# PLUMAS COUNTY PLANNING & BUILDING SERVICES

555 Main Street  
Quincy, CA 95971-9143  
(530) 283-7011

[www.plumascounty.us](http://www.plumascounty.us)

## Minimum Qualifications for Archaeologists

The Plumas County Planning Department has compiled a list of archaeologists who are qualified to conduct archaeological surveys or reconnaissance within Plumas County. Firms or individuals who wish to be included on this list must demonstrate that they meet the Department of the Interior's minimum professional qualifications in archaeology.

These standards include:

- A graduate degree in archaeology, anthropology, or closely related field, plus:
  1. At least one year of full-time professional experience or equivalent specialized training in archaeological research, administration or management.
  2. At least four months of supervised field and analytic experience in general North American archaeology; and
  3. Demonstrate the ability to carry research to completion.

In addition to these minimum qualifications, a professional in historic archaeology shall have at least one year of full-time professional experience at a supervisory level in the study of archaeological resources of the historic period.

- Three years of professional experience may be substituted for a graduate degree.

If you wish to use a firm or individual who is not on our list, please send the Planning Department a statement of their qualifications. The Planning Department must approve of the firm or individual before they may be used.
