Notes to Appropriations Limit Worksheet
For the Year Ended June 30, 2019

NOTE 1: PER CAPITA PERSONAL INCOME FACTOR

The per capita personal income factor was obtained by using the percentage factor from the State Department of Finance letter dated May 1, 2018. The CPI change was 3.67 percent. This percentage was converted to a ratio and for calculation purposes was 1.0367.

NOTE 2: POPULATION CHANGES

There are three methods of calculating the change in population that a County may choose in determining the Gann Limit. 1) The change in population within its jurisdiction; 2) The change in population within its jurisdiction, combined with the changes in population within all counties having borders that are contiguous to that county; 3) The change in population within the incorporated portion of the county. The County may use either of these methods in any year.

The County has elected to use the change in population within its jurisdiction (method 1). The population change percentage for the County was taken from the May 1, 2018 letter from the State Department of Finance. This combined percentage was converted to a ratio and for calculation purposes was .9977.

NOTE 3: APPROPRIATIONS LIMIT

The County has calculated the proceeds of tax for the year ended June 30, 2019 as \$17,295,466. The Appropriations Limit for the year ended June 30, 2019 is \$35,091,705, therefore, the proceeds of tax is \$17,796,239 less than the Appropriations Limit. The proceeds of tax are 49.3 percent of the Limit.
