

Notice of Intent to Adopt  
Negative Declaration 674  
Telecommunications Ordinance  
Unincorporated Area of Plumas County, CA

Notice is given that Negative Declaration 674 has determined that this project will not have a significant effect on the environment.

The project is the fulfillment of General Plan Goal 1.9 Communication Infrastructure and Policy 1.9.1 Communication Tower Location Criteria which states, "The County shall provide site development criteria in the County's Zoning Code." The project involves the development and adoption of a Telecommunications Ordinance that will implement a comprehensive set of standards for the design and placement of telecommunications facilities in the unincorporated area of Plumas County. Telecommunications facilities would be reviewed through discretionary review (special use permit), as well as through ministerial review via a new ministerial permit type (zoning clearance certificate). The facilities regulated by the proposed Ordinance are new tower or pole facilities, pole mounted facilities, building mounted facilities, co-located facilities, and pre-existing facilities. The Ordinance would regulate all zones, with the Timberland Production Zone (TPZ) being exempt. Telecommunications facilities in the Open Space (OS) and Lake (L) zones would not be permitted under the proposed Ordinance.

This document is proposed to be adopted and has been filed with the Plumas County Planning Department. It is now available for inspection and review.

The review period for this document is from September 17, 2018, through October 17, 2018. Written comments concerning this document will be accepted through the last day of the review period. A public hearing will be held before the Plumas County Planning Commission on October 18, 2018.

For further information on this, contact: Tim Evans at the Plumas County Planning and Building Services Permit Center, (530) 283-7011, 555 Main Street, Quincy, CA 95971.

Please post: Plumas County Clerk/Recorder
