Tracey,

I want to go on record as being opposed to allowing vested rights for US Copper concerning the Engels and Superior Mines. We have owned a property on North Arm Road for over eight years and spend as much time as possible there, including living there full time during the pandemic. My husband and I frequent the area near the Engels and Superior mines for recreation and I go for bike rides on week days often during the warmer season and we have never seen any indication of mining activity at these mines. I do not believe the US Copper Corp has been active in the area and any claim of vested rights to mine is in error and an attempt to take advantage of the county and it's residents.

I recommend that the Plums County Zoning Administrator deny vested mining rights to US Copper Corp

Sincerely,
Macarena Parra
428 North Arm Rd
