an increased sense of connection to family and community

Roundhouse Council will use sign-in sheets to show participation. Participation is voluntary and to have continual participation shows success of the program, along with feedback from the facilitators. Evaluation forms will be filled out by group facilitators to indicate their perceptions of group progress and to indicate when changes or adjustments are required. There will also be check-ins with all participants on a quarterly basis to assess to what extent the participants perceive the groups are progressing and if they are needed.

The Executive Director of Roundhouse Council will be responsible to guide staff in collecting demographic and outcomes data for Plumas County Behavioral Health MHSA Program, including sexual orientation and gender identity information, as age appropriate. The Executive Director will prepare required program and outcomes reports and submit these upon the established timelines of the MHSA Program.

Roundhouse Council regularly seeks federal, state, foundation, and corporate grant funding to support and sustain programming. The agency utilizes grant writing services provided by the Lassen-Plumas-Sierra Community Action Agency as in-kind to their program for development and support of long-term sustainability.

Program Name	Youth Prevention Services – Visions
Program Partner	Plumas Rural Services
FY24/25 Expenditure	$30,000
PEI Program Type	Prevention: Access and Linkage to Treatment and Suicide Prevention
Age Groups Served	Children and their families (0-15)
	Transitional Age Youth (TAY) (16-25)
Reduction of Negative Outcomes:	Suicide risk, school failure/dropout, removal of children from their homes, and prolonged suffering
Number of Participants	15
Program cost per participant:	$1200

The Visions Youth Prevention Program provides prevention services for up to 30 girls and nonbinary youth, ages 11-18, serving 10-15 in person at any given time. Originally grounded in research on girls' development, the program was updated in 2022-23 to reflect the changing needs of adolescents and the youth-led desire to increase inclusion in the program. Youth participants in the formerly named Girl's Rite program saw a need to offer this space for their nonbinary classmates in 2022, and the Visions program developed through their leadership and drive.

Visions provides space for girls and nonbinary youth that supports participants' capacity for building self-confidence, physical and emotional resiliency, healthy relationships, and participating in regular physical activity. This work promotes these five protective and promotive factors of the Youth Thrive prevention framework, which is a trauma-informed, strengths-based youth development program to mitigate risk of and/or reduce negative outcomes that may result from untreated mental illness, such as suicide risk, school failure or dropout, and risk of removal of an adolescent from the family home. We know these risks increase significantly for LGBTQ+ youth, including gender non-conforming youth.

According to a 2011 study in the Journal of Adventure Education and Outdoor Learning, "all-girls programs create a space for adolescent girls to feel safe, increase their connection with others, and provide freedom from stereotypes." Furthermore, outdoor experiences for teens result in enhanced self-esteem, self-confidence, independence, autonomy, and initiative, with positive results persisting for years.

Visions will be delivered in Quincy with after-school meetings weekly during the school year. During these sessions, the program utilizes research-based, age-appropriate curricula focused on guided discussions, youth-developed group guidelines, journaling, positive self-talk, and peer and adult nonviolent communication.

Discussions and activities are dedicated to finding passion and purpose in life; establishing positive, non-violent communication techniques; providing emotional support; problem solving; and building and sustaining trusting relationships. Through regular discussion and interaction, the coordinator fosters bonds with participants that enables them to use her as a resource when they are facing challenges, including providing warm referrals for mental health assessment, as needed.

Professional women, nonbinary adults and other ally adults in the community are invited to speak and participate in the program regularly, fostering positive relationships with adults in the participants' own community. In addition to promoting protective factors described above, this work fosters an early introduction to possible future professions for participants, giving them relatable role models within their community and aspirational goals that insulate against future risks of unemployment and homelessness.

Program facilitator deliverables include:

Holding at least two (2) afterschool meetings per month during the school year

Leading seven (7) full-day excursions over the summer

Leading one (1) multi-day campout over the summer

Referrals to an early intervention or other mental health services will be tracked, reported, and a follow-up call or meeting with the participant and family will be conducted.

Measurable outcomes:

This prevention and improving timely access program will focus on reducing negative outcomes that may result from an untreated mental illness through building protective factors. By the end of the program year and through participant self-assessment or self-perception questionnaires, the program expects:

increase of at least 60% of enrolled youth who report a perception of increased self-confidence.

increase of at least 40% of enrolled youth who report a perception of an improved or a healthier relationship with family members or other primary social connections.

increase of at least 40% of enrolled youth who report perception of improved emotional self-regulation or emotional resiliency.

Decrease of at least 40% of enrolled youth reporting feelings of depression, sadness, or suicidal ideation.

Data collection methods:

PRS collects MHSA-specific demographic data for participants from initial enrollment forms. The Visions Coordinator tracks participation at meetings and other events. PRS also collects data on protective and promotive factors intended to mitigate risk and enhance healthy development and wellbeing. This data on factors of youth resilience, access to system of supports, social/emotional/physical well-being is surveyed via a pre- and post-questionnaire; answers to this questionnaire also help the coordinator to hone meeting topics for participants' needs.

MHSA funding supports Plumas County's

During the 23/24 and 24/25 FY PCBH staff took on the challenge to create a county wide Awareness program for suicide prevention and mental health awareness. During the month of September, Suicide Prevention signs were put up in each community and at each Wellness Center. Both banners and yard signs were used to help build awareness throughout the county. Each clinical office was also equipped with suicide prevention gear and swag for clients and community members. Staff also attended local events like the college job fair, the Children's Fair and other local events to help expand the outreach to the community. During the month of May, PCBH staff prepared "Wellness Kits" for all the 7th, 9th, and 11th grade students throughout the county. The Wellness Kits included a copy of "The 5-Minute Mindfulness Journal for Teens" along with Mental Health Awareness items including stress balls, stickers, pens, cooling towles, and a Life Skills booklet that teaches basic life skills from hygiene to budgeting. Mental Health Awareness signage was also put up throughout the county using banners and yard signs. Each Wellness Center also provided copies of the journals and swag for clients and community members.

MHSA PEI regulations state that counties with a population under 100,000 may report the demographic information required for the County's entire Prevention and Early Intervention Component instead of by each Program or Strategy (Section 3560.010(e) ***CA Code of Regulations Title 9, Division 1, Chapter 14, Article 5, 9§ 3560.010 Annual Prevention and Early Intervention Program and Evaluation Report***)

Prevention and Early Intervention Program Demographics – Combined

Small counties with a population under 100,000 are required to disaggregate their demographic data, due to their small reporting size numbers. Plumas County MHSA Program combines all data into one set of numbers broken down by demographic categories, such as age, race, ethnicity, gender, etc.

The Tai Chi program falls under the description of activities available at the Wellness Centers (please see page 29). It was recognized that this program was serving primarily senior citizens which is an underserved population and therefore it was more appropriate for the Tai Chi program to be a PEI supported program.

Tai Chi is a beneficial and effective aid for mental health. Multiple studies have shown that Tai Chi reduces anxiety, improves depression and increases endorphins. It is a good stress management tool, improves mood, self-esteem and sleep quality- important aspects of mental health. Harvard Medical School even stated that though Tai Chi is known as moving meditation it should be known as moving Medication!

As for the benefit for those who suffer from more serious mental afflictions; two clinical studies on people with depression found significant improvement in the cohort of participants who were treated

with medication and 12 weeks of Tai Chi 3 x week compared to those who were only treated with medication.

In this Tai Chi program, we have 5 classes each week ongoing, and we had 40 to 50 attendees since the beginning of the year. Many of these participants attend 2 or more times per week.

These classes offer a welcoming, healing place to go. The participants who attend regularly have developed a sense of belonging, those that are doing well have a ripple effect towards providing aid to others in the community who are struggling with mental illness.

INNOVATION (INN)

In the fall of 2022, Plumas County joined the Crisis Now Collaborative Innovation project. The MHSA Coordinator worked with the coordinating agency into the spring of 2023 to develop an innovation project that would work for Plumas County. It was determined that the cost of this innovation project would cost more than Plumas Counties annual allocation and therefore it was not feasible for Plumas County to continue with this innovation project. Plumas County will continue to try and find an appropriate innovation project for the county dynamics.

In Fiscal year 23/24 the MHSA reform was announced and voted on which will change how everything operates, and INN will no longer be its own funding category. Considering these changes, Plumas County has not entered into any new innovation projects in FY 23/24 or FY 24/25.

Workforce Education and Training (WET)

WET Mental Health Loan Assumption Program for Behavioral Health Staff

While there has been an MHSA loan assumption program run at the state level through the Office of Statewide Health Planning and Development (OSHPD), Plumas County Behavioral

Health identified a need for greater local incentives in efforts to “grow our own” behavioral health staff for hard-to-fill clinical and other positions.

Local authority to develop a County Mental Health Loan Assumption Program is described in California Code of Regulations Title 9, Division 1, Chapter 14, Article 8 – Workforce Education and Training, Subsection 3850, which states, “Workforce Education and Training funds may be used to establish a locally administered Mental Health Loan Assumption Program to pay a portion of the educational costs of individuals who make a commitment to work in the Public Mental Health System in a position that is hard-to-fill or in which it is hard to retain staff, as determined by the County. This program may be established at the county level.”

The program may enroll up to six PCBH full-time employees, with a projected allocation to this program each year of $60,000 for up to $10,000/per year loan assumption for each full-time employee with twelve continuous months of employment working for Plumas County Behavioral Health. The mandated MHSA maximum per employee is $60,000 whether they apply for local WET funds or through the statewide competitive OSHPD program. Having a local loan assumption program allows for PCBH to offer this incentive regardless of the state funding and volatility available with the statewide OSHPD program. FY 23/24 five applicants applied for grants and five grants were offered.

Relias Training (WET)

Training continues to drive clinical practice and influence organizational performance.

In early 2019 Plumas County Behavioral Health rolled out, Relias Learning Management Systems. The Relias LMS is a healthcare learning management system that helps administrators evaluate clinical skills, ensure compliance, and create custom learning plans for staff. Relias management system tracks all training in one place. An online learning system like Relias assisted PCBH in keeping accurate records on each employee’s training. Reports are easily pulled so that PCBH has documentation for state requirements.

In FY 24/25 PCBH allocated funds to each staff member for them to obtain required trainings that are not offered through Relias including but not limited to, trainings for CEU’s to help with staff retention, specific trainings related to the individual’s specialty or special interests (Eg. Art therapy for children, DBT, EMDR), training specific to their job etc. PCBH plans to allocate these funds in FY 25/26 as well.

The budgeted amount for WET during FY 24/25 and 25/26 will be $128,000 which will include Relias, Loan Assumption, supporting appropriate countywide department training and the allocation for staff members. PCBH has recognized the need to invest in our staff and to

provide them with the resources and training they need to meet their full potential within our department.

Capital Facilities and Technology Needs (CFTN)

Plumas County Behavioral Health had no Capital Facilities and Technology Needs program nor plan to expend CFTN funds in FY 24/25 or FY 25/26.

ACTION AGENDA

1. **Behavioral Health Commission**
   a. Review and approve draft PCBHC minutes of May 7, 2025
      i. **Bill moved to approve the minutes. Megan seconded.** (Merle, Stephanie, and Kristin abstained.) **Motion carried.**
   b. Public Hearing for MHSA FY24-25 Annual Update
      i. Kristi – did not receive any public comments prior to today; on page 35 of report re: housing purchase – amount will change to $350,000 (from $800,000) – was originally for purchase of a hotel for FSP – working with RCHDC – we can now only provide pre-development costs (not FSP which requires 51% CN&S portion 1.7 million of total). The funding will change with BHSA, and the remaining portion will roll over to new funding.
      ii. Comments: Denise – Pg. 11 re: Family Members on BH Commission – must be at least 20%; pg. 42 Ali McKenna – is she still a provider? – yes, as telehealth; pg. 50 Crisis Support – what will happen to this money? Money not used will be rolled over into BHSA. Veterans Service Report – she said is a great report! Pg. 68 table – Denise asked for clarification (Kristi clarified). Pg. 72 WET funding – some have moved, others have stayed – money is paid out after they have worked the hours. Pg. 58 typo – 2nd paragraph (interesting). Kristin "Cultural

Competency" – how to change wording? If it comes from State/Feds, it has to go through them.

iii. **Kendrah moved to recommend the MHSA Annual Update to the Board of Supervisors with the changes noted today, Bill seconded. Motion carried.**

2. **Informational Announcements & Reports**
   a. Commissioners Reports and Announcements
      i. Stephanie – QHS using Neuro-sequential model via Scott Cash, Wendy James – Prevention coordinator; will work on graphs showing how to meet students' needs which will be shared with staff.
      ii. Kendrah – Pride month – see local events on FB and flyers in town. It is important to support the LGBTQ+ community, especially from a MH/BH perspective.
      iii. Kristin – Rite Aid is closing July 2nd; Mimi has been working with Karen Shad to make sure folks have access for insurance as well as physical access; Rob Thorman has contacted Caltrans – need encroachment modification permit for parking; new hours will be 9 am to 6 M-F; 9 am to 2 pm Saturdays.
      iv. Kristin – official PDH pet assistance therapy – "Wonder" (dog) is ADA approved.
   b. Presentation by PCBH system of care stakeholders
      i. Ericka Thompson – PDH Senior Life Solutions
         1. Supporting Seniors' Mental Health Together – opened in 2021, with a second program in 2024
         2. 14% of adults over 60 have MH disorder – common symptoms: depression, anxiety, grief, loss of independence, coping with new health diagnosis, etc.
         3. Symptoms and risk factors – for loved ones and clients
         4. Voluntary outpatient program for those 65 and over; therapy and support tailored to meet older adults' needs
         5. Coping and communication skills; 36% overall improvement at discharge; 56% improvement on depression scale, 51% improvement on clinical outcomes in evaluation
         6. Other outpatient programs show 84% reduction in hospitalizations, 58% reduction in ER visits, which reduce health care costs
         7. BH providers and family – can see changes in client's mood, behavior, daily activities; early intervention is best
         8. Older adults' decline in activities – not making appointments, not doing self-care or errands, not cleaning, loss of sleep, sadness, fatigue, difficulty making decisions, feeling of worthlessness
         9. 2 therapists (CBT), physical care: Ericka is RN – monitoring vitals, addressing sleep quality, hygiene; coordinator with doctors
         10. Case Management, transportation, provide resource lists
         11. Referral Process – anyone can make a referral; observe symptoms, collect client's contact info (phone #), submit to SLS (name, DOB, reason)
         12. MH is just as important as physical health, especially for seniors
         13. Be proactive, reach out to SLS with referrals/questions; together a meaningful difference can be made (see hand-outs: business cards, pamphlets, etc.)

14. EPHC is developing a similar (but separate) program – hope to open in the fall (interviewing for program director and therapist).

ii. Schedule is in process, with the next few months as follows:
1. July: Plumas Rural Services (PRS)
2. August: Eastern Plumas Health Care (Jesslan, EPHC)

c. Housing projects/plans for BH clients
i. Sharon reported that RCHDC sent an email saying they may not be able to complete a project for PC due to short timeline and lack of funding.
ii. We will have to do an RFP to find another developer. Mimi knows someone who might be willing to consult with us.

3. Behavioral Health Department

a. Director's Report (Sharon Sousa)
i. Staffing – good news: Keegan Hood is now licensed – now have 3 licensed therapists; new site coordinator: Dakota; posted for a CM and Continuum Care Coordinator (for housing, court reports, IMD's, etc.); bad news – practicum student Mahlia Armitage has resigned (was pursuing MSW); PC has some teenage girls who need long-term providers (one has had 6 therapists); 2 social services staff will become practicum students (short-term).
ii. Greenville/Taylorsville numbers: 55 residents receiving services (from 2023) – only 5 sessions held in shared PDH Greenville office. Mimi said the BoS is talking about rebuilding public buildings. There are other offices/spaces which may be able to provide space for case management (Vets Hall, Indian Valley School, Round-house council, etc.).
iii. Budget time – SUD and MHSA funding is okay, MH program is expanding more than bringing in revenue (Cal-AIM's amount is going down). Lack of therapists means not enough billable hours. Our provider contracts are very expensive, and they often have waitlists (e.g. after-hours psychiatrists, telehealth therapists). $4 million shortfall.
iv. Big audit seems to have gone well; still submitting some paperwork; it will be some months before we know the results.

b. Quality Assurance Improvement (Jessica McGill) – see separate report
i. May was very busy. EQRO review was heavy on data – they are waiting for results (probably will not hear anything until September 2025). Triennial review – seemed to go well.
ii. DHCS Correspondence and BHINs
1. 25-018 Payer of Last Resort – DNA
2. 25-019 Transgender, Gender Diverse, Intersex Cultural Competency – required training (will be done in August) – will be open to other providers in community (at Vet's Hall)
3. 25-020 Adult & Youth Screening – required to use this new tool which allows more flexibility for "screening-in" especially for SMI population
4. 25-021 MHSA county population – for funding allotment
5. 25-022 Launch of web-based MH forms
6. 25-023 supersedes 22-045 regarding sanctions for non-compliance

iii. Access and Utilization for May
1. 274 open charts, 205 unduplicated clients, 75% penetration rate (goal = 80%)

2. 84 youth (big increase from previous month); 122 adults
3. New Intakes: 27
4. Crisis Services: 48 (21% in jail)
5. Mobile Crisis Unit: 4
6. Psych Placements: 4
7. 5150's: 10

iv. Grievances – 1 confidentiality, 1 change of provider
v. Next QIC meeting will be August 28th at 10 am

c. MHSA Report (Kristy Pierson)
   i. May was MH Awareness month – gave out wellness kits to specified grade levels (some leftover kits are available)
   ii. MHSA did their audit – they received one finding re: individuals getting connected with services in the community
d. BH Commission Information and Improvement – N/A

Public Comment – N/A

Adjourned as BH Commission and reconvened as AOD commission.

Alcohol and Other Drug Advisory Board

1. **Action Agenda**

2. **Informational Announcements & Reports**
   a. AOD Report (Gary Sanderson) – see separate report
      i. Very busy with the big audit – preliminarily there were 9 corrective actions (down significantly from previous years); they are working on this.
      ii. Monitoring for contract providers (e.g. Granite, Aegis narcotic treatment program, PDH)
      iii. Open Substance Use Block Grant CAP – 6 open years of CAPS – working on corrective action plan for 2023-24; they have submitted plan for 2022-23.
      iv. Charles Abernathy is new staff – in training and co-facilitating groups.
   b. Quality Assurance Improvement
      i. BHINs – nothing new
      ii. Access and Utilization for May

         2. 5 youth (voluntary), 25 adults
         3. New intakes: 7 (up from last month)
         4. 0 residential placements
         5. No grievances to report

PLUMAS COUNTY
BOARD OF SUPERVISORS
MEMORANDUM

TO:	**Honorable Chair and Board of Supervisors**
FROM:	**Kevin Goss, Supervisor - District 2, Chair**
MEETING DATE:	**September 16, 2025**
SUBJECT:	**Adopt Policy on Plumas County Sick Leave for Elected Department Heads; not approved as to form by County Counsel; discussion and possible direction to staff.**

Recommendation:
Adopt Policy on Plumas County Sick Leave for Elected Department Heads; not approved as to form by County Counsel; discussion and possible direction to staff.

Background and Discussion:
Elected Department Heads in Plumas County do not earn sick or vacation leave while serving in office. In the past, Plumas County has allowed classified employees who later become Elected Department Heads to "freeze" their sick leave. This frozen sick leave could be paid out when they left county service, following the Personnel Rules.

Until now, there has been no written policy about paying out this previously earned sick leave. The County past practice has been to note the amount of sick leave on the employee's Personnel Action Form. Because of inconsistent record-keeping about pay rates, Plumas County needs a clear policy that:

- Addresses the lack of policy for current Elected Department Heads
- Provides clear rules for future Elected Department Heads

Action:

Adopt Policy on Plumas County Sick Leave for Elected Department Heads; not approved as to form by County Counsel; discussion and possible direction to staff.

Fiscal Impact:

Possible General Fund Impact.

PLUMAS COUNTY SICK LEAVE POLICY FOR ELECTED DEPARTMENT HEADS		1
	Originally Adopted:	Last Revised Date:

Introduction

This policy sets guidelines for paying out sick leave that Elected Department Heads earn during time as a classified employee. We created this policy to make clear how elected department heads can use sick leave they earned while working as regular county employees. The purpose of this policy is to provide guidance as to payment of previously accrued sick leave to future elected department heads, and to provide clarity and consistency to current Elected Department Heads.

Scope

This policy applies to all individuals who:

- Serve as Elected Department Heads in Plumas County; and
- Previously worked as classified employees for the county; and
- Earned sick leave during their time as classified employees

This policy does not apply to Appointed Department Heads or members of the Board of Supervisors.

Background

Elected Department Heads in Plumas County do not earn sick or vacation leave while serving in office. In the past, Plumas County has allowed classified employees who later become Elected Department Heads to "freeze" their sick leave. This frozen sick leave could be paid out when they left county service, following the Personnel Rules.

Until now, there has been no written policy about paying out this previously earned sick leave. The County past practice has been to note the amount of sick leave on the employee's Personnel Action Form. Because of inconsistent record-keeping about pay rates, Plumas County needs a clear policy that:

- Addresses the lack of policy for current Elected Department Heads
- Provides clear rules for future Elected Department Heads

COUNTY OF PLUMAS, CALIFORNIA

Policy Statement

1. **Sick Leave for Classified Employees Who Become Elected Officials**

    - All Elected Department Heads who earned county sick leave before taking office can receive payment of a portion of their sick leave balance when they leave county service in good standing.
    - The payment amount will be based on their years of service, as stated in the Plumas County Personnel Rules.
    - "Good standing" means an Elected Department Head who retires, resigns, or does not win re-election. An Elected Department Head removed from office through a court proceeding for willful or corrupt misconduct will not be in good standing and cannot receive sick leave payment.
    - Elected Department Heads may choose to:
        - Receive payment when they leave their classified position, o*r*
        - "Freeze" their sick leave to be paid when they leave elected office
    - If they choose to receive payment when leaving elected office, they may take a cash payment or convert the sick leave to pay for health insurance premiums as allowed by Personnel Rules.
    - If a classified employee belongs to a bargaining unit that allows converting sick leave to service credits, this conversion must happen when they leave their classified position.
    - Time served as an Elected Department Head counts toward years of service when calculating the percentage of sick leave paid.
    - Elected Department Heads do not earn additional sick leave while serving in office.

2. **Pay Rate for Current Elected Department Heads**

    - Elected Department Heads who are in office when this policy takes effect, or who leave elected service in 2025, will have their sick leave paid at their final pay rate as an Elected Department Head.
    - They may also convert this sick leave to Health Insurance Premiums at this rate.
    - This change is to address the lack of a written policy in the past.

3. **Pay Rate for Future Elected Department Heads**

    - Elected Department Heads who take office after December 31, 2025, and choose to "freeze" their sick leave, will have their sick leave frozen at their pay rate as a classified employee at the time they became a department head.

    - Their classified pay rate will also be used to convert their sick leave to Health Insurance Premiums at this rate

Implementation

1. **Administrative Process**

    - Starting December 31, 2025, the Human Resources Department will create a form to attach to the Elected Department Head's transitional Personnel Action Form (PAF) that documents:

- The amount of accrued sick leave
- The applicable pay rate when a classified employee becomes an elected department head
- The employee's current years of service

  - The Auditor/Controller's Office will process and pay out the accrued sick leave following Section 20.01(3) of the Plumas County Personnel Rules.
  - A record of any sick leave paid out before taking office will be kept in the employee's personnel file.

INSTRUCTIONS ON HOW TO COMPLETE THE COVER SHEET

To Plaintiffs and Others Filing First Papers. If you are filing a first paper (for example, a complaint) in a civil case, you **must** complete and file, along with your first paper, the Civil Case Cover Sheet contained on page 1. This information will be used to compile statistics about the types and numbers of cases filed. You must complete items 1 through 6 on the sheet. In item 1, you must check **one** box for the case type that best describes the case. If the case fits both a general and a more specific type of case listed in item 1, check the more specific one. If the case has multiple causes of action, check the box that best indicates the **primary** cause of action. To assist you in completing the sheet, examples of the cases that belong under each case type in item 1 are provided below. A cover sheet must be filed only with your initial paper. Failure to file a cover sheet with the first paper filed in a civil case may subject a party, its counsel, or both to sanctions under rules 2.30 and 3.220 of the California Rules of Court.

To Parties in Rule 3.740 Collections Cases. A "collections case" under rule 3.740 is defined as an action for recovery of money owed in a sum stated to be certain that is not more than $25,000, exclusive of interest and attorney's fees, arising from a transaction in which property, services, or money was acquired on credit. A collections case does not include an action seeking the following: (1) tort damages, (2) punitive damages, (3) recovery of real property, (4) recovery of personal property, or (5) a prejudgment writ of attachment. The identification of a case as a rule 3.740 collections case on this form means that it will be exempt from the general time-for-service requirements and case management rules, unless a defendant files a responsive pleading. A rule 3.740 collections case will be subject to the requirements for service and obtaining a judgment in rule 3.740.

To Parties in Complex Cases. In complex cases only, parties must also use the Civil Case Cover Sheet to designate whether the case is complex. If a plaintiff believes the case is complex under rule 3.400 of the California Rules of Court, this must be indicated by completing the appropriate boxes in items 1 and 2. If a plaintiff designates a case as complex, the cover sheet must be served with the complaint on all parties to the action. A defendant may file and serve no later than the time of its first appearance a joinder in the plaintiff's designation, a counter-designation that the case is not complex, or, if the plaintiff has made no designation, a designation that the case is complex.

EX PARTE PETITION FOR TEMPORARY INJUNCTION ON FURTHER CONSTRUCTION OF A CELL PHONE TOWER LOCATED AT 1006 POWERLINE ROAD, GREENVILLE RD, CA 95947

Date: September 3, 2025

Date: 9/4/25
Time: 9:00AM
Dept: 2

TO THE HONORABLE COURT:

INTRODUCTION

The County of Plumas respectfully submits this ex parte application for a temporary injunction to prevent further construction of a cell phone tower on private property located at 1006 Powerline

Rd, Greenville, Ca 95947, near Native American burial grounds and to set a date for a full evidentiary hearing. This application is brought pursuant to Cal Code Civ Proc § 527 and related statutes.

FACTUAL BACKGROUND

The property at issue is located at 1006 Powerline Road, Greenville, Ca 95947, where construction of a cell phone tower is currently underway. Adjacent to this property lies a site of significant cultural and historical importance: Native American burial grounds that have been in use for hundreds of years and are protected under Federal and California law. These burial grounds are sacred to the Washoe family of Native Americans and are recognized as a vital part of their cultural heritage. Although the Plumas County Building Department issued a building permit for the tower, this was a purely ministerial act, and the County would be able to demonstrate that the permit was issued without proper consideration of laws protecting Native American burial sites. It has, very recently, come to the attention of the County that the cell phone tower is being built close to the Washoe Family traditional burial grounds. This cemetery has been in use for hundreds of years and there are concerns that have been expressed by the Washoe Family members that some of the older burial sites may not have any markers and the construction may disturb the remains that are buried in this area. Plumas County is requesting that all construction be halted in order to ensure that the remains interred in this area, and the site itself are treated with the deference and respect that they are due. As the Respondents have indicated their intent to pour the concrete footings today, Petitioner is requesting a temporary halt of construction activities to ensure that all appropriate safeguards have been put in place for the proposed site.

The construction activities pose an imminent threat to the integrity of the burial grounds, including but not limited to; potential excavation, vibration damage, and other disturbances.

Immediate judicial intervention is necessary to prevent irreparable harm to this culturally significant site. Additionally, the County and tribal representatives are requesting the installation of a tribal monitor pursuant to the guidelines in the Native American Graves Protection and Repatriation Act (NAGPRA).

LEGAL BASIS FOR RELIEF

1. **Standards for Injunctive Relief**

Under California law, injunctive relief is appropriate where there is a showing of irreparable harm, a likelihood of success on the merits, and a balance of equities favoring the applicant. The County satisfies these criteria:

- **Irreparable Harm**: The destruction or disturbance of Native American burial grounds constitutes irreparable harm, as such damage cannot be undone. Any disturbance of the Native Americans at rest in the burial grounds, which have been in use continuously for centuries for the Washoe Family, would cause such harm to the Washoe Family that no court could ever provide sufficient relief to make them whole again.
- **Likelihood of Success**: The County is likely to prevail on the merits under the Native American Historic Resource Protection Act, which prohibits the destruction or defacement of Native American cultural sites. Under California law, Native American burial sites are afforded certain protections, even on private land, through statutes such as *Cal Pub Resources Code § 5097.94, Cal Pub Resources Code § 5097.98*, and *Cal Pub Resources Code § 5097.99*. These statutes emphasize the importance of treating Native American burial sites and associated remains with dignity and ensuring consultation with Native American descendants or the Native American Heritage Commission (NAHC). At this time, there has been no indication that any discussions have taken place between any of the Respondents and the Washoe Family in regard to the safeguarding of their sacred site.
- **Balance of Equities**: The potential for harm to the burial grounds far outweighs any inconvenience to the construction project, which can be temporarily halted without

significant prejudice whereas any harm to the burial grounds of the Washoe Family would never be repaired.

- **Native American Historic Resource Protection Act**: The Act provides for the protection of Native American burial grounds and prohibits their unlawful excavation or destruction. The ongoing construction activities threaten to violate these protections, necessitating immediate judicial intervention. The County desires to ensure that the proposed construction does not negatively impact the cemetery and that appropriate protections are in place. The Plumas County Planning Director has requested documents from Respondents to ensure compliance with FCC regulations and NEPA compliance on September 2, 2025, and the County is waiting for those documents to be produced but more time is needed to ensure compliance with these regulatory bodies.

PROCEDURAL REQUIREMENTS

This application complies with the procedural requirements for ex parte relief:

- **Notice**: The County requests that notice be waived due to the immediate danger posed by the construction activities, although appropriate notice will be provided upon issuance of the temporary injunction. "(c) No temporary restraining order shall be granted without notice to the opposing party, unless both of the following requirements are satisfied: (1) It appears from facts shown by affidavit or by the verified complaint that great or irreparable injury will result to the applicant before the matter can be heard on notice. (*Cal Code Civ Proc § 527).* The Petitioner is reliably informed that concrete for the footing is being planned to be poured today, September 3, 2025. Should the construction continue, irreparable injury will be caused to the resting place of hundreds of years of Washoe Family members.
- **Factual Showing**: The Petitioner has attached letters (Exhibit A and B) from the Plumas County Board of Supervisors as well as Dwayne Anthony Washoe Jr., demonstrating and describing irreparable harm and immediate danger to the burial grounds. Declarations

were unavailable due to the very short notice that the County received of these activities but is another reason why more time is needed to ensure the respectful and appropriate treatment of these ancient burial grounds.

REQUEST FOR RELIEF The County respectfully requests that the Court issue a temporary injunction:

1. Halting all construction activities related to the cell phone tower on the property located at 1006 Powerline Rd., Greenville, Ca, 95947.
2. Preserving the status quo pending a full evidentiary hearing on the matter at the convenience of the Court.

CONCLUSION

For the foregoing reasons, the County respectfully requests that the Court grant this ex parte application for a temporary injunction to protect the Native American burial grounds from irreparable harm until a full evidentiary hearing can be held, and any other relief be granted that the Court considers proper in order to preserve this important cultural site.

Re: Opposition to Proposed Cell Tower Development in Greenville, California

Dear Verizon Wireless Leadership,

As Plumas County Supervisor for District 2, I am writing to express my strong opposition—and that of many community members—to the proposed cell tower site in Greenville on Power Line Road. While I fully support improved connectivity and recognize the vital role reliable communication plays in our rural county, this project does not at all reflect a thoughtful or appropriate balance between technology and community values.

The area you have identified is still reeling from the massive devastation of the Dixie Fire. Families are only beginning to rebuild their homes, their lives, and their sense of stability. Our residents are working hard to restore not only structures, but the deep sense of community, beauty, and stewardship that has defined this region for generations. The introduction of a large, industrial tower into the heart of this recovery zone risks undermining that effort in profound and lasting ways.

Of particular concern is the tower's proximity to the Washoe family cemetery, a site of cultural, spiritual, and historic importance for the tribal and broader community. To erect such a structure nearby demonstrates a lack of sensitivity to the Indigenous people of this land and to the memory of their ancestors. At a time when we should be honoring heritage and respecting the sacred, this proposal threatens to do the opposite.

In addition, the tower would impose real economic harm. Homeowners who have poured their time, energy, and funds into rebuilding after catastrophic loss are now being asked to shoulder an additional burden—the loss of property value directly tied to industrial encroachment. Those who have not yet rebuilt, already struggling under the strain of loss and displacement, now face the added uncertainty of whether their homes and neighborhoods will ever again feel whole.

Connectivity is essential, and I am eager to work with Verizon and other providers to find solutions that expand access without compromising the integrity of the places we love. But progress cannot come at the expense of a community that has already endured so much. A project of this nature requires not just technical feasibility but cultural awareness, environmental stewardship, and respect for those most directly impacted.

I respectfully urge Verizon to withdraw this proposal and engage in a collaborative process with Plumas County, tribal representatives, and local residents to identify alternative solutions that meet our shared goals. With care and partnership, we can strengthen communication infrastructure while also honoring the resilience, dignity, and future of this community.

Thank you for your time and thoughtful consideration.

Sincerely,

Kevin Goss

Statement Regarding Proposed Verizon Cell Tower Near the Washoe Family Cemetery

My name is Dwayne Anthony Washoe Jr., and I am here today to speak on behalf of the Washoe family and the Washoe family cemetery.

The Washoe Cemetery is more than just a resting place. It is sacred ground, a place of history, remembrance, and respect for our loved ones and ancestors. Families come here to grieve, to honor, and to find peace. For generations, this land has been set aside as a place of dignity and reflection, and it holds deep personal and cultural meaning to us.

The proposed construction of a Verizon cell tower on Sierra Pacific Industries (SPI) land in such close proximity to this cemetery raises serious concerns. The burial grounds of the Washoe family cemetery are positioned to face west, in alignment with long-held spiritual and Native beliefs. This orientation is deeply meaningful and intentional, reflecting respect for tradition and cultural practices. The fact that this tower would stand in clear eyesight of these sacred grounds directly disrupts that spiritual connection and the peace this place is meant to provide.

It is also important to note that the Washoe burial sites are not limited to the marked cemetery. There are older, unmarked burial grounds outside the cemetery boundaries that date back hundreds of years. These sites cannot be easily seen today, yet they remain sacred, carrying with them history and ancestral ties that must be respected. Any development in this area risks disturbing these unmarked graves and erasing pieces of history that cannot be replaced.

We are also concerned about long-term impacts to the land itself. Construction activities could risk disturbing the soil, water, and natural setting around the cemetery. The presence of heavy equipment and infrastructure may alter the environment in ways that are permanent and irreversible.

Beyond physical impacts, there is the moral obligation we all share to protect sacred ground. Cemeteries and ancestral burial sites are places that deserve respect, quiet, and preservation. Allowing such a project to move forward here would set a precedent that commercial interests can outweigh the dignity of our families and our history.

We are not against progress, technology, or better communication services. But there are countless other locations where a cell tower could be placed without encroaching on a cemetery or ancestral burial grounds and the sacred memories they hold.

On behalf of the Washoe family and all who care about preserving this place, I, Dwayne Anthony Washoe Jr., respectfully urge Verizon and Sierra Pacific Industries to halt ongoing construction immediately and reconsider this project's location. We ask that the sanctity of the Washoe Cemetery, along with the unmarked ancestral burial grounds surrounding it, be honored and protected, and that a new, more appropriate site be selected—one that does not come at the expense of our history, our culture, and the respect due to those who came before us.

Thank you. D.A. Date: 9-1-25
