Giving Every Family a Strong Start

Your child was born to learn — and you are their most important teacher. Parents as Teachers will empower you to step into that role with full confidence and raise a child that's healthy, safe and ready for school.

**Parents as
Teachers** is
proven to:

**Increase parent knowledge of early
childhood development**

**Increase children's school
readiness and success**

**Improve early detection of developmental
delays and health issues**

**Prevent child
neglect and abuse**

Our Home Visiting Model

SERVING EXPECTANT FAMILIES & CHILDREN UP TO 5

Parents as Teachers connects with your family in the comfort of your own home. You'll be matched with a Parent Educator who will make regular visits that enrich your parenting journey. And because this is your child and your family, every visit is tailored to your needs.

DURING A VISIT, YOUR PARENT EDUCATOR WILL:

- Demonstrate ways to help your child learn through play
- Provide materials for you and your child to connect through activities, games and crafts
- Share information about every stage of your child's development

Enrollment is always free

Find your local Parents as Teachers affiliate at **ParentsAsTeachers.org**.
