Question 2. - Did you meet the goals and/ or services projected in the "Problem Statement" of the application for CCP funds? If yes, give a brief description of how this was accomplished?	Yes

This achievement is particularly noteworthy given his struggles with mental health and his introverted nature. Despite these challenges, TH has excelled in his new role, demonstrating dedication and hard work on a daily basis.

In addition to his employment success, TH continues to attend classes and all of his case management meetings. His commitment to personal development and growth is evident in his proactive approach to learning and self-improvement. By stepping outside of his comfort zone, TH has shown that he is more than capable of overcoming the obstacles in his path.

Question 1 - How many Clients were served during this quarter?	110										
Question 2 - Did you meet the goals and/ or services projected in the "Problem Statement" of the application for CCP funds? If yes, give a brief description of how this was accomplished?	Yes*										
Mostly. During this reporting period, the Environmental Alternatives (EA) housing program served two High-Risk PRCS clients and two felony probation clients. None of the clients committed a new offense during this reporting period, although one client was found to be in violation of his PRCS terms. Two of the clients are currently employed. The Navigation Center Program (NCP) has provided a beneficial alternative to the EA Housing Program (EA) and has been utilized to some degree as a precursor to placement in the EA program. Both programs have proven to be effective and should be commended for their services. The Pre-release Video Conferences continue for those pending PRCS release. Officer assignment, review of court orders, risk/need assessments, and, to some degree, case plans have been provided as part of the reentry process for clients in custody; however, we have not been consistent and need to improve the delivery of these services. Domestic violence, Cognitive Behavioral Journaling and anger management classes continue to be provided to clients on a regular basis, including weekly journaling groups at the Probation Department that are gradually increasing in attendance.											
Question 3 - Were there challenges you faced trying to accomplish your goals? (Yes or No) Explain	Yes										
Yes. Helping clients find alternative long term housing has been difficult.
