4. Bi-annual Report from Caltrans on the Greenville SR 89 Rehabilitation Project – Eric Orr

Eric Orr gives a 6 month status report on the SR 89 project in Greenville.

Plans and Estimate for landscaping have been moved to July 1, 2015 as scope issues with the Greenville Streetscape Committee and loss of funding. The County has applied for \$1.8 million from the Active Transportation Fund (ATP). If approved, then the appropriate amount of STIP funds can be removed from the project and directed towards other local STP projects. Announcements for the approval of the ATP funds are expected on August 10th.

Eric states that there is a maintenance agreement being ratified between Caltrans and the County to maintain the projects improvements. In addition, Greenville Streetscape Committee is finalizing its project scope review, which has resulted in scope changes, including narrower sidewalks, less pedestrian lighting and less landscaping.

The 6 month forecast is to determine if the Indian Valley CSD utility project will conflict with project due to the lack of the CSD's funding. This may cause a delay to the project.
