## Update on Recovery Status

- Debris Removal continues in both Warner Valley and Frenchman Lake.
- District Attorneys of Plumas, Lassen, Tehama, Shasta and Butte Counties announced they have reached a settlement with PG&E over that company's responsibility for the 2021 Dixie Fire.
- Plumas County to receive 17-million in good faith contributions to county non-profits, thanks to settlement reached with PG&E by the North State District Attorneys.
- DA Hollister answers questions about the settlement in this release (see link or QR code)

## Meeting with HUD and HCD to discuss the devastating impacts of the 2021 wildfires

On Wednesday (4/13/2022) Sheriff Johns and Emergency Services Coordinator Pam Courtright met with a multitude of other agencies to have a conversation about the fire recovery process to include: community fire breaks, defensible space and home hardening. They met in Indian Falls, Greenville and Canyon Dam. In addition, to the items above, they discussed burn scar area hazards, infrastructure damage and debris clean up progress. This time was also used to speak with representatives from HUD (Housing and Urban Development) about local impacts vs what HUD's methodology is in regard to cost recovery.

## Successful mission with Team Rubicon

Volunteers had a great time collecting and salvaging the historic bricks from the Way Station and Masonic Lodge. Big thank you to Team Rubicon for coordinating this event!
