

# ECONOMIC

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority
<b>Connected Communities Project</b>	The Connected Communities Project aims to stimulate and diversify the economies of 13 rural communities by improving trail recreation throughout the region and encourage diverse users to explore public land. Plumas County is centrally located in the entire project area and includes the project's largest land area.	Sierra Buttes Trail Stewardship	Improvements to public land, which makes up over 70% of Plumas County, will help bolster the regional economy. Plumas County currently experiences socioeconomic indicators at below the national average, and this project hopes to take advantage of a recreation industry that accounted for \$862 billion of 2021 consumer spending with trail sports and activities being the largest share.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Feasibility Study — USDA Certified Meat Processing System</b>	The feasibility study will involve conducting a cost/benefit analysis for establishing a USDA-certified meat processing facility or a mobile unit in Plumas County. This analysis will include market research to identify the demand for locally-sourced meat products, assessing the existing supply chain infrastructure, and evaluating the regulatory requirements and operational costs of the proposed meat processing system.	TBD	Small-scale ranchers in the local area struggle to access USDA-certified meat processing facilities for their livestock. This feasibility study aims to determine whether establishing a certified meat processing system will be a viable solution for ranchers in the area to reduce transportation costs and processing fees.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Feasibility Study — Countywide Gathering Places as Economic Drivers</b>  [Chester Town Plaza, Complete & Retain "The Spot" in Greenville, Quincy Visitor Center, Portola Visitor Center]	The goal of this project is to create gathering places in Plumas County that will drive economic growth in the region by attracting more visitors to the area. This includes the creation of visitor centers in Quincy and Portola, a town plaza in Chester, and the completion of the Pop-Up Business District in Greenville (The Spot) to become a permanent visitor's space and business district.	TBD	Plumas County is a rural region that has been facing declining populations and decreasing levels of business activity. One way to stimulate the local economy is by creating gathering places that showcase the unique features and attractions of the area, thereby attracting more tourists and visitors.	<b>Unknown</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Indian Valley Disaster Academy</b>	Create a dynamic facility built on the experience of a historic disaster, dedicated to preparing other "at risk" communities in helping them avoid and mitigate future disasters.	Indian Valley Innovation Hub	First, by helping other communities, our community can heal. Secondly, the Academy can provide an economic boost. By creating a world class academy that shares a mission of hope and preparedness, Plumas County can become a recognized leader in something that few others can claim.	<b>Unknown</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		

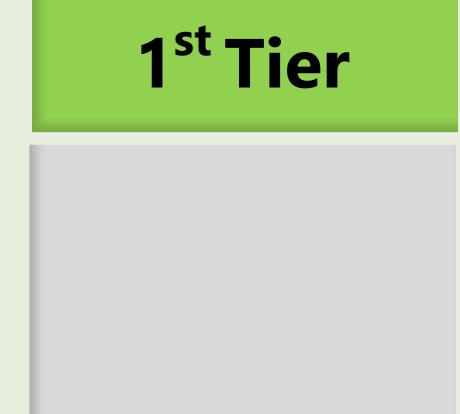

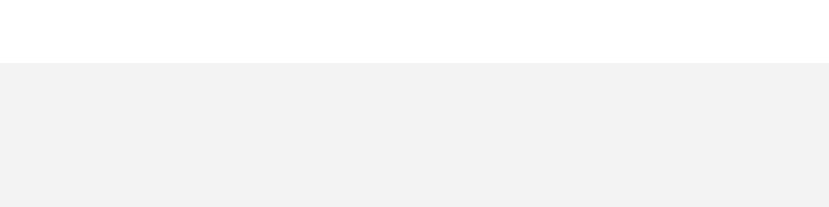

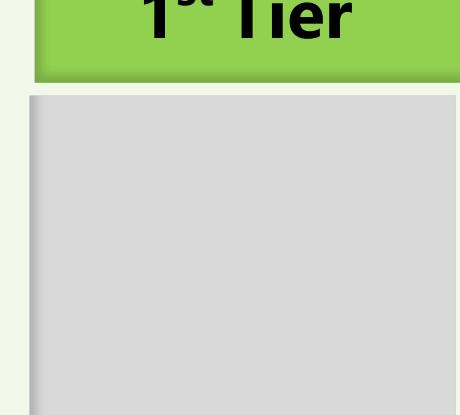

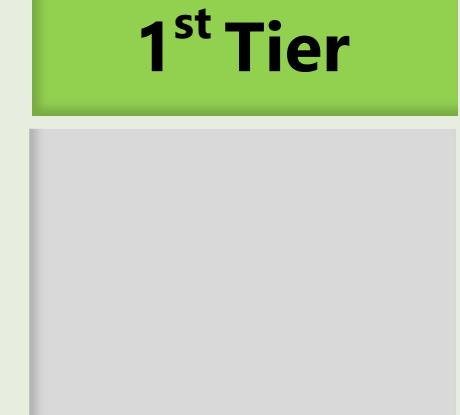

# ECONOMIC

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority
<b>Tourism Strategy</b> — Leveraging Partnerships with Like-Minded Organizations <small>[Building Rural Economies with Rural Communities Assistance Corporation, Discover the Lost Sierra Economic Development Initiative, Plumas-Sierra-Lassen Chamber Coalition]</small>	Develop and implement a comprehensive tourism strategy in the Plumas-Sierra-Lassen County region that leverages partnerships with like-minded organizations, including the Rural Community Assistance Corporation (RCAC), the Plumas-Sierra-Lassen County Chamber Coalition, and the Discover the Lost Sierra Economic Development Initiative.	<b>Blissbranding Agency, Indian Valley Innovation Hub</b>	The need to rebuild the economy of the region and attract new visitors is critical. The primary goal of this project is to transform the rural economy to create a comprehensive tourism strategy, which will provide jobs opportunities and build the capacity of local businesses and entrepreneurs.	<b>Unknown</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>Low</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier
<b>Feasibility Study</b> — Mountain Modular Home Plant	This project involves studying the feasibility of building and sustaining a facility that would construct and develop manufactured modular housing locally in Plumas County. It would consist of a modular assembly line and factory designed to construct high-quality and customizable homes using modern technology and sustainable materials. It would provide job opportunities for skilled laborers and professionals in the local community, and source materials and services locally whenever possible.	<b>TBD</b>	Plumas County has a housing crisis. Major employers have staff vacancies because lack of affordable/accessible housing and lack of good employment opportunities.	<b>Unknown</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>Low</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier
<b>Sacred Waters of Greenville Thermal Wellness Center</b>	Underground geothermal resources are plentiful in Greenville. Some geothermal waters are naturally exposed, some are developed via geothermal wells, and others remain untapped. This project will identify a suitable location within Greenville to access such waters. Sacred Waters would also be a strong educational resource to help residents maintain healthy, sustainable lives. Multi-family housing would also be built on site or nearby for staff and visitors.	<b>Ken Donnell</b>	To recover from the Dixie Fire, Greenville needs wellness services, economic development to create jobs, and workforce housing.	<b>Unknown</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>High</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier

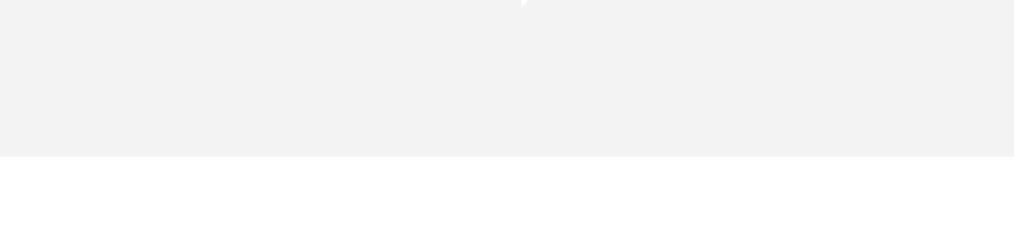

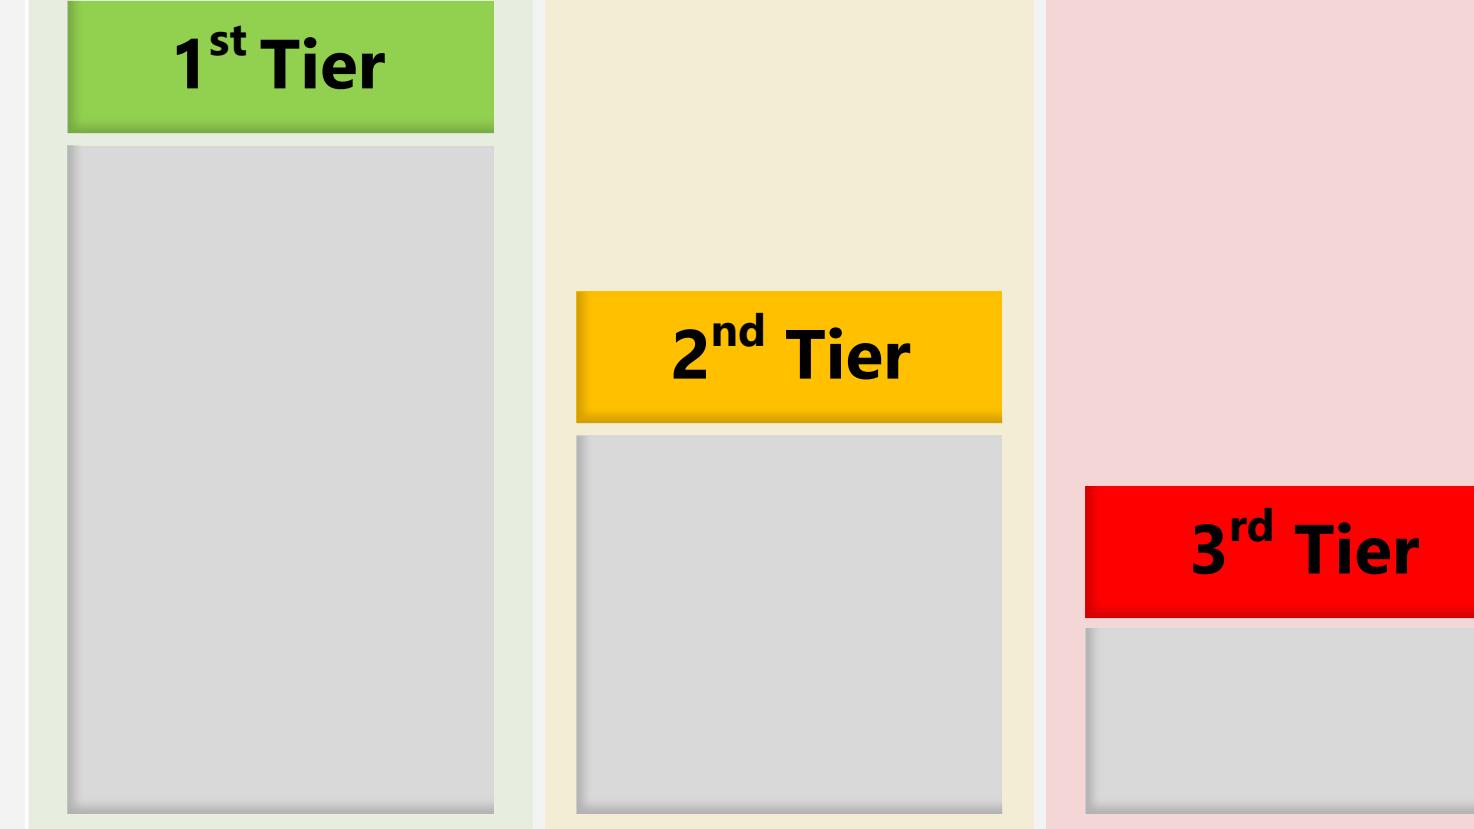

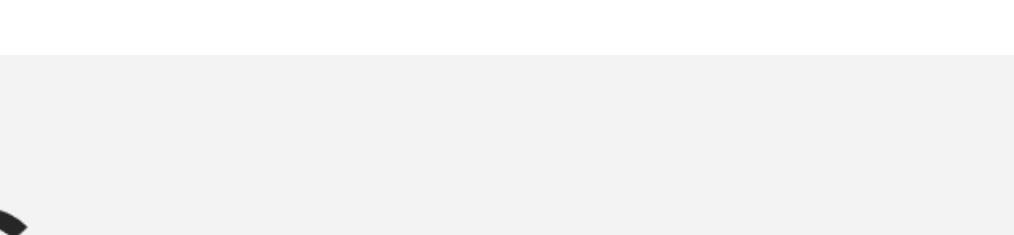

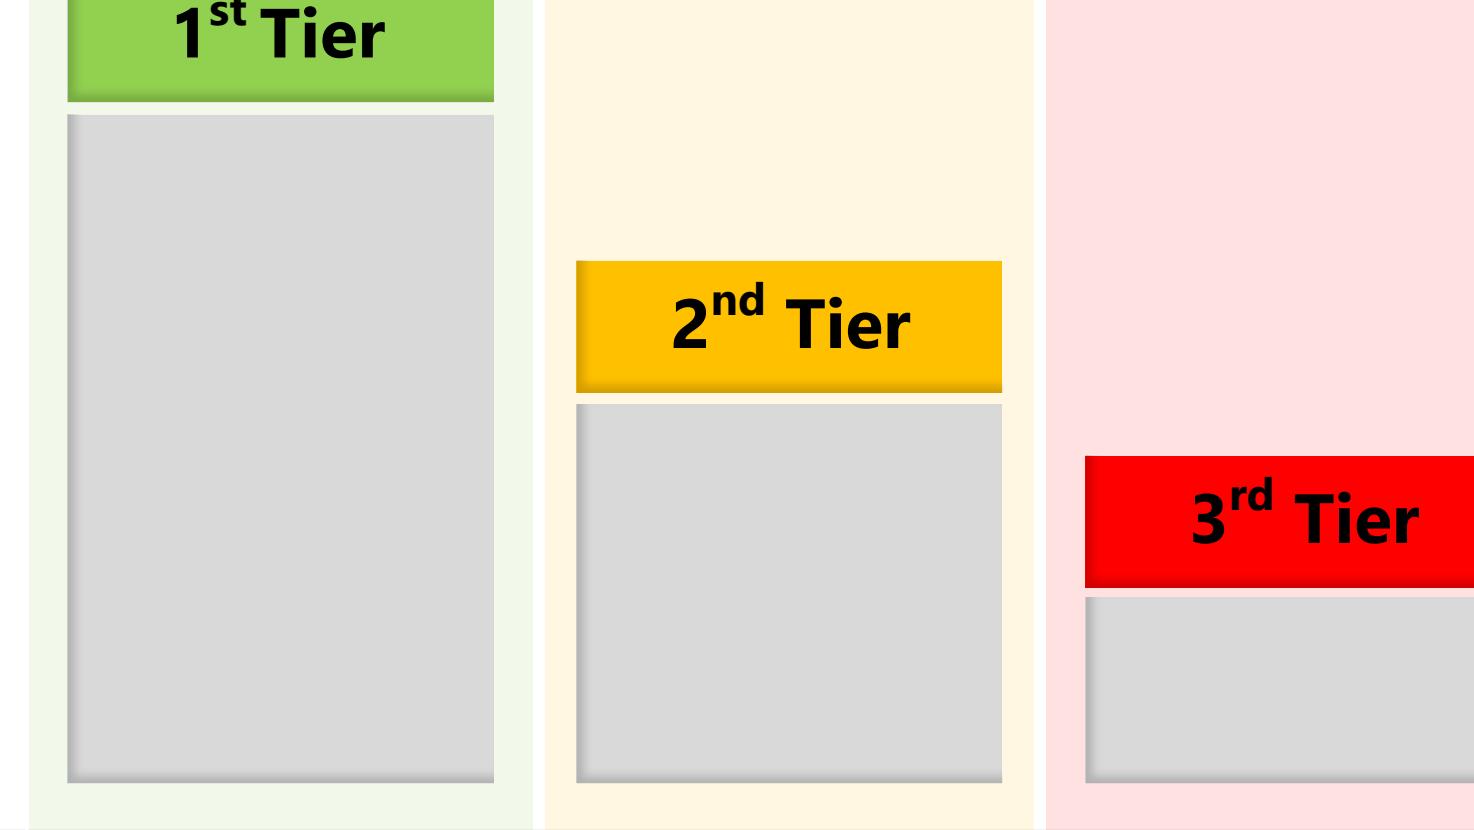

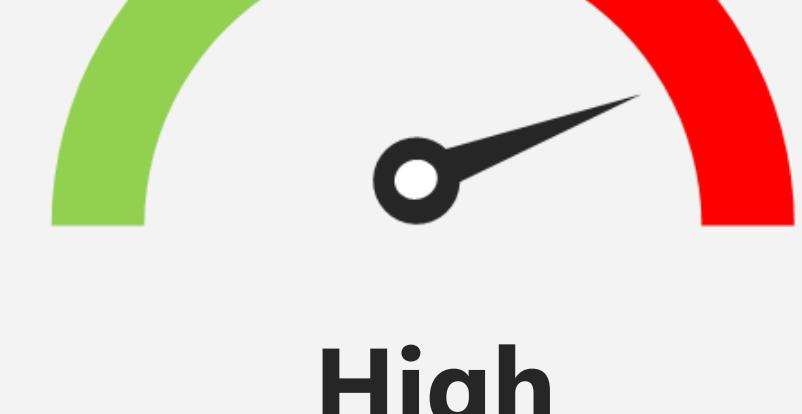

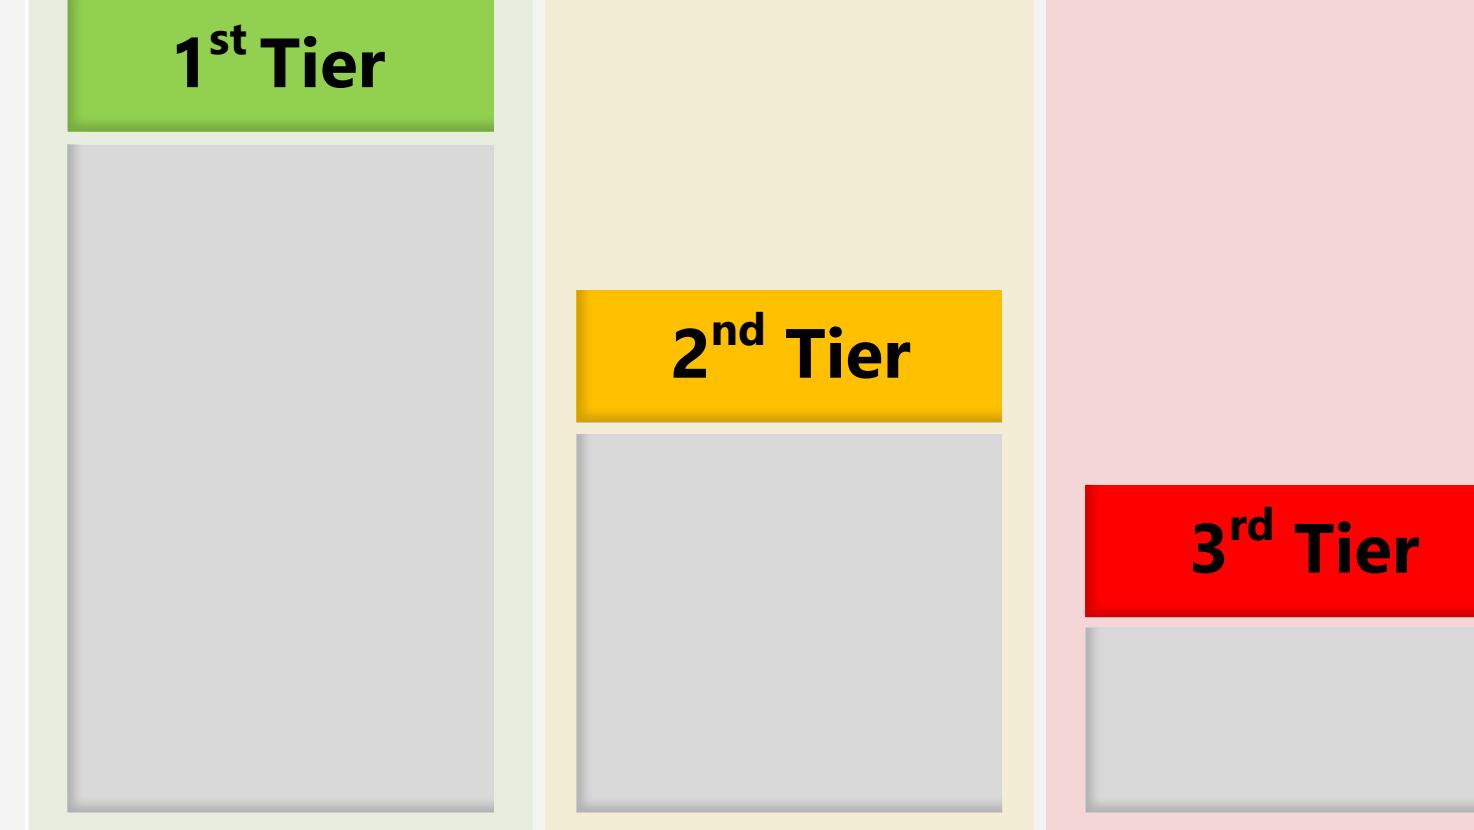

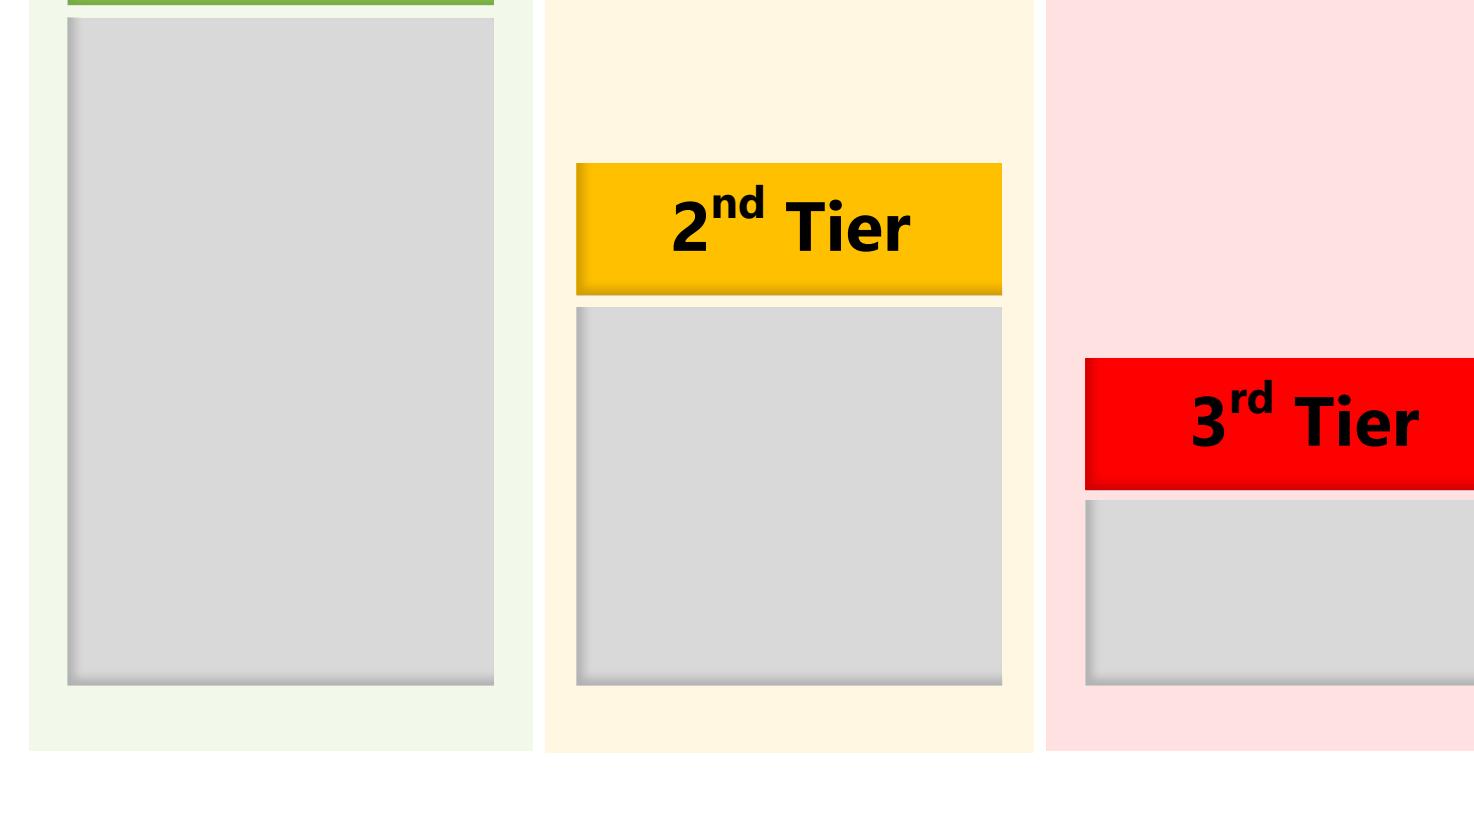

# HOUSING & COMMERCIAL BUILDINGS

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority
<b>Commercial Motel/RV Park/ Seasonal Recreation</b>	The project proposes to increase seasonal housing options in Plumas County by creating more or expanding existing RV parks, motels, and seasonal housing options.	 TBD	Plumas County experienced a significant loss of housing and infrastructure due to the 2021 wildfires, and the increased housing demand from seasonal workers, tourists, and those displaced by the fires has made it difficult for the community to accommodate everyone.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>High</b>	  
<b>Community Development Block Grant — Disaster Recovery Potential Programs</b> <small>[Residential Subsidized Housing via Multifamily Housing Program (MHP), Owner Occupied Housing Rehabilitation and Reconstruction Program (OOR) with Mitigation Set-Aside]</small>	The HUD-funded Community Development Block Grant (CDBG) Disaster Recovery (DR) Program could support an Owner-Occupied Housing Rehabilitation and Reconstruction Program (OOR) and Multifamily Housing Program (MHP) to help construct additional housing units and eligible housing-related infrastructure.	<b>Plumas County Planning and Building Services</b>	Plumas County continues to experience a significant shortage of housing units, and CBDG-DR funding could provide gap financing for those with continued unmet housing needs.	 <b>Secured</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>Low</b>	  
<b>Construction Trades Workforce Training Program</b>	The Construction Trades Workforce Training Program could be a collaborative effort between Feather River College, Plumas Unified School District, and Sierra Pacific Industries. The program would provide education and training in various construction trades, such as carpentry, electrical, and plumbing. The program includes hands-on training, classroom instruction, and job placement assistance.	 TBD	There is a significant shortage of skilled workers in the construction trades to support the rebuilding and restoration efforts in Plumas County.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>Low</b>	  
<b>Development and Land Use Patterns</b> <small>[Countywide Residential Codes and Standards, Countywide Planning &amp; Zoning, Greenville Downtown Design Guidelines, Greenville Commercial &amp; Mixed-Use Development Market Analysis, Housing Market Study &amp; Affordable Housing Needs Assessment (Countywide)]</small>	The project goal is to conduct activities that support housing and other development that will encourage recovery redevelopment and reduce costs.	<b>Plumas County Planning and Building Services</b>	This project incorporates the County's efforts to comply and help educate residents and construction stakeholders to reduce regulatory burdens and streamline construction, research demand for housing and commercial development, and promote design and development standards for a	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>Medium</b>	  

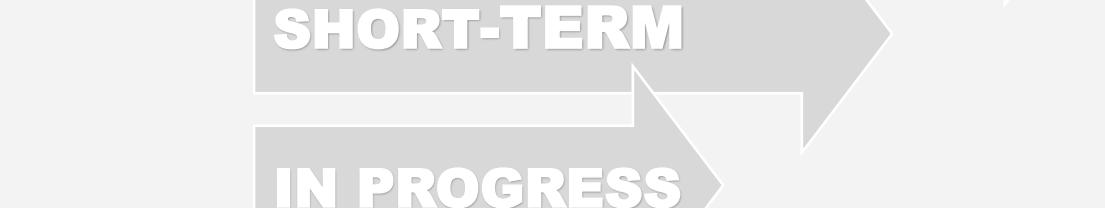

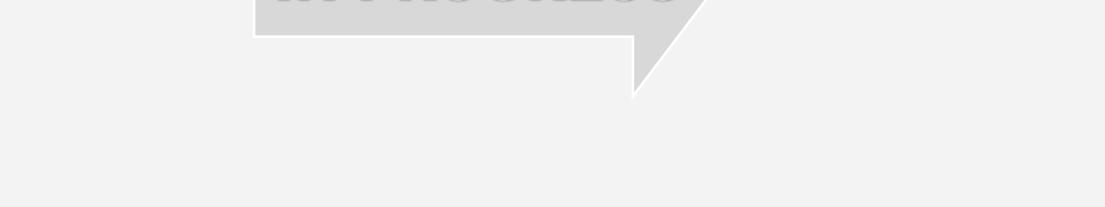

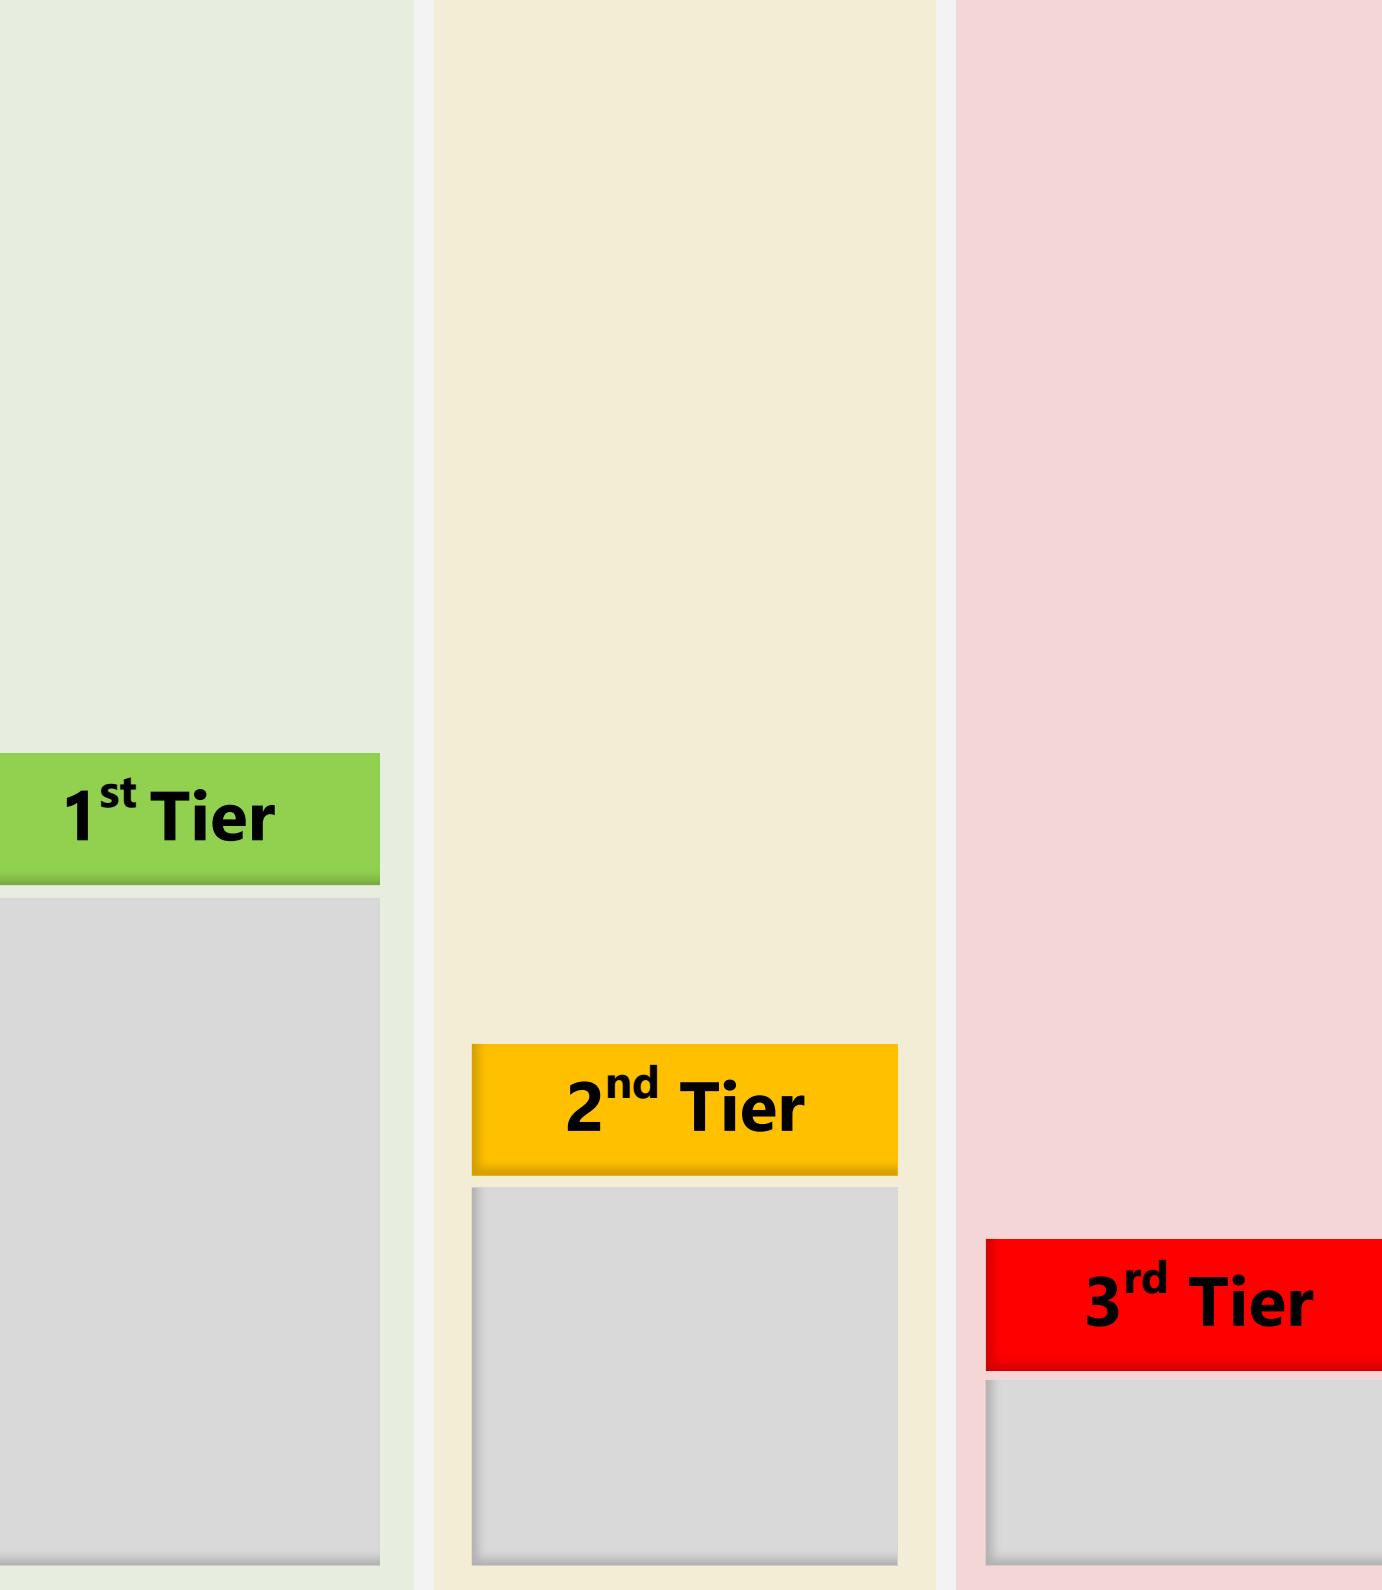

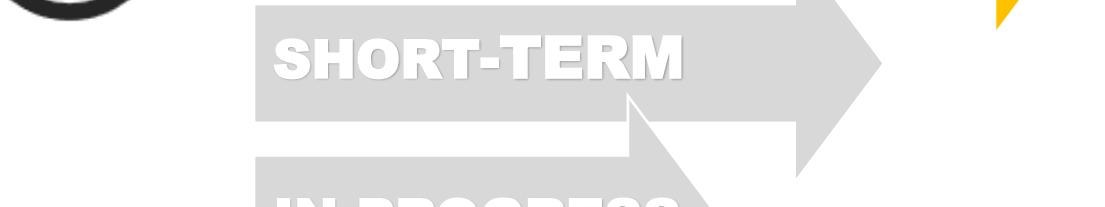

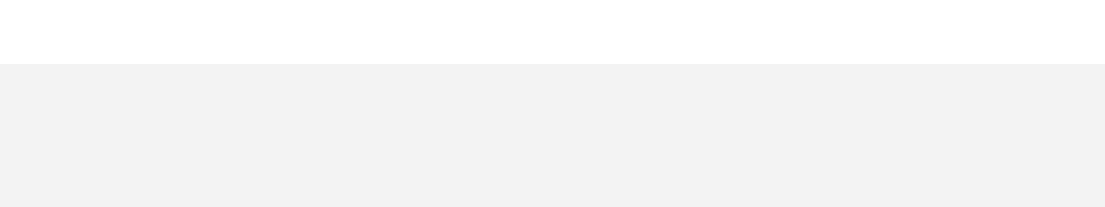

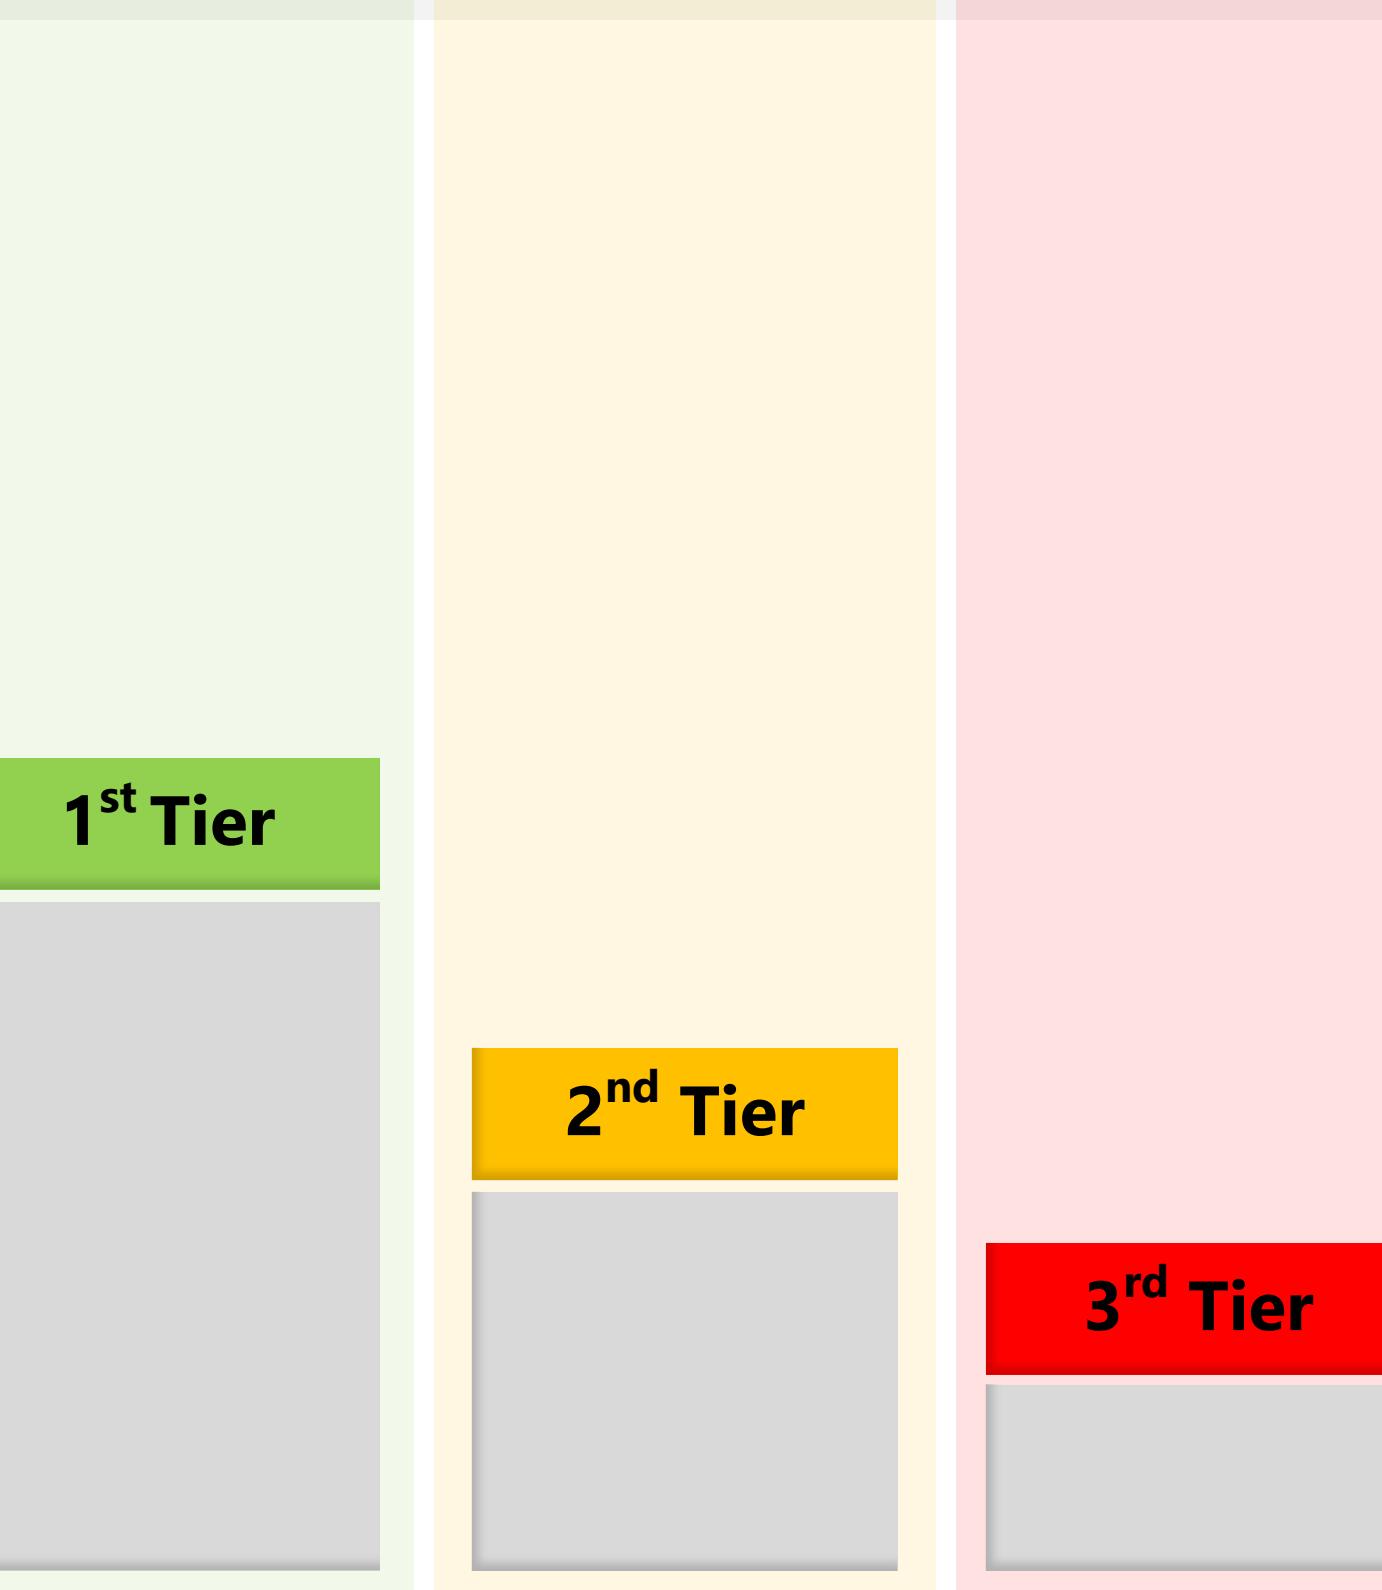

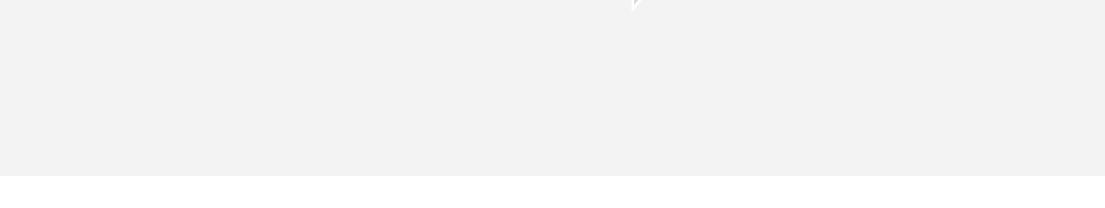

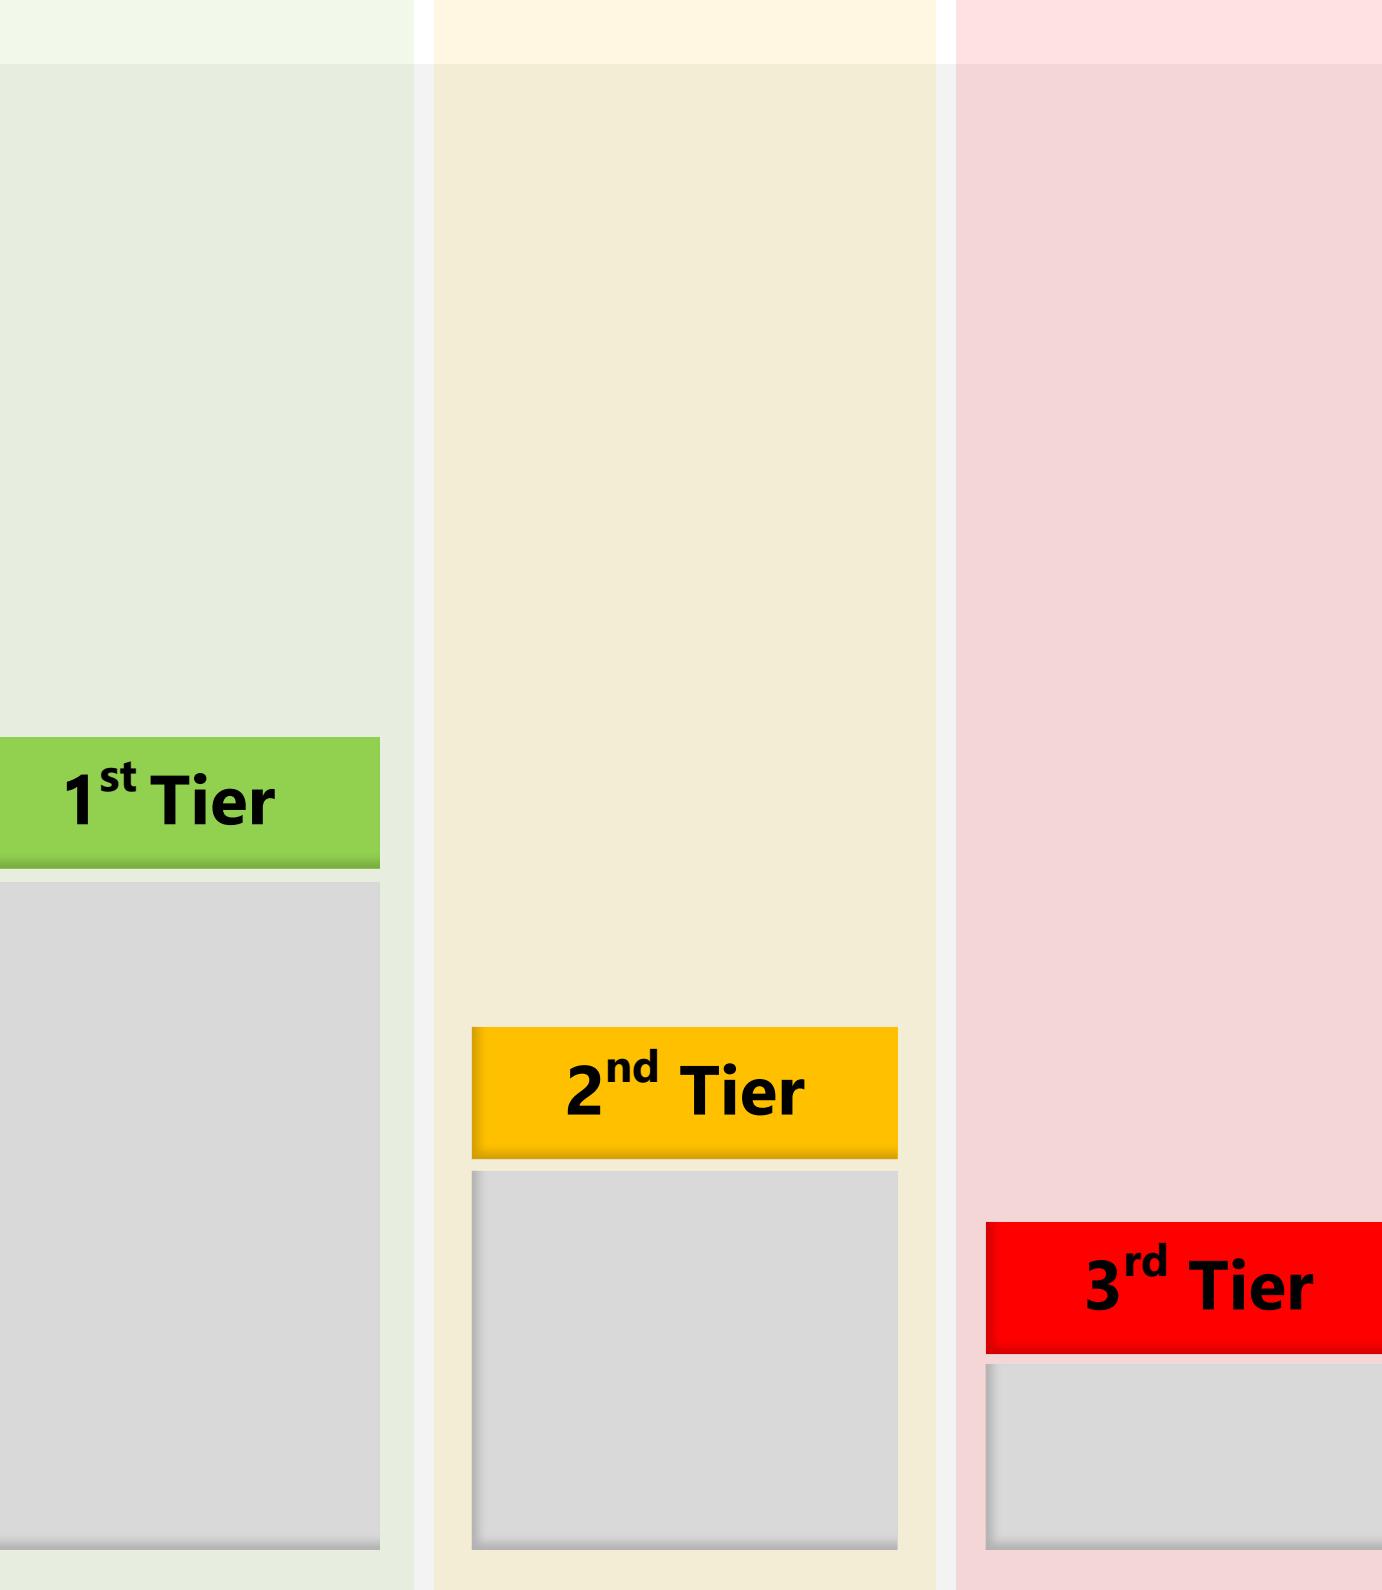

# HOUSING & COMMERCIAL BUILDINGS

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority
<b>Home Hardening Retrofit Program</b>	Plumas County proposes to implement a Home Hardening Retrofit Program that provides financial incentives to residents to improve their existing homes with ignition-resistant elements for deck and roof replacements, siding and window improvements, and other components.	 TBD	Fire science shows if more homes are "hardened," communities are better protected from fire dangers. A home hardening program will take a whole community approach with the goal of hardening entire neighborhoods to increase their resilience to wildfires.	 <b>Identified</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>Medium</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier
<b>RE]Building &amp; Permit Resource Center [Commercial + Residential [RE] Building, Small Developers [RE] Building]</b>	The center is a collaborative effort between Plumas County and other local organizations. The center's primary function is to provide a centralized location for permit and rebuilding information and resources. This includes providing information on the rebuilding process, building codes and safety standards, land use regulations, and zoning requirements.	<b>Plumas County Planning and Building Services</b>	The process to build a home, especially in the aftermath of a major wildfire, is complex. Residents need a resource to guide them through this process, including venues for hands-on training.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>Low</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier
<b>Residential Workforce Housing [Missing-Middle Housing]</b>	This disaster recovery project will focus on providing new and improved permanent housing options for the workers. Increasing the availability of safe housing will improve the quality of life for existing residents, but also attract new workers for the existing major employers in the County that need staff.	 TBD	Plumas County experienced a significant loss of housing and infrastructure due to the 2021 wildfires, and increasing workforce housing would help attract workers into the County.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b> 	 <b>High</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier
<b>Volunteer Organization Home Rebuilds</b>	Nonprofit organizations such as Hope Crisis Response Network (HCRN) help homeowners, who may still have financial gaps, rebuild by providing financial support and volunteer labor. Nonprofit organizations will coordinate with the Dixie Fire Collaborative to identify survivor households with significant unmet needs and help match them with appropriate resourcing support.	<b>Hope Crisis Response Network</b>	Many homeowners continue to experience a financial gap to reconstruct their homes, including not qualifying for more common financing options. Volunteer organizations are one potential resource to help survivors rebuild.	 <b>Identified</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b>	 <b>Low</b>	 1 <sup>st</sup> Tier 2 <sup>nd</sup> Tier 3 <sup>rd</sup> Tier

# NATURAL & CULTURAL RESOURCES

Project	Project Goal/Description	Champion	Project Need	Funding/Timing	Complexity	Priority
<b>Biomass Product Innovation</b> [Wood Fiber Growing Media Feasibility Study]	Aid in the development of industries and products from woody biomass "feedstock" to provide for economic growth. Some of the ideas presented were biomass energy, biochar, and wood fiber growing media. Innovations could include a variety of value added wood products and the marketing of these products for export.	<b>Dixie Fire Collaborative</b>	There is a significant need to be able to deal with the excess biomass from the forests in a way that creates industries and value added wood products which can contribute to the economic stability of the region.	 <b>Identified</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b>	 <b>High</b>	
<b>Greenville Community Park and Wolf Creek Trail System Enhancements</b> [Hillside Project Learning Living Laboratory]	Improvements to Greenville Community Park, including a pathway for pedestrians along Wolf Creek, park redesign and improved multi-modal access to the park, will enhance the safety and quality of life of local residents, provide an attraction for tourists, and improve the health of the stream that flows through Greenville. The trail could connect Plumas National Forest Greenville Campground north of town to the Greenville Community Park and also provide a future link to the proposed Hillside Project Learning Living Lab.	<b>Tyler Pew and Jane Braxton Little</b>	Wolf Creek is an essential asset in Greenville that has been effectively ignored. Highlighting this stream — making it a core part of the town's amenities — would enhance the quality of life for residents and attract tourists. Restoring the creek's natural channel would provide flood control to the many private property owners along the creek.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b>	 <b>High</b>	
<b>Habitat and Watershed Restoration</b> [Assessment of Post Fire Wildlife Movement, Post Fire Watershed Assessment, Watershed Restoration Coordinator, and Plumas Emergency Forest Restoration Team (EFRT)]	The project will assess priority watersheds within the Dixie Fire footprint for damages affecting aquatic habitat including damaged crossings, increased sedimentation, erosion, and barriers to fish passage. The goal is also to monitor and track the fire's impact on wildlife habitat and movement. Also, continue to support EFRT efforts and retain a project coordinator who will coordinate the efforts of the many involved parties.	 <b>Coordinator Position</b> <b>TBD</b>	The project will identify road stream crossings of salmonid habitat in areas burned by the Dixie Fire that are risks to water quality and fish habitat. It will also involve conducting a comprehensive assessment of wildlife migration patterns and habitat use before and after the fire, develop strategies to support the recovery of fish and wildlife populations, and promote biodiversity.	 <b>Unknown</b>  <b>LONG-TERM</b>  <b>MEDIUM-TERM</b>  <b>SHORT-TERM</b>  <b>IN PROGRESS</b>	 <b>High</b>	

# NATURAL & CULTURAL RESOURCES

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority		
<b>Historical and Cultural Activities and Sites Restoration [Greenville Cy Hall Memorial Museum]</b>	To enhance/restore the cultural activities and sites damaged by the Dixie Fire and to rebuild the Greenville Cy Hall Memorial Museum for the town of Greenville and the communities of Indian Valley.	<b>Greenville Cy Hall Memorial Museum Board, Travis Rubke, President</b>	This project provides an opportunity for the Indian Valley communities to look back and forward simultaneously. The shared history, memories, photos, artifacts, and stories associated with the Museum, help to mold and define the culture and character of any community. The project can bring back the Museum, as well as be an opportunity to recognize the impact of the Dixie Fire and demonstrate how Greenville is moving forward from it.	<b>Unknown</b>  LONG-TERM MEDIUM-TERM SHORT-TERM IN PROGRESS	<b>Medium</b>	<b>1<sup>st</sup> Tier</b>	<b>2<sup>nd</sup> Tier</b>	<b>3<sup>rd</sup> Tier</b>
<b>Tribal Integration and Needs</b>	This project comprises multiple lines of effort to help develop a holistic strategy to address Tribal concerns and needs through partnership development and inclusiveness.	<b>Greenville Rancheria, Enterprise Rancheria, Susanville Indian Rancheria, Mooretown Rancheria, Roundhouse Council, Maidu Summit Consortium</b>	The Tribes are an essential component of this community. The inclusion of the Tribes in this process is absolutely critical to supporting Plumas County and the journey towards Whole Community resiliency. Above all, this project is in direct support of the cultural preservation of this community's rich history and the significant contributions Tribal presence has had in shaping its identity.	<b>Identified</b>  LONG-TERM MEDIUM-TERM SHORT-TERM IN PROGRESS	<b>High</b>	<b>1<sup>st</sup> Tier</b>	<b>2<sup>nd</sup> Tier</b>	<b>3<sup>rd</sup> Tier</b>

# HEALTH & SOCIAL SERVICES

Project	Project Goal/ Description	Champion	Project Need	Funding/ Timing	Complexity	Priority
<b>Greenville Community Resilience Center</b> [Greenville Library, Greenville Town Hall, General Business & Marketplace Cooperative, Maker Space & Sales Venue, Community Kitchen & Food Processing]	There is community interest to incorporate former county functions into a proposed Community Resilience Center (CRC), such as the Greenville Library and Greenville Town Hall that were destroyed in the Dixie Fire. Business supportive projects may also be incorporated: General Business & Marketplace Cooperative, Maker Space & Sales Venue, and Community Kitchen & Food Processing.	Plumas County CAO's Office	A CRC will offer numerous services for the Greenville community such as an evacuation meeting area, emergency shelter, technology center (free wi-fi and power), recreation and education services, information hub, and emergency supply distribution point.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Greenville Rancheria Medical and Dental Clinic</b>	Rebuilding the Greenville Rancheria Medical and Dental Clinic at 410 Main Street would help restore medical and dental services for residents in and around Greenville. The facility would also help restore displaced and lost healthcare jobs.	Greenville Rancheria	The Greenville Rancheria Medical and Dental Clinic was destroyed in the Dixie Fire. Rebuilding the facilities and restoring those services would eliminate the need for residents to travel out of the area.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Greenville Safety Center</b> [Sheriff's Substation, IVCSD Fire, and PDH Ambulance]	The Indian Valley Fire Department proposes a combined use building for the Sheriff's Office Substation, Fire Hall, and Public District Hospital Ambulance Bay on the same lot currently being used for the temporary fire hall on SR 89 south of Greenville.	Indian Valley Community Services District	Re-establish a permanent emergency services and public safety facility in Indian Valley to reduce emergency response times.	<b>Pursuing</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>		
<b>Greenville Wellness Center</b> [Telemedicine Restoration & Expansion]	The Greenville Wellness Center, which could be a shared space with Greenville Rancheria medical and dental services, will provide a range of wellness services to support the physical and mental health of fire survivors in the community. These services may include medical care, counseling, therapy, and other support services that could potentially assist with increasing patient and community access to telehealth and telemedicine services at the center.	Plumas County Behavioral Health	The 2021 wildfires in Plumas County have had a significant impact on the physical and mental health of the community. The loss of homes, businesses, and infrastructure has created a great deal of stress and trauma for many residents.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-</b> <b>IN PROGRESS</b>		

# INFRASTRUCTURE

Project	Project Goal/Description	Champion	Project Need	Funding/Timing	Complexity	Priority
<b>Countywide Broadband and Electrical Power Capacity and Resiliency</b> [Broadband Improvements, Microgrids/Electrical, Electric Vehicle (EV) Charging Stations]	Residents desire utility improvements that include faster and more reliable broadband services and sustainable electrical systems in Plumas County. Proposed efforts to improve broadband include a multicounty (Butte, Glenn, Lassen, Modoc, Plumas, Shasta, Sierra, Siskiyou, and Tehama) broadband strategic planning effort and an Open Access Public Infrastructure Feasibility Study (identify service gaps, create network designs).	<b>Plumas County CAO's Office</b>	Today's homes and businesses require fast and dependable broadband services and resilient electrical systems to meet residents' current and future needs, including planning for possible Microgrid installations at County-owned facilities for backup power generation and Electric Vehicle (EV) Charging Stations that will support county residents and visitors who drive with EVs.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>High</b>	1 <sup>st</sup> Tier  2 <sup>nd</sup> Tier  3 <sup>rd</sup> Tier
<b>Dixie Fire Footprint Roadway Repairs and Needs</b>	The project will re-establish the existing pavement's condition and increase its remaining useful life to allow for two-way traffic, on-street parking, drainage, and snow removal (all necessary for the rebuilding of the residential and commercial uses needed in the community). The project will also assess the current evacuation routes and dead-end roads within the affected communities.	<b>Plumas County Department of Public Works</b>	A large proportion of the pavement within Greenville has been damaged and/or dug up by debris cleanup, lead-contaminated soils cleanup, PG&E electrical undergrounding, Frontier communications undergrounding, pole line replacement, and repairs and upgrades to IVCSD's water and sewer systems. Similar conditions exist to a lesser extent in smaller communities throughout the Dixie Fire Footprint.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>Low</b>	1 <sup>st</sup> Tier  2 <sup>nd</sup> Tier  3 <sup>rd</sup> Tier
<b>Greenville/Indian Valley — Utility Infrastructure Master Plan</b> [Broadband Improvements, Microgrids/Electrical, Electric Vehicle (EV) Charging Stations, Greenville Cemetery District Irrigation System & Secondary Fire Flow Protection for Greenville]	Create a holistic and visionary master plan for the public utility infrastructure within Greenville and Indian Valley. The plan will include evaluating current systems, determining remaining capacity, identifying where and what technology can best fit future needs, and aligning all utility systems towards a clear and concise goal of becoming "the most resilient rural community in the State."	<b>Indian Valley Community Services District</b>	Master planning for utility needs within Plumas County has not been done in the past due to the multitude of companies and agencies that operate various utility systems in the County. Within the long-term recovery plan process framework there is an opportunity to take a step forward and develop a small area master plan for opportunities for innovation and resiliency for public utility systems in Greenville and Indian Valley.	<b>Identified</b> <b>LONG-TERM</b> <b>MEDIUM-TERM</b> <b>SHORT-TERM</b> <b>IN PROGRESS</b>	<b>Low</b>	1 <sup>st</sup> Tier  2 <sup>nd</sup> Tier  3 <sup>rd</sup> Tier
