RE: March 1, 2019 CERS Submittal Deadline

To Whom It May Concern:

Environmental Health must now require all hazardous materials facilities to update their CERS information by March 1st of each year. Please login to your California Environmental Reporting System (CERS) account and complete a full 2019 submittal for your facility/facilities on or before **March 1, 2019**.

This change is according to California Health and Safety code 6.95 section 25508(a)(1). It will help us process your consolidated permit in a timely and efficient manner, but it will not change your annual billing schedule or permit expiration date.

Even if you recently updated CERS in 2018, you must renew your submittal for 2019 no later than March 1, 2019.

I apologize for any extra work or confusion this may cause. If you have any questions or need any additional information, please do not hesitate to call Eric Caubo or Trinity Stirling at (530) 283-6355. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerald Sipe".

Gerald Sipe
Director of Environmental Health
