Facility Name: Belden Town Resort

FAID # 78

Pg 2 of 2

Date of Inspection:

5/9/19

OBSERVATIONS AND CORRECTIVE ACTIONS

13. Various liquor items were disposed of during inspection due to vector adulteration.

34. Monitor sanitizer sink, use your QT-10 test strips to determine how many tablets are needed per batch of sanitizing water. Monitor throughout the day to maintain 200 ppm

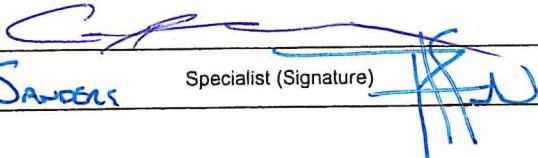

45. Corrected on site: Keep hood filters in the hood at all times during cooking process. Establish a cleaning schedule to clean one filter at a time to keep up with cleaning needs.

Note: talked with manager regarding long term goal to replace flooring in prep area. Commercial grade flooring that is durable, smooth, non-absorbant, easily cleanable & coved at floor/wall juncture.
